Routledge Handbook of Contemporary Vietnam Jonathan D. London,2022-07-29 The Routledge Handbook of Contemporary Vietnam is a comprehensive resource exploring social, political, economic, and cultural aspects of Vietnam, one of contemporary Asia's most dynamic but least understood countries. Following an introduction that highlights major changes that have unfolded in Vietnam over the past three decades, the volume is organized into four thematic parts: Politics and Society Economy and Society Social Life and Institutions Cultures in Motion Part I addresses key aspects of Vietnam's politics, from the role of the Communist Party of Vietnam in shaping the country's institutional evolution, to continuity and change in patterns of socio-political organization, political expression, state repression, diplomatic relations, and human rights. Part II assesses the transformation of Vietnam's economy, addressing patterns of economic growth, investment and trade, the role of the state in the economy, and other economic aspects of social life. Parts III and IV examine developments across a variety of social and cultural fields through chapters on themes including welfare, inequality, social policy, urbanization, the environment and society, gender, ethnicity, the family, cuisine, art, mass media, and the politics of remembrance. Featuring 38 essays by leading Vietnam scholars from around the world, this book provides a cutting-edge analysis of Vietnam's transformation and changing engagement with the world. It is an invaluable interdisciplinary reference work that will be of interest to students and academics of Southeast Asian studies, as well as policymakers, analysts, and anyone wishing to learn more about contemporary Vietnam.

Evidence-based Conservation Terry C.H. Sunderland,Jeffrey Sayer,Hoang Thi Minh Ha,2012-09-10 There is a considerable gap between the science of conservation biology and the design and execution of biodiversity conservation projects in the field. Science is often failing to inform the practice of conservation, which remains largely experience-based. The main reason is the poor accessibility of evidence on the effectiveness of different interventions. This is the basis for this book adopting an 'evidence-based approach', modelled on the systematic reviews used in health sciences and now being applied to many policy arenas. Evidence-based Conservation brings together a series of case studies, written by field practitioners, that provides the evidence-base for evaluating how effective conservation and poverty alleviation strategies can be better implemented. A series of systematic reviews uses experiences and data from fifteen integrated conservation and development projects conducted in the Lower Mekong region, specifically in Vietnam, Laos and Cambodia. They provide wide-ranging overviews of the effectiveness of protected areas and how innovative tools and methods for monitoring and evaluation can be utilised for more effective outcomes. Results are in the form of management and policy recommendations, based on the quality of evidence and the cost-utility of the intervention. By bridging the gap between field practice and conservation, the analysis should lead to more effective integrated conservation and development interventions. The book represents one of the first attempts to apply the evidence-based approach to conservation and development.

The SAGE Handbook of Intercultural Competence Darla K. Deardorff,2009-08-31 Containing chapters by some of the world's leading experts and scholars on the subject, this book provides a broad context for intercultural competence. Including the latest research on intercultural models and theories, it presents guidance on assessing intercultural competence through the exploration of key assessment principles.

Transforming REDD+ Angelsen, A.,Martius, C.,de Sy, V.,Duchelle, A.E.,Larson, A.M.,Pham, T.T.,2018-12-12 Constructive critique. This book provides a critical, evidence-based analysis of REDD+ implementation so far, without losing sight of the urgent need to reduce forest-based emissions to prevent catastrophic climate change. Race, Ethnicity, and Language Data Institute of Medicine,Board on Health Care Services,Subcommittee on Standardized Collection of Race/Ethnicity Data for Healthcare Quality Improvement,2009-12-30 The goal of eliminating disparities in health care in the United States remains elusive. Even as quality improves on specific measures, disparities often persist. Addressing these disparities must begin with the fundamental step of bringing the nature of the disparities and the groups at risk for those disparities to light by collecting health care quality information stratified by race, ethnicity and language data. Then attention can be focused on where interventions might be best applied, and on planning and evaluating those efforts to inform the development of policy and the application of resources. A lack of standardization of categories for race, ethnicity, and language data has been suggested as one obstacle to achieving more widespread collection and utilization of these data. Race, Ethnicity, and Language Data identifies current models for collecting and coding race, ethnicity, and language data; reviews challenges involved in obtaining these data, and makes recommendations for a nationally standardized approach for use in health care quality improvement.

Evidence-Based Advance and Management of Drug Treatment of Infectious Diseases Yonggang Zhang,Hong Fan,Min Yang,2021-12-06 Infectious diseases are caused by microorganisms that release toxins or invade body tissues. The most common pathogenic organisms are bacteria, viruses, fungi, protozoa, and helminths. Systemic infections usually cause fevers, chills, sweats, malaise, and occasionally headache, muscle and joint pain, or changes in mental status, and even septic shock-MODS. Infectious diseases have always threatened populations and caused great loss of life in history, but since the last century, with the discovery of antibiotics, historical trends have been reversed. It is reported that between 1990 and 2017, age-standardized disability-adjusted life year (DALY) rates decreased by 41.3% (38.8-43.5) for infectious diseases. However, in 2017, lower respiratory infections are still ranked as the third cause of DALYs. Drug therapy is the one of most critical management strategies for infectious diseases. Efficacy and safety of drug therapy should always be considered, especially in elders, neonates and immunosuppressed patients. Off-label drug therapy has been performed for complex infectious diseases, especially for new emerging infectious diseases. However, off-label drug therapy can be extremely complex: some are prone to rational use, while others are more susceptible to the issues of irrational use. With the increasing rate of publication of data in this area, new evidence for the efficacy and safety of different treatment approaches is constantly developing. Thus, rigorous analysis of such data is imperative, which will guide future clinical practice and guidelines.
