**Comparison between Internet Fax Services** Dr. Hidaia Mahmood Alassouli, 2021-04-18 Internet faxing uses the same principles as facsimile transmission, but it uses a Web interface instead of a fax machine. It can be a flexible, inexpensive option for transmitting documents. Internet fax services usually assign a fax number to each person who signs up for the service. people can send faxes to this number, and customers can send faxes via e-mail without using a fax machine. To send a fax through an Internet fax service:

- The sender attaches a document to an e-mail message. The document can be a scan of a paper document, or it can be created in a program like Microsoft Word.
- The sender addresses the message to the recipient's fax number, followed by the name of the faxing service (for example: 18005551234@emailfaxes.com).
- The service translates the attachment so that a fax machine can read it.
- The service sends the data across the phone line.
- The recipient's fax machine

decodes the data and prints the fax. To receive a document from a traditional fax machine through an Internet fax service:

- The sender dials the fax number that the service has assigned to the recipient.
- The fax machine translates the data and transmits it over the phone line.
- The service receives the data, translates it into an image file and sends the image to the recipient's e-mail address.
- The recipient opens the e-mail message and the attachment and views the file.

As getting cheap internet fax service is important, I tried to look for cheap internet fax service that can fax to any country worldwide and can also use PayPal as it is safe payment than credit card. Unfortunately, I could not find cheap fax service for international destination. All internet fax services offer only cheap services to the free zones countries such as USA and Canada. I could not find cheap service to international destinations. Maybe the best of my search for faxing to international destination was FAX.PLUS that allows also paypal. But when I tried to subscribe to basic plan using paypal, paypal asked me to give them permission to access my registered credit card, and I refused that and so I could not subscribe. I will divide web sites that I had look to their internet fax services in the following groups

- 1-Part1: Websites that accept paypal payments and support faxing to international countries. Some of these are: · Gotfreefax · fax.to · Faxfresh · PamFax.biz · Faxzero · FAX.PLUS
- 2-Part2: Websites that accept only credit/debit card payments and support faxing to international countries · Hellofax · J2 global services vendors. It includes Metrofax, myfax, smartfax, efax, trustfax, rapidfax and fax.com
- 3-Part3: Websites that support faxing to USA and Canada only · Nextiva · FAXAGE · FAXBetter

In this report, I will compare the internet fax services according to the cost for sending fax to United Arab Emirates. I will assume that I have three pages to be sent to any fax number in UAE.

**Global Security Consulting: How to Build a Thriving International Practice** Luke Bencie, 2018-07-27 Every year, thousands of highly qualified individuals from the intelligence community, the military and law enforcement – as well as related areas of government and private industry – look to strike out on their own. The excitement and the prospect of making it big leads many to choose the fastpaced and potentially lucrative field of global security consulting. Some go on to live the dream. Most do not. The vast majority of new businesses, consultants included, fail to make it even through their first year. The reasons are myriad, but the trends are visible – the most frequent cause of failure is being unprepared to meet the difficult and sometimes dangerous challenges of this highly specialized market. Luke Bencie is one of the many global security consultants who struck out on his own and one of the few who has succeeded – at lightning speed. Bencie has traveled to 120 countries and has been an adviser and confidant to multinational corporations, governments, militaries – even royalty. His success did not come without obstacles. Yet, as a friend to many in the security industry, an adherent to the philosophy of paying it forward, and a firm believer in the promise of global security consulting, Bencie has decided to share his experiences and expertise to help newcomers navigate this increasingly crowded field. Global Security Consulting, his second

book, has been lauded as a font of information and insight, an invaluable guide for avoiding the pitfalls that can wreck any business, particularly ones that deal with potentially lethal adversaries. Frequently dead serious, occasionally lighthearted and always clear-headed, Global Security Consulting promises to become a standard reference for consultants worldwide – a blueprint for those with the skills, determination and raw courage to succeed in one of the 21st century's true growth industries. Read it, and be prepared.
