**The Giving Tree** Shel Silverstein,2014-02-18 As The Giving Tree turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. Once there was a tree...and she loved a little boy. So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or

slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half, Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Babbit*. And don't miss the other Shel Silverstein ebooks, *Where the Sidewalk Ends* and *A Light in the Attic*!

It soon becomes a game, with the children looking for new mittens on the mysterious tree every morning, and Sarah joyfully knitting new ones each night. **The Lifebox, the Seashell, and the Soul: What Gnarly Computation Taught Me About Ultimate Reality, The Meaning of Life, And How to Be Happy** Rudy Rucker,2016-10-31 A playful and profound survey of the concept of computation across the entire spectrum of human thought-written by a mathematician novelist who spent twenty years as a Silicon Valley computer scientist. The logic is correct, and the conclusions are startling. Simple rules can generate gnarly patterns. Physics obeys laws, but the outcomes aren't predictable. Free will is real. The mind is like a quantum computer.

Social strata are skewed by universal scaling laws. And there can never be a simple trick for answering all possible questions about our world's natural processes. We live amid splendor beyond our control.

**Roomies** Christina Lauren, 2017-12-05 From subway to Broadway to happily ever after. Modern love in all its thrill, hilarity, and uncertainty has never been so compulsively readable as in New York Times bestselling author Christina Lauren's *Roomies*. Marriages of convenience are so...inconvenient. For months Holland Bakker has invented excuses to descend into the subway station near her apartment, drawn to the captivating music performed by her street musician crush. Lacking the nerve to actually talk to the gorgeous stranger, fate steps in one night in the form of a drunken attacker. Calvin Mccloughlin rescues her, but quickly disappears when the police start asking questions. Using the only resource she has to pay the brilliant musician back, Holland gets Calvin an audition with her uncle, Broadway's hottest musical director. When the tryout goes better than even Holland could have imagined, Calvin is set for a great entry into Broadway—until his reason for disappearing earlier becomes clear: he's in the country illegally, his student visa having expired years ago. Seeing that her uncle needs Calvin as much as Calvin needs him, a wild idea takes hold of her. Impulsively, she marries the Irishman, her infatuation a secret only to him. As their relationship evolves and Calvin becomes the darling of Broadway—in the middle of the theatrics

and the acting-not-acting-will Holland and Calvin to realize that they both stopped pretending a long time ago?

**Eating the Underworld** Doris Brett, 2011-11-30 An extraordinary personal journey through cancer and treatment. ...Extraordinary...Its bravery, irony, humour and intelligence - everything shines through the transparent prose...a remarkable literary voice, or melding of three voices--the autobiographical, the poetic, and the allegorical. - Dr. Oliver Sacks The life of an individual is as complex as a maze of reflecting mirrors. The life of a family is even more so. Doris Brett is an award-winning writer and poet. 'I forget who said that the prospect of impending death concentrates the mind wonderfully . . . clarifying is the word I keep thinking of. But this is not the clarifying of a mist gently evaporating to reveal answers. This is the clarifying of paint-stripper; a solvent that stings and burns with its harshness, but reveals what was truly there all the time.' When Doris Brett was diagnosed with cancer several years ago, she began writing a private journal - a traveller's diary through a life-threatening illness. The journal, however, rapidly grew into something much more than that. Cancer became the catalyst for an inner journey - a journey through self. Evocatively told via three voices - the diarist, the poet, and the voice of fairytale and myth - this memoir explores the intricate dynamics of family, truth and memory. Poignant and compelling, *Eating the Underworld* is a sharply observed, often unexpectedly funny book about change, transformation and the constant renewal of

self throughout our lives. 'As with any descent into a feared and terrifying country - whether it is the country of illness or the country of a grieving heart - we have entered the underworld. And we have eaten of its fruit . . . the knowledge of ourselves, the knowledge of others. We cannot remain unchanged.
