The Pig Brother, and Other Fables and Stories Laura Elizabeth Howe Richards,2022-07-20 The Pig Brother, and Other Fables and Stories is a children's book by Laura Elizabeth Howe Richards. Excerpt: children were set to reap in a wheat-field. The wheat was yellow as gold, the sun shone gloriously, and the butterflies flew hither and thither. Some of the children worked better, and some worse; but there was one who ran here and there after the butterflies that fluttered about his head, and sang as he ran. Owning Up Katherine Adams,2009-07-29 *Owning Up* argues that from its beginning the U.S. discourse on privacy has been couched in terms of violation and dispossession, so that even as nineteenth-century Americans came to regard privacy as a natural right, and to identify it with sacred ideals of democratic freedom and individuality, they also understood it as under threat or erasure. Using biographical and autobiographical writing as her primary archive, Adams traces the public narrative of imperiled privacy across five centuries. Her analyses begin with the premise that nineteenth-century conceptions of privacy became meaningful only in negative relation to the encroaching forces of market capitalism and commodification. Where previous studies treat privacy as a stable category whose defining features are middle-class domesticity and femininity, *Owning Up* contends that privacy is an empty category that lacks fixed content and requires constant re-articulation via panic narratives in which gender always operates in intersection with race. Chapters look at how the discourse of imperiled privacy develops in conjunction with Romantic idealism and antebellum reform, racial reconstruction and the ethic of self-right, and Social Darwinist laissez faire, and culminates at the end of the century in calls for legislation to protect the American individual's right to be let alone.

The Near North Ivan Vladislavić, 2024-03-01 The Near North is a vivid account of life in Johannesburg in times of crisis. From the stony ridges of Langermann Kop in Kensington to the tree-lined avenues of Houghton, we follow the writer through the city's streets, meeting its ghosts and journeying through time and (often circumscribed) space, finding meaning in the everyday and incidental. At once an echo of Ivan Vladislavić's award-winning Portrait with Keys and an original work of intense acuity and quiet power, The Near North is both intimate and expansive, ranging from small domestic dramas to great public spectacles. Wryly playful at times, fiercely serious at others, it is certain to move and delight all who accompany the writer through its pages.
