The Shooting Star Shivya Nath,2018-09-14 Shivya Nath quit her corporate job at age twenty-three to travel

the world. She gave up her home and the need for a permanent address, sold most of her possessions and embarked on a nomadic journey that has taken her everywhere from remote Himalayan villages to the Amazon rainforests of Ecuador. Along the way, she lived with an indigenous Mayan community in Guatemala, hiked alone in the Ecuadorian Andes, got mugged in Costa Rica, swam across the border from Costa Rica to Panama, slept under a meteor shower in the cracked salt desert of Gujarat and learnt to conquer her deepest fears. With its vivid descriptions, cinematic landscapes, moving encounters and uplifting adventures, *The Shooting Star* is a travel memoir that maps not just the world but the human spirit.

Tokyo on Foot Florent Chavouet,2012-10-23 This prize-winning book is both an illustrated tour of a Tokyo rarely seen in Japan travel guides and an artist's warm, funny, visually rich, and always entertaining graphic

memoir. Florent Chavouet, a young graphic artist, spent six months exploring Tokyo while his girlfriend interned at a company there. Each day he would set forth with a pouch full of color pencils and a sketchpad, and visit different neighborhoods. This stunning book records the city that he got to know during his adventures. It isn't the Tokyo of packaged tours and glossy guidebooks, but a grittier, vibrant place, full of ordinary people going about their daily lives and the scenes and activities that unfold on the streets of a bustling metropolis. Here you find businessmen and women, hipsters, students, grandmothers, shopkeepers, policemen, and other urban types and tribes in all manner of dress and hairstyles. A temple nestles among skyscrapers; the corner grocery anchors a diverse assortment of dwellings, cafes, and shops--often tangled in electric lines. The artist mixes styles and tags his pictures with wry comments and observations. Realistically rendered advertisements or posters of pop stars contrast with cartoon sketches of iconic objects or droll vignettes, like a housewife walking her pet pig, a Godzilla statue in a local park, and an urban fishing pond that charges 400 yen per half hour. This very personal guide to Tokyo is organized by neighborhood with hand-drawn maps that provide an overview of each neighborhood, but what really defines them is what caught the artist's eye and attracted his formidable drawing talent. Florent Chavouet begins his introduction by observing that, Tokyo is said to be the most beautiful of ugly cities. With wit, a playful sense of humor, and the multicolor pencils of his kit, he sets aside the question of urban ugliness or beauty and captures the Japanese essence of a great city in this truly vital portrait.

The Image of the City Kevin Lynch, 1964-06-15 The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there?

What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.
