American History Revised Seymour Morris Jr., 2021-08-03 We tend to think of history as settled, set in stone, but American History Revised reveals a past that is filled with ironies, surprises, and misconceptions. Living abroad for twelve years gave author Seymour Morris Jr. the opportunity to view his country as an outsider and compelled him to examine American history from a fresh perspective. As Morris colorfully illustrates through the 200 historical vignettes that make up this book, much of our nation's past is quite different—and far more remarkable—than we thought. We discover that: • In the 1950s Ford was approached by two Japanese companies begging for a joint venture. Ford declined their offers, calling them makers of “tin cars.” The two companies were Toyota and Nissan. • Eleanor Roosevelt and most women's groups opposed the Equal Rights Amendment forbidding gender discrimination. • The two generals who ended the Civil War weren't Grant and Lee. • The #1 bestselling American book of all time was written in one day. • The Dutch made a bad investment buying Manhattan for \$24. • Two young girls aimed someday to become First Lady—and succeeded. • Three times, a private financier saved the United States from bankruptcy. Organized into ten thematic chapters, American History Revised plumbs American history's numerous inconsistencies, twists, and turns to make it come alive again.

American Revolution The American Revolution, which took place between 1765 and 1783, was an uprising by British colonists in North America against the rule of Great Britain. The colonists were fighting for rights they felt they deserved, not only as British citizens, but as human beings. War of 1812 In 1812, Americans held two distinctly different visions of their country. Some saw growing production, manufactures, trade, and merchant ships traversing the globe bringing a vast array of staple and luxury goods to commercial centers and riches to American captains living in cities like the capitals of Europe. Others saw a vast agrarian paradise spreading from the eastern coast into the western wilderness where innumerable American farmers and their families could be independent and equal, free of government impediments and corruption. American Civil War Beginning with the birth of the nation, slavery divided and caused conflict for the United States of America, worsening during the country's early decades as the practice became more economically vital. Finally, in 1861, the American Civil War erupted after the election of President Abraham Lincoln. The Great Depression The Great Depression was one of the most trying eras in American history. All aspects of the United States were affected. After the stock market crash of 1929, the nation was thrust into a decade of turmoil and change--in government, the economy, and culture. Many of the changes brought about by the Great Depression remain today. Pearl Harbor President Franklin D. Roosevelt described December 7, 1941, the date when the Japanese launched a surprise attack against the United States while the two countries were still officially at peace, as a day that would live in infamy. The action hurled the United States into the global conflict of World War II, a violent conflagration that the nation, fiercely isolationist, had intended to ignore. The Space Race During fourteen years, from 1955 to 1969, the Soviet Union and

the United States of America were engaged in a dramatic race against each other to conquer space. This period encompassed dramatic victories, humbling defeats, and more than one tragedy. Vietnam War The Vietnam War remains one of the most iconic events of the twentieth century. In the United States, it polarized public opinion and changed foreign policy. It destroyed the presidency of Lyndon Johnson and was the catalyst for a massively impactful protest movement. More importantly, in Vietnam, as well as surrounding areas, it caused untold destruction, death, and suffering.
