*Creating the Viewer* Justin Wyatt,2024-04-23 A study of the largely hidden world of primary media market research and the different methods used to understand how the viewer is pictured in the industry. The first book on the intersection between market research and media, *Creating the Viewer* takes a critical look at media companies' studies of television viewers, the assumptions behind these studies, and the images of the viewer that are constructed through them. Justin Wyatt examines various types of market research, including talent testing, pilot testing, series maintenance, brand studies, and new show "ideation," providing examples from a range of programming including news, sitcoms, reality shows, and dramas. He looks at brand studies for networks such as E!, and examines how the brands of individuals such as showrunner Ryan Murphy can be tested. Both an analytical and practical work, the book includes sample questionnaires and paths for study moderators and research analysts to follow. Drawn from over fifteen years of experience in research departments at various media companies, *Creating the Viewer* looks toward the future of media viewership, discussing how the concept of the viewer has changed in the age of streaming, how services such as Netflix view market research, and how viewers themselves can shift the industry through their media choices, behaviors, and activities.

**The American Television Industry** Michael Curtin,Jane Shattuc,2017-11-07 The American Television Industry offers a concise and accessible introduction to TV production, programming, advertising, and distribution in the United States. The authors outline how programs are made and marketed, and furthermore provide an insightful overview of key players, practices, and future trends.

Media Depictions of Brides, Wives, and Mothers Alena Amato Ruggerio,2012 *Media Depictions of Brides, Wives, and Mothers*, edited by Alena Amato Ruggerio, explores how television, film, the internet, and other media variously perpetuate gender stereotypes. The contributors to this volume bring a variety of feminist rhetorical and media criticism approaches from across the communication discipline to their analyses of how television, film, news coverage, and the Internet shape our expectations of the performance of women's identities. This collection includes studies of *Bridezillas*, *Jon & Kate Plus 8*, *Sex and the City*, Sarah Palin, Nancy Pelosi, *The Devil Wears Prada*, *Practical Magic*, momtini blogs, and *Mad Men* fan websites. Readers will learn to apply the insights from each chapter to their own sets of myths, stereotypes, and assumptions about gendered roles, and to recognize the possibilities for both liberation and domination when women's practices of marrying, mating, and mothering are represented and misrepresented in the media. This collection is an essential contribution to media studies and criticism of gender stereotypes in contemporary culture. Read the author's recent interview with Literary Ashland. You can also visit the author's website here.

The Lifetime Network Emily L. Newman,Emily Witsell,2016-04-05 For more than 30 years, Lifetime has aired a broad range of programming, including original movies, sitcoms, dramas and reality shows. As other networks dedicated to women have come and gone, Lifetime continues to thrive in an ever-expanding cable marketplace, exploring such sensitive topics as race, commercialism, eating disorders, rape and domestic violence. This collection of new essays is the first to focus on Lifetime and the programs that helped define the network's brand that appeals to both viewers and advertisers. Series like *Project Runway*, *Girlfriend Intervention* and *Army Wives* are explored in depth. The contributors discuss the network's large opus of original films, as well as its online presence.

**The Gülen Hizmet Movement** Tamer Balci,Christopher L. Miller,2013-01-03 This volume covers the origins, historical development, and ideas of one of the largest and most influential Islamic movements in the world, the Gülen Hizmet Movement (GHM). Founded during the Cold War under the inspiration of M. Fethullah Gülen, the GHM expanded to over 130 countries by the first decade of the twenty first century. The movement's circumspect activism sheltered it from illiberal secular practices in Turkey and has guided it through the anxious post-Cold War process of globalization. This edited volume covers various characteristics of the movement from Gülen's unconventional oratory to his educational philosophy. In addition, the book covers Gülen's ideas on Islam and democracy and the GHM's indirect political engagement compared to the direct engagement of the Muslim Brotherhood. Other chapters in the book cover the role of women in the movement, the GHM's creation of an alternative public sphere for pious Muslims, and the tension this creation instills in light of Secularism Theory, which is analyzed comparatively with American religious pluralism. The last two chapters question the effectiveness of interfaith dialogue activities promoted by the movement's adherents. A concluding section seeks to synthesize this interdisciplinary scholarship in order to assess the GHM's overall gestalt as a social movement.

*This Business of Broadcasting* Leonard Mogel,2004 This guide provides industry background and career advice in a three-part arrangement. The second part, on radio, focuses programming formats, advertising formats, advertising

Reality Check Michael Essany,2013-07-24 Do you have a concept for a reality TV show, but aren't sure about the next steps? Loaded with practical, step-by-step advice on the art and business of reality TV producing, and featuring insights from Mark Burnett, Dick Clark, and other top producers, *Reality Check* takes you from idea to...reality! At age 13, Michael Essany launched a lowly cable access TV talk show from his parents' basement in Valparaiso, Indiana. Fast forward to 2001, and Michael had turned his little talk show, *The Michael Essany Show*, into a multimillion-dollar project that quickly became one of the most talked about reality television shows. If Michael can do it, so can you. But be prepared for a lot of hard work and a few reality checks. This book includes compelling advice on how to: \* Better understand the nature, complexities, and potential of the reality genre \* Physically produce original reality programming \* Get past the gatekeepers and deliver quality pitches to major networks and production companies \* Legally protect yourself, your work, and your intellectual property \* Learn from glories and the gaffes of those who toiled before you \* Utilize the internet and other multimedia outlets to create and generate revenue from reality programming \* Avoid the professional pitfalls of the reality TV industry \* Parlay reality television projects into a successful and enduring career

**Understanding the Music Business** Richard Weissman,2015-09-30 *Understanding the Music Business* offers students a current overview of the music business. Going beyond what most music business texts offer, Weismann delivers a contemporary approach that addresses the unanswered questions for today's music students, such as, Is it really possible to make a living as musician? *Understanding the Music Business* covers the basics in the first part of the text. This first section deals with the fundamentals of the industry, including recording, music publishing, agents, managers, radio and television, unions, the internet and new technology, and regional and international music markets. However, it is the second half of the text that breaks new ground by covering the career paths of new artists in the industry, the development and need for entrepreneurial skills, and the ways that individuals forge careers in the industry.

Machine Learning for Transportation Research and Applications Yin Hai Wang,Zhiyong Cui,Ruimin Ke,2023-04-19 Transportation is a combination of systems that presents a variety of challenges often too intricate to be addressed by conventional parametric methods. Increasing data availability and recent advancements in machine learning provide new methods to tackle challenging transportation problems. This textbook is designed for college or graduate-level students in transportation or closely related fields to study and understand fundamentals in machine learning. Readers will learn how to develop and apply various types of machine learning models to transportation-related problems. Example applications include traffic sensing, data-quality control, traffic prediction, transportation asset management, traffic-system control and operations, and traffic-safety analysis. Introduces fundamental machine learning theories and methodologies Presents state-of-the-art machine learning methodologies and their incorporation into transportation domain knowledge Includes case studies or examples in each chapter that illustrate the application of methodologies and techniques for solving transportation problems Provides practice questions following each chapter to enhance understanding and learning Includes class projects to practice coding and the use of the methods

*Complex Systems and Clouds* Dan C. Marinescu,2016-10-15 *Complex Systems and Clouds: A Self-Organization and Self-Management Perspective* provides insights into the intricate world of self-organizing systems. Large scale distributed computer systems have evolved into very complex systems and are at the point where they need to borrow self-adapting organizing concepts from nature. The book explores complexity in big distributed systems and in the natural processes in physics and chemistry, building a platform for understanding how self-organization in big distributed systems can be achieved. It goes beyond the theoretical description

of self-organization to present principles for designing self-organizing systems, and concludes by showing the need for a paradigm shift in the development of large-scale systems from strictly deterministic to non-deterministic and adaptive. Analyzes the effect of self-organization applied to computer clouds  
Further research on principles of self-organization of computing and communication systems inspired by a wealth of self-organizing processes and phenomena in nature and society  
Presents a unique analysis of the field, with solutions and case studies

**Brown Dog** Dorothy Urbanek,2015 Story of a woman's struggle to come to grips with her rape, and life situations.  
**African American Women in the Oprah Winfrey Network's Queen Sugar Drama** Ollie L. Jefferson,2021-01-15 This critical study interrogates the intersection of race and gender media representations on screen and behind the scenes. The thought-provoking investigation on the Oprah Winfrey Network's Queen Sugar series shows the ways in which the television drama is a significant contribution to mainstream media that creates in-depth conversations concerning African American women's social roles, social class, and social change. Ollie L. Jefferson provides a unique analysis of the television production by using the exemplary representations conceptual framework to contextualize and theorize research contributing to systemic change. Jefferson highlights the best practices used by African American female executive producers, Oprah Winfrey and Ava DuVernay, by examining Queen Sugar as a case study. The investigation shows how the decision-makers produced multidimensional female characters to illustrate the complex humanity of Black lives. This book broadens understanding of the media industry's need for culturally sensitive and conscious inclusion of women and people of color behind the scenes—as media owners, creators, writers, directors, and producers—to put an end to the persistent and pervasive misrepresentations of African American women on screen. Scholars of television studies, film studies, media studies, race studies, and women's studies will find this book particularly useful.

**The 1990s Teen Horror Cycle** Alexandra West,2018-06-05 Many critics and fans refer to the 1990s as the decade that horror forgot, with few notable entries in the genre. Yet horror went mainstream in the '90s by speaking to the anxieties of American youth during one of the country's most prosperous eras. No longer were films made on low budgets and dependent on devotees for success. Horror found its way onto magazine covers, fashion ads and CD soundtrack covers. "Girl power" feminism and a growing distaste for consumerism defined an audience that both embraced and rejected the commercial appeal of these films. This in-depth study examines the youth subculture and politics of the era, focusing on such films as Buffy the Vampire Slayer (1992), Scream (1996), I Know What You Did Last Summer (1997), Idle Hands (1999) and Cherry Falls (2000).

*Reality Television* Alison F. Slade,Amber J. Narro,Burton P. Buchanan,2014-03-06 With its dedication to odd and unique reality television, the media has created intrigue and provided entertainment that reflects a diverse American culture. This book examines such reality television shows, as well as audience response and fan interaction.
