*Today I Feel Silly & Other Moods That Make My Day* Jamie Lee Curtis, 1998-09-10 Today I feel silly. Mom says it's the heat. I put rouge on the cat and gloves on my feet. I ate noodles for breakfast and pancakes at night. I dressed like a star and was quite a sight. Today I am sad, my mood's heavy and gray. There's a frown on my face and it's been there all day. My best friend and I had a really big fight. She said that I tattled and I know that she's right. Silly, cranky, excited, or sad--everyone has moods that can change each day. Jamie Lee Curtis's zany and touching verse, paired with Laura Cornell's whimsical and original illustrations, helps kids explore, identify, and, even have fun with their ever-changing moods. Here's another inspired picture book from the bestselling author-illustrator team of *Tell Me Again About the Night I Was Born* and *When I Was Little: A Four-Year-Old's Memoir of Her Youth*.

The Oxford Handbook of Emotion, Social Cognition, and Problem Solving in Adulthood Paul Verhaeghen, Christopher Hertzog, 2014-03-20 Over the last decade, the field of socio-emotional development and aging has rapidly expanded, with many new theories and empirical findings emerging. This trend is consistent with the broader movement in psychology to consider social, motivational, and emotional influences on cognition and behavior. The Oxford Handbook of Emotion, Social Cognition, and Problem Solving in Adulthood provides the first overview of a new field of adult development that has emerged out of conceptualizations and research at the intersections between socioemotional development, social cognition, emotion, coping, and everyday problem solving. This field roundly rejects a universal deficit model of aging, highlighting instead the dynamic nature of socio-emotional development and the differentiation of individual trajectories of development as a function of variation in contextual and experiential influences. It emphasizes the need for a cross-level examination (from biology and neuroscience to cognitive and social psychology) of the determinants of emotional and socio-emotional behavior. This volume also serves as a tribute to the late Freda Blanchard-Fields, whose thinking and empirical research contributed extensively to a life-span developmental view of emotion, problem solving, and social cognition. Its chapters cover multiple aspects of adulthood and aging, presenting developmental perspectives on emotion; antecedents and consequences of emotion in context; everyday problem solving; social cognition; goals and goal-related behaviors;

and wisdom. The landmark volume in this new field, The Oxford Handbook of Emotion, Social Cognition, and Problem Solving in Adulthood is an important resource for cognitive, developmental, and social psychologists, as well as researchers and graduate students in the field of aging, emotion studies, and social psychology.
