The Pandemic of Argumentation Steve Oswald, Marcin Lewiński, Sara Greco, Serena Villata, 2022-02-25 This open access book addresses communicative aspects of the current COVID-19 pandemic as well as the epidemic of misinformation from the perspective of argumentation theory. Argumentation theory is uniquely placed to understand and account for the challenges of public reason as expressed through argumentative discourse. The book thus focuses on the extent to which the forms, norms and functions of public argumentation have changed in the face of the COVID-19 pandemic. This question is investigated along the three main research lines of the COST Action project CA 17132: European network for Argumentation and Public PoLicY analysis (APPLY): descriptive, normative, and prescriptive. The volume offers a broad range of contributions which treat argumentative phenomena that are directly related to the changes in public discourse in the wake of the outburst of COVID-19. The volume additionally places particular emphasis on expert argumentation, given (i) the importance expert discourse has had over the last two years, and (ii) the challenges that expert argumentation has faced in the public sphere as a result of scientific uncertainty and widespread misinformation. Contributions are divided into three groups, which (i) examine various features and aspects of public and institutional discourse about the COVID-19 pandemic, (ii) scrutinize the way health policies have been discussed, debated, attacked and defended in the public sphere, and (iii) consider a range of proposals meant to improve the quality of public discourse, and public deliberation in particular, in such a way that concrete proposals for argumentative literacy will be brought to light. Overall, this volume constitutes a timely inquiry into all things argumentative in pandemic discourse. This volume is of interest to a broad readership including philosophers, linguists, communication and legal scholars, and members of the wider public who seek to better understand the discourse surrounding communicative phenomena in times of crisis. Issues in Global Business SAGE Publishing, 2021-03-03 In 2020, COVID-19 starkly demonstrated the global interconnectedness of business, as it disrupted supply chains and manufacturing operations, broadly shuttered retail stores, and led to restrictions on movement and travel around the world. Other events in 2019 also showcased the undeniable globalization of business, be it from the (un)expected ramifications of Brexit to the impacts of data breaches across various industries. Riots in Hong Kong over an extradition bill also sparked huge debate and controversy, and the U.S.-China trade war also caused concern. All of these events may have largely and immediately impacted one region, yet effects reverberate across larger swathes of the globe—ultimately affecting vast areas, industries, and sectors across the international landscape. *Issues in Global Business* explores all of these and more, across a wide range of topics, including the on-demand economy, global manufacturing, Bitcoin, data security, and many more. Coupled with a comprehensive overview of the business landscape around the world by Dr. Mamoun Benmamoun, an assistant professor at the Boeing

Institute of International Business at Saint Louis University, this book provides students with the essential information they need to assess business practices through an international lens.

Bring Me the Head of Alfredo Garcia Ian Cooper, 2011-12-13 In 1974, *The Wall Street Journal* called this movie grotesque, sadistic, irrational, obscene, incompetent, while *New York Magazine* declared it a catastrophe. Upon its initial release, Sam Peckinpah's notorious work took a critical and commercial nosedive, but in later years, the work was heralded as a demented masterpiece--a violent, hallucinatory autobiography and a brilliant example of pure Peckinpah. This study revisits the making of this controversial film, as well as its original reception and subsequent reassessment. It reads the project as an auteur work, a genre film, a confession, and a bizarre self-parody.

While the book treats serious topics, its tone—much like Hitchens' book—is analytical, but also breezy and biting.
