The Anatomical Venus Morbid Anatomy

Museum, Joanna Ebenstein, 2016-05-16 Beneath the original Venetian glass and rosewood case at La Specola in Florence lies Clemente Susini's Anatomical Venus (c. 1790), a perfect object whose luxuriously bizarre existence challenges belief. It - or, better, she - was conceived of as a means to teach human anatomy without need for constant dissection, which was messy, ethically fraught and subject to quick decay. This life-sized wax woman is adorned with glass eyes and human hair and can be dismembered into dozens of parts revealing, at the final remove, a beatific foetus curled in her womb. Sister models soon appeared throughout Europe, where they not only instructed the specialist students, but also delighted the general public. Deftly crafted dissectable female wax models and slashed beauties of the world's anatomy museums and fairgrounds of the 18th and 19th centuries take centre stage in this disquieting volume. Since their creation in late 18th-century Florence, these wax women have seduced, intrigued and amazed. Today, they also confound, troubling the edges of our neat categorical divides: life and death, science and art, body and soul, effigy and pedagogy, spectacle and education, kitsch and art. Incisive commentary and captivating imagery reveal the evolution of these enigmatic sculptures from wax effigy to fetish figure and the embodiment of the uncanny.

You Are The Hero Jonathan Green, 2014-09-07
Fighting Fantasy gamebooks have sold over 17 million books worldwide, in over 30 languages. But when Steve Jackson and Ian Livingstone sat down to write *The Warlock of Firetop Mountain* they had no idea this one book would go on to spawn another eighty or more titles, and have an immeasurable impact on a generation of children growing up in the 1980s. Part history, part celebration, **YOU ARE THE HERO** chronicles more than three decades of Fighting Fantasy. Written by Jonathan Green (author of seven Fighting Fantasy titles), this mighty tome will appeal to anyone who ever wiled away a washed-out summer holiday with only two dice, a pencil, and an eraser for company. Best viewed on a colour screen of 7 upwards, as a daily reader to keep your precious hardback safe. but a fascinating resource. -- SFX "How many thousands of heroes did these books create? And how many lost their lives with a bad roll of the dice? A publishing phenomenon, without which computer games wouldn't be what they are today. About time these books were celebrated. Now go to page 45 and face your nemesis. -- Charlie Higson

The Hyperlinked Society Lokman Tsui, 2009-12-11 Links are among the most basic---and most unexamined---features of online life. Bringing together a prominent array of thinkers from industry and the academy, The Hyperlinked Society addresses a provocative series of questions about

the ways in which hyperlinks organize behavior online. How do media producers' considerations of links change the way they approach their work, and how do these considerations in turn affect the ways that audiences consume news and entertainment? What role do economic and political considerations play in information producers' creation of links? How do links shape the size and scope of the public sphere in the digital age? Are hyperlinks bridging mechanisms that encourage people to see beyond their personal beliefs to a broader and more diverse world? Or do they simply reinforce existing bonds by encouraging people to ignore social and political perspectives that conflict with their existing interests and beliefs? This pathbreaking collection of essays will be valuable to anyone interested in the now taken for granted connections that structure communication, commerce, and civic discourse in the world of digital media. This collection provides a broad and deep examination of the social, political, and economic implications of the evolving, web-based media environment. The Hyperlinked Society will be a very useful contribution to the scholarly debate about the role of the internet in modern society, and especially about the interaction between the internet and other media systems in modern society. ---Charles Steinfield, Professor and Chairperson, Department of Telecommunication, Information Studies, and Media, Michigan State University Joseph Turow is Robert Lewis Shayon Professor at the Annenberg School for Communication, University of Pennsylvania. The Truth Machine James L. Halperin, 1999-09-29
Prepare to have your conception of truth rocked to its very foundation. It is the year 2004. Violent crime is the number one political issue in America. Now, the Swift and Sure Anti-Crime Bill guarantees a previously convicted violent criminal one fair trial, one quick appeal, then immediate execution. To prevent abuse of the law, a machine

must be built that detects lies with 100 percent accuracy. Once perfected, the Truth Machine will change the face of the world. Yet the race to finish the Truth Machine forces one man to commit a shocking act of treachery, burdening him with a dark secret that collides with everything he believes in. Now he must conceal the truth from his own creation . . . or face his execution. By turns optimistic and chilling--and always profound--The Truth Machine is nothing less than a history of the future, a spellbinding chronicle that resonates with insight, wisdom . . . and astounding possibility. PROFOUND. --Associated Press

Betye Saar: Black Doll Blues , 2022-05-10 An investigation into Saar's lifelong interest in Black dolls, with new watercolors, historic assemblages, sketchbooks and a selection of Black dolls from the artist's collection This volume features new watercolor works on paper and assemblages by Betye Saar (born 1926) that incorporate the artist's personal collection of Black dolls. These watercolors showcase the artist's experimentation with vivid color and layered techniques, and her new interest in flat shapes. While Saar has previously used painting in her mixed-media collages, this is the first publication to focus on her watercolor works on paper. Watercolor is something that children use, so I decided, maybe I'll paint something about

children, maybe I'll paint the dolls, Saar says. Referencing the underrepresented history of Black dolls through Saar's artistic lens, this catalog distills several intersecting themes, imagery and objects in Saar's oeuvre, highlighting her prominent usage and reinvention of Black imagery. It contains 90 color images, including early assemblage works that feature Black dolls, such as *Gris-Gris Box*(1972) and *Mti*(1973), plus early sketchbooks and a curated selection of Saar's Black doll collection. It also includes original essays by Rachel Federman, Associate Curator of Modern and Contemporary Drawings at the Morgan Library & Museum, and Katherine Jentleson, Merrie and Dan Boone Curator of Folk and Self-Taught Art at the High Museum of Art, and an interview with the artist by her granddaughter, Maddy Inez Leaser.

Figures of Light Carole Zucker,2013-11-11 It is a rare and remarkable book that provides a forum for actors to discuss, in their own words, their experiences, their craft, and the creative process that makes and informs a brilliant performance. This book of original interviews is just such a treasure.

Howl of the Werewolf Steve Jackson,Ian Livingstone,2007 *Lupravia* is a cursed land, haunted by the spirits of the restless dead. Peasants struggle daily with survival, living in constant fear of attacks from ravenous wild beasts. Only the foolhardy or insane would willingly pass beyond its borders and enter that benighted realm of predators.

The Englishman David Gilman,2021-02-04 Penal

Colony No. 74, AKA White Eagle, lies some 600 kilometres north of Yekaterinburg in Russia's Sverdlovskaya Oblast. Imprisoning the country's most brutal criminals, it is a winter-ravaged hellhole of death and retribution. And that's exactly why the Englishman is there. Six years ago, Raglan was a soldier in the French Foreign Legion engaged in a hard-fought war on the desert border of Mali and Algeria. Amid black ops teams and competing intelligence agencies, his strike squad was compromised and Raglan himself severely injured. His war was over, but the deadly aftermath of that day has echoed around the world ever since: the assassination of four Moscow CID officers; kidnap and murder on the suburban streets of West London; the fatal compromise of a long-running MI6 operation. Raglan can't avoid the shockwaves. This is personal. It is up to him to finish it - and it ends in Russia's most notorious penal colony. But how do you break into a high security prison in the middle of nowhere? More importantly, how do you get out?

The Art of Co-Creation Bryan R. Rill, Matti M. Hämäläinen, 2018-08-20 This book illustrates how to design and implement co-creation, a powerful form of collective creativity that harnesses the potential of teams and can generate breakthrough insights. Skilled leaders and facilitators can utilize this approach to unleash the creative potential of their organizations. Drawing from years of applied research, the authors bring together insights from the fields of design and organizational development into an evocative and pragmatic "how-to" guidebook. Taking a human-

centred rather than process oriented perspective, the book argues that experience design separates true co-creation from other forms of collective efforts and design thinking. Collective moments of creative insight emerge from the space between, an experience of flow and synchronicity from which new ideas spring forth. How to create and hold this space is the secret to the art of co-creation. Collective breakthroughs require stakeholders to undergo a journey from the world of their existing expertise into spaces of new potential. It requires leaders moving from a position of dominating space to holding the space for others, and developing core capacities such as empathy and awareness so that teams can engage each other co-creatively. This book uncovers the secrets of this journey, enabling process designers to develop more effective programs.
