Take Back Your Power Deborah Liu,2022-08-09 You can't make the world fair, but you can take back your power. As a woman in Silicon Valley who worked her way to the top of the corporate ladder--she's a former VP at Facebook and the current president and CEO of Ancestry--Deborah Liu knows firsthand the challenges and obstacles in the workplace that keep the deck stacked against women in the workplace . . . and the ways to overcome them. For every woman who grew up competing on the uneven playing field, who is told she is too aggressive, assertive, dramatic, or emotional, this book is the battle cry you need to learn to thrive within the system that exists today, even if it's not the one we wish it were. Take Back Your Power presents both hard data and Liu's personal experiences from twenty years as a woman leader in the male-dominated tech industry to help you: Find your voice, learn how to ask, and achieve what you want in a system that isn't fair and wasn't created for you Debunk the negative connotations of power and harness it for your own success Discover how to be heard, seen, and taken more seriously at work by getting out of your own way Overcome the lie that success is only achieved alone by finding the four types of allies you need to reach your goals Become a great leader without losing yourself in the process You have the power to change

the future of work for yourself--and for women everywhere.

Take Ten: New 10-Minute Plays Eric Lane, Nina Shengold, 1997-03-25 A ten-minute play is a streak of theatrical lightning. It doesn't last long, but its power can stand your hair on end. This splendid anthology contains enough wattage to light up a small city. For in its pages, thirty-two of our finest playwrights hone their skills on a form that has been called the haiku of the American stage. The plays that Nina Shengold and Eric Lane have collected in this volume range from monologues to an eight-character farce. Eminently producible, ideally suited for the classroom and audition, *Take Ten* is a marvelous resource for teachers and students of drama, as well as a stimulating read for lovers of the theatre. Contributors include: John Augustine, Cathy Celesia, Laura Cunningham, Joe Pintauro, Mary Sue Price, Megan Terry, Jose Rivera, Romulus Linney, David Mamet, Jane Martin, David Ives, and many others.

How to Take 10 Years to Write a Book Robert Patterson, 2021-12-15 After cancer strikes, a middle-aged couple drop everything, sell most of their belongings, buy an old motor home and utility trailer, and set out on a five-month journey around the country. A few years later, tragedy strikes, and the husband begins his struggle to get the story published and begin fulfilling his dream of starting a nonprofit organization. Along the way, his faith is rediscovered, life happens, and he finds out that all it takes to get the job done is persistence and a resolve to finish the project--all found from within the heart.

War Footing Frank J Gaffney, 2013-05-11 America has been at war for years, but until now, it's not been clear with whom. We have been fighting without being clear for what. We have been waging war without using the full resources we need to win. With the publication of War Footing, Frank Gaffney and his colleagues make it clear not only whom the enemy is and how high the stakes are, but also how we can prevail. Their book explains that we are engaged in nothing less than a War for the Free World --a fight to the death with Islamofascists who adhere to a political ideology bent on our destruction. It then offers ten specific steps that Americans, as individuals and as communities, can take to ensure our way of life and the safety and well-being of our children. These steps include specific recommendations about how to know the enemy, support our troops, provide for our energy security, stop investing in terror, equip the country for war at home,

counter an EMP attack, secure our borders and interior against illegal immigration, wage political warfare, launch regional initiatives, and wield effective diplomacy. This definitive, highly readable owner's manual for the War for the Free World has been written by one of the most prominent national security experts of our time, Frank J. Gaffney, and his extraordinary team of respected experts. Among them are R. James Woolsey, Victor Davis Hanson, Generals Tom McInerney, USAF (Ret.) and Paul Vallely, USA (Ret.); Alex Alexiev, Andrew McCarthy, Claudia Rosett, Michael Rubin, Daniel Goure, Caroline Glick, Michael Waller, and many others.

How Many Judges Does it Take to Make a Supreme Court? John V. Orth,2006
Through six accessible essays, the author invites students of the law to look beyond accepted American legal practices. One learns why appellate courts always have an odd number of judges, why the power of judges depends partly on accurate court reporting and unitary, opinions of the court, how common law rules can be unconstitutional, and many other pressing legal issues.

Sick To Death and Not Going to Take It Anymore! Joanne Lynn,2004-10-11 Just a few generations ago, serious illness, like hazardous weather, arrived with little warning, and people either lived through it or died. In this important, convincing, and long-overdue call for health care reform, Joanne Lynn demonstrates that our current health system, like our concepts of health

and disease, developed at a time when life was mostly short, serious illnesses and disabilities were common at every age, and dying was quick. Today, most Americans live a long life, with the disabilities and discomforts of progressive chronic illness appearing only during the final chapters of their life stories. *Sick to Death and Not Going to Take It Anymore!* maintains that health care and community services are not set up to meet the needs of the large number of people who face a prolonged period of progressive illness and disability before death. Lynn offers what she calls an owner's manual for the health care system, which lays out facts, concepts, strategies, and action plans for genuine reform and gives the reader new ways to interpret information creatively, imagine innovative possibilities, and take steps to implement them.
