What's That Sound? Kristi Nielsen,2020-11-16 What's that Sound? Animal Sounds Every child quickly learns to associate sounds with things they are familiar with as they start to learn language. A two-year-old may frequently ask What's that Sound? when they hear something they do not recognize. They are also excited about learning to mimic the sounds of things they are familiar with. Repetition and mimicking is an important part of learning

language. A child copies the sound a kitten makes, or the sound of a dog. Knowing how beneficial this process is for toddlers is the impetus for writing this book. The author's 23 month old grandson, asked What's that sound? so many times every day, a grandmother did what a grandmother does. She wrote and illustrated What's that Sound? Animal Sounds and What's that Sound? Transportation Sounds in response to his love for learning sounds. He quickly learned to make the sounds that correspond to various animals and transportation and construction equipment. His environment was filled with new sounds. His grandmother moved to a condo on a busy street and next door to his home a house was demolished and a new house was under construction. He, like most children at that stage of learning language, enjoyed learning the names the thing making the sound. Many times he could not see what was making the noise. For this reason a book supplies an opportunity to learn the vocabulary and phonetic expressions to match.

Press and Play ,2019-07-04 Go on a counting adventure with your favourite animals in this noisy board book for little ones. With six high-quality animal sounds to press and count, easy-to-grip tabbed pages, and lots of cute animals to meet, this interactive book will appeal to young children and encourage early learning skills. Give your child a head start before they start school with this fun and educational children's book. With this unique book children can count the animal sounds as they press each button. Learning to count abstract things such as sounds is part of the early years curriculum

and this book lets your child practise this skill, getting them ready for school. Parents will love the other ways that this noisy book supports preschool learning; the tabs encourage little ones to turn the pages all by themselves, and joining in with the rhyme and copying the animal noises helps children get ready for reading. Children will love meeting the playful animals, including one tooting elephant squirting water, two oinking pigs splashing in the mud, and three lions playing chase. The lively pictures, together with the fun rhyme, ensure that children will be eager to return to this animal book again and again. Learning to count and name animals has never been so much fun!
