The City Builder György Konrád, 2007 An architect in an unnamed city considers his life, his work, and the many-layered history of the city he and his family--architects all--have contributed to building. In the days after World War II--during which American bombers destroyed much of what his father built--he becomes a Stalinist planner and realizes that the power of the nobility, the wealthy and the bourgeois has been usurped by technocrats. Vanished by those technocrats into the communist underworld of torture and imprisonment, he is eventually released into a post-Stalinist world and becomes the chief builder in a provincial town. Told with wit and elegance by one of Hungary's greatest novelists, *The City Builder* is one of the most important and impassioned books about the indignities of living in--and contributing to--a cruelly depersonalized society.

Anticipated Book of 2023 “A marvel.” —Kevin Wilson “Funny, moving, and often deliciously cynical.” —Tiphonie Yanique After living in the US for years, Maneka Roy returns home to India to mourn the loss of her mother and finds herself in a new world. The booming city of Hrishipur where her father now lives is nothing like the part of the country where she grew up, and the more she sees of this new, sparkling city, the more she learns that nothing—and no one—here is as it appears. Ultimately, it will take an unexpected tragic event for Maneka and those around her to finally understand just how fragile life is in this city built on aspirations. Written from the perspectives of ten different characters, Oindrila Mukherjee’s incisive debut novel explores class divisions, gender roles, and stories of survival within a society that is constantly changing and becoming increasingly Americanized. It’s a story about India today, and people impacted by globalization everywhere: a tale of ambition, longing, and bitter loss that asks what it really costs to try and build a dream.
