A Paradise of Small Houses Max Podemski,2024-03-26 From the Haitian-style “shotgun” houses of the 19th century to the lavish high-rises of the 21st century, a walk through the streets of America’s neighborhoods that reveals the rich history—and future—of urban housing The Philadelphia row house. The New York tenement. The Boston triple-decker. Every American city has its own iconic housing style, structures that have been home to generations of families and are symbols of identity and pride. Max Podemski, an urban planner for the city of Los Angeles and lifelong architecture buff, has spent his career in and around these buildings. Deftly combining his years of experience with extensive research, Podemski walks the reader through the history of our dwelling spaces—and offers a blueprint for how time-tested urban planning models can help us build the homes the United States so desperately needs. In *A Paradise of Small Houses*, Podemski charts how these dwellings have evolved over the centuries according to the geography, climate, population, and culture of each city. He introduces the reader to styles like Chicago’s prefabricated workers cottages and LA’s car-friendly dingbats, illuminating the human stories behind each city’s iconic housing type. Through it all, Podemski interrogates the American values that have equated home ownership with success and led to the US housing crisis, asking, “How can we look to the past to build the homes, neighborhoods, and cities of the future that our communities deserve?”

Irresistible Apps Chris Lewis,2014-03-18 When you create an app, a website, or a game, how do you attract users, and perhaps more importantly, how do you keep them? *Irresistible Apps* explains exactly how to do this using a library of 27 motivational design patterns and real-world examples of how they work. As a developer, you need to retain users in the new economy of advertisements, subscriptions, and in-app purchases, but how do you do this? How do some applications keep users coming back? Why do people spend hours and hours playing *World of Warcraft*? Why do people care about Reddit karma? What makes customers keep buying from Amazon? Why do so many people love Khan Academy? The answers are found in *Gameful*, *Social*, *Interface*, and *Information* patterns. Not only will you learn about these patterns, you’ll also learn why they work using psychological theories of intrinsic motivation, behavioral psychology, and behavioral economics. Good and bad implementations of the patterns are shown so practitioners can use them effectively and avoid pitfalls along the way.

Under Pressure Hina Jamelle,2021-09-29 *Under Pressure* is about instigation and design in urban housing. Urban housing is a bellwether for economic, social, and political change. It varies widely in quality, typology, and audience and lies between the formal systems of urban infrastructure and the informal systems of daily life. Housing’s complexity offers unique and exciting opportunities to architects. Its entwinement with private equity and public agencies presents important challenges amplified by urbanization. This book gathers and contextualizes relevant conversations in urban housing unfolding today across architecture through four topics: *Learning from History*, *Changing Domesticities*, *Housing Finance and Policy*, and *Design and Material Innovation*. The result is a multi-disciplinary amalgam of research and design intelligence from thought leaders in the fields of architecture, real estate, economics, policy, material design, and finance.

Devon Bridget Cherry, Nikolaus Pevsner, 2002-01-01 Exeter Cathedral is but the crowning glory of Devon's wealth of medieval churches, replete with sumptuous fittings and monuments. The county's peak of prosperity from the late Middle Ages to the seventeenth-century is reflected too in its castles, its secluded manor houses, and its scores of sturdily built farmhouses. The delights of Devon's well loved seaside and country towns are explored from the distinctive merchants' houses of Totnes and Topsham to the elegant Regency crescents of Teignmouth and Sidmouth. The picture is completed by accounts of the creation of the docks at Plymouth, industrial relics, and the substantial but little known store of Devon's Victorian churches.
