Fit in 10: Slim & Strong—for Life! Jenna Bergen Southerland, 2017-12-26 Based on the successful video franchise from Prevention, Fit in 10 is a plan for even the busiest woman: exercise for 10 minutes per day and prep clean recipes in 10 minutes or less. Most women already know, more or less, what they should be doing to keep their bodies healthy and strong. Eat right, work out, and be mindful—but who really has the time for all of that when work is crazy, the kids are waiting for dinner, and there just aren't enough hours in the day? It turns out, you don't need hours: just 10 minutes! Based on cutting-edge research and designed for real women, the 60-day Fit in 10 plan offers proven results without endless hours at the gym or cooking elaborate meals. Working out for just 10 minutes per day and spending 10 minutes or less creating healthy, delicious meals will result in a faster metabolism, slimmer waistline, reduced pain, and overall improved health and mood. Fit in 10 is a lifestyle, not a diet. Prevention has developed this program to help you boost your commitment to a healthy, active life. The book includes a 10-day clean-eating jumpstart meal plan, 85 healthful, delicious recipes to the 60-day training plan that will help you form new exercise and eating habits that will improve your health and tone and tighten your body. The 10-minute “Life Changers” throughout the book encourage and empower you to prioritize yourself and stay on track to meet those goals long past those first 60 days.

The Burst! Workout Sean Foy M.A., 2014-09-23 Here from Sean Foy—exercise physiologist and coauthor of the million-copy bestseller *The Daniel Plan*—is *The Burst! Workout*, a complete program for 10-minute interval and circuit workouts that can be done practically anywhere, anytime. Study after study proves the effectiveness of high-intensity interval training. Now, here's exactly how to do it: four minutes to raise the heart rate and metabolism; three minutes of resistance training to strengthen muscles and bones; two minutes of core movements for the abs and back; one minute of deep breathing and stretching (a vital component missing from other popular high-intensity circuit programs). The book features three four-week programs: Level 1, with no equipment required, perfect for the office (and fighting the “sitting disease”); Level 2, with minimal equipment; and Level 3, which brings interval training to the gym. The simple, scientifically devised exercises are illustrated with step-by-step photographs and are easy to master. The results are astonishing: The workouts boost metabolic rate, promote weight loss, target all the major muscle groups, increase cardiovascular endurance, have a positive effect on cholesterol levels and blood pressure, and deliver a sense of well-being. All in just a few minutes a day.

Stay Fit For Life Joshua Kozak, 2017-10-05 Restore strength and balance to your everyday movement with 62 functional exercises, targeted routines, and three four-week fitness programmes from exercise guru Joshua Kozak. Unlike traditional resistance training that targets isolated muscle groups, the compound movement exercises and activity-specific programmes featured in *Stay Fit for Life* engage multiple muscle groups at the same time, helping you lead more active, dynamic lives for years to come, no matter your fitness level.

The Men's Health Big Book of 15-Minute Workouts Selene Yeager,Editors of Men's Health Magazi,2011-10-25 Men love shortcuts. If there's a way to accomplish a job quicker and more efficiently, they're all for it. That goes for work and working out. Now, new research shows that as little as 15 minutes of resistance training is just as effective in spiking a man's metabolism—his fat-burning furnace—as a workout lasting more than twice as long. All it takes is 15 minutes to achieve lifelong results—and men are more likely to stick to an exercise plan if it's chopped down to those 15 minutes. The Men's Health Big Book of 15-Minute Workouts contains fast-paced circuit training and interval workouts that boost calorie burn, build muscle, and fry belly fat in half the time of regular workouts. Readers can choose from at-home, body-weight-only workouts and total-body barbell programs to exercises that target major muscle groups—the chest, arms, legs, and back—and sport-specific workouts. Other highlights include: - a special section of 15-minute core workouts to build a rock-hard six-pack - an eating plan with delicious meals that take 15 minutes or less to prepare - workouts for the office or when you're traveling and can't make it to the gym - hundreds of tips from America's best trainers, nutritionists, and exercise scientists

Power of 10 Adam Zickerman,Bill Schley,2010-10-12 Fitness expert Adam Zickerman presents a revolutionary exercise program—slow strength training—that will forever change the way Americans work out. Power of 10 seems to contradict nearly everything we're accustomed to hearing about

exercise. Forget hours on the treadmill, and forget daily visits to the gym. Power of 10 is based on a remarkably advanced yet simple discovery: By lifting weights in a series of ultra-slow movements that last 10 seconds each, you can stimulate lean muscle formation far more efficiently and safely than regular weight lifting or aerobics. Together with a healthy nutrition plan, Power of 10 is so powerfully effective that as little as one 20-minute workout per week is enough to build muscle, burn fat, and improve cardiovascular health at any age.
