TV (The Book) Alan Sepinwall,Matt Zoller Seitz,2016-09-06 Is The Wire better than Breaking Bad? Is Cheers better than Seinfeld? What's the best high school show ever made? Why did Moonlighting really fall apart? Was the Arrested Development Netflix season brilliant or terrible? For twenty years-since they shared a TV column at Tony Soprano's hometown newspaper-critics Alan Sepinwall and Matt Zoller Seitz have been debating these questions and many more, but it all ultimately boils down to this: What's the greatest TV show ever? That debate reaches an epic conclusion in TV (THE BOOK). Sepinwall and Seitz have identified and ranked the 100 greatest scripted shows in American TV history. Using a complex, obsessively all-encompassing scoring system, they've created a Pantheon of top TV shows, each accompanied by essays delving into what made these shows great. From vintage classics like The Twilight Zone and I Love Lucy to modern masterpieces like Mad Men and Friday Night Lights, from huge hits like All in the Family and ER to short-lived favorites like Firefly and Freaks and Geeks, TV (THE BOOK) will bring the triumphs of the small screen together in one amazing compendium. Sepinwall and Seitz's argument has ended. Now it's time for yours to begin!

The Political Economy of Sports Television William M. Kunz,2020-04-23 Drawing from theories of the political economy of communication, this book offers readers a comprehensive data-rich assessment of contemporary sports television and its evolution. Providing an in-depth look at the ownership and regulation of sports television in the United States, William M. Kunz analyzes a range of platforms, networks, and sports, with particular focus on the way ownership has become concentrated in five conglomerates: AT&T, CBS, Comcast, Disney and Fox. The end result of years of media consolidation is that broadcast networks are now married to cable and streaming services under a single conglomerate, which has implications for the cost of contracts and the negotiation of distribution deals. Examining multiple platforms, networks and sports in an all-inclusive manner, this volume documents the evolution and current state of affairs of sports television. With historic and current data on rights fees for sports television leagues and events as well as carriage fees and subscription levels for sports-related cable and satellite services, this comparative study offers critical information for students and scholars conducting research on sports television.
