A Biographical Dictionary of English Court Musicians, 1485-1714, Volumes I and II David Lasocki,2018-05-08 Compiled by scholars with unrivalled knowledge of the sources, this dictionary provides biographies of all musicians and instrument makers employed by the English court from 1485-1714. A number of the musicians featured here have never previously received a dictionary entry. Coverage of these minor figures helps to flesh out the picture of musical life in the court in a way which individual studies of more major composers cannot. In addition to basic biographical details, entries feature information on: appointments; probate material; family background; heraldry; signatures and holograph documents; subscriptions to books; bibliographic references. A finding-list of variant names, details of the succession of court places assumed by musicians and an index of subjects and place names completes this comprehensive reference work.
