A Christmas Cracker Of Events, Happenings And Special Services So That Christmas Is Never Mis Spent Robert Parker, 2023-11-21 Worship in church can be very challenging, especially with young people. This book contains a range of services ideas designed especially for, but not only, young people. Many of those who lead worship in churches, schools, youth centres, etc, need to become very focussed on young people around Christmas time, but

even when they think creatively, they have neither time nor the resources to implement their ideas. This book offers a wide 'off the peg' range of services/addresses for Advent and Christmas, through which we believe it possible to create a sense of wonder, awe and excitement. We hope that as worship leaders explore what follows, they will feel stimulated to dip into the contents offered and then create their own events and special services. As readers explore man's relationship with God, they will be led along paths that are as varied as the individual characteristics of those people. Each and every path leads to moments of personal discovery, and with these come satisfaction, great humour and joy. This book shares some of these awesome discoveries. The ideas that follow are an attempt to demonstrate how different congregations have explored the God/Man relationship and we hope the reader will be hugely stimulated and want to become creative in their own way; this is the main purpose for this book. The book is divided into 3 parts: Section 1 is an event which can fill the Sermon Slot in a family service or a school assembly whether it is a Eucharist or another form of worship. Section 2 is made up of a number of complete services, each of which stands in its own right. Section 3 contains some ideas for embellishing both Sections 1 & 2. These can also be used as standalone pieces or interwoven with other themes created by the reader.

Chickens in the Road Suzanne McMinn, 2014-10-07 Suzanne McMinn, a former romance writer and founder of the popular blog chickensintheroad.com, shares the story of her search to lead a life of ordinary splendor in *Chickens in the Road*, her inspiring and funny memoir. Craving a life that would connect her to the earth and her family roots, McMinn packed up her three kids, left her husband and her sterile suburban existence behind, and moved to rural West Virginia. Amid the rough landscape and beauty of this rural mountain country, she pursues a natural lifestyle filled with chickens, goats, sheep—and no pizza delivery. With her new life comes an unexpected new love—52, a man as beguiling and enigmatic as his nickname—a turbulent romance that reminds her that peace and fulfillment can be found in the wake of heartbreak. Coping with formidable challenges, including raising a trio of teenagers, milking stubborn cows, being snowed in with no heat, and making her own butter, McMinn realizes that she's living a forty-something's coming-of-age story. As she dares to become self-reliant and embrace her independence, she reminds us that life is a bold adventure—if we're willing to live it. *Chickens in the Road* includes more than 20 recipes, craft projects, and McMinn's photography, and features a special two-color design.

Yoga Therapy for Children with Autism and Special Needs Louise Goldberg, 2013-08-26 A how-to manual for yoga with kids in classrooms and therapeutic settings. If you are a parent of a child with special needs or a professional who works with one, you know how challenging it can be for them to sit still, to cope with change, to focus on

self-soothing strategies, and to interact successfully with others. For these kids, yoga therapy can provide crucial support. Behavior and focus, strength, flexibility, balance, and self-regulation are all improved through yoga, making it an ideal practice for children on the autism spectrum, with ADHD, sensory processing and emotional/behavioral disorders, and other exceptionalities. For use in school, at home, or in therapeutic settings, *Yoga Therapy for Children with Autism and Special Needs* is a how-to manual that meets children where they are, providing a yoga therapy lesson plan that will engage them; promote play, social interaction, speech, language, and motor development; and enhance their self-esteem. It teaches an array of CreativeRelaxation techniques using posture, breathing, and mindfulness designed specifically for children with autism and special needs. Drawing on her 30 years of yoga therapy experience with children and those who work with them, the author walks readers through yoga strategies that both calm and energize, emphasizing sensory and bodily awareness and the sacred space that is so important for these children. Learn the best ways to use your voice and body effectively when working with children; how to minimize distractions and ease transitions; and how to create personalized yoga breaks to enhance independence and avert meltdowns. Featuring 60 illustrated poses, 89 photos, and 65 lessons, songs, and games, child-friendly instructions are provided for posture, breathing, and mindfulness exercises. All poses and routines include suggested adaptations and precautions for use, and are organized to address specific sensory skills. Current research on the benefits of yoga for health and learning is summarized, and readers learn how, through yoga practice, the brain's response to stress can be effectively mitigated. With this book, parents, therapists, and educators alike have the tools to successfully develop a therapeutic yoga program for the very children who can benefit most from it.
