Carp Fishing Manual Kevin Green,2014-06-01 Carp fishing is the biggest growth area in coarse fishing. Specimen carping takes a specialist approach that sees dedicated anglers going in search of the biggest carp to inhabit lakes, rivers and canals. Once considered a niche following that only appealed to a small hard-core group of fanatics, the popularity of carp fishing has grown - and continues to grow - at a frightening pace. An increasing number of tackle companies, fisheries and tackle shops now base their entire business around carp fishing specialization and the bug has spread beyond Britain into the whole of western, central and eastern Europe. This sister manual to Coarse Fishing manual will show the growing band of carping disciples how to catch them through over 500 illustrations and accompanying text.

Confessions of a Carp Fisher B. B.,2003-04 Carp are the big game of the inland angler, and in this book 'BB' tells of some of his experiences with this very sporting fish, how they may be caught or at any rate hooked, and what is the particular charm of their pursuit. He has included the fascinating stories of other people who have brought specimen carp to the bank. BB's readers will know that he was an expert fisherman and that he has, beyond his great technical knowledge and experience, the power to communicate the meditative atmosphere which has accompanied the art since Walton's days. 'Carping' takes place in warm, summer weather and usually in lovely lily-strewn waters. The author's gift of descriptive writing

has seldom been better displayed. First published in 1950, and instantly beloved by fisherman, whether they fish for carp or not, Confessions of a Carp Fisher is a much prized addition to any fishing library. This reprint features an updated look including new jacket artwork and a foreward by Chris Yates who explains why, half a century after it was first published, BB's advice about carp and carp fishing are as fresh and fascinating as ever. The illustrations by Denys Watkins-Pitchford are some of the finest examples of his scraperboard art.

Keeper Martin Donovan,2011 At age fifteen, Martin Donny Donovan graduated from Testwood School in Southampton, England and set out on a ten-year odyssey of traveling the world, working odd jobs, and pining for an eventual means of returning home to the chalkstreams where he fished and explored as a child.Through connections and persistence he eventually worked his way into the exclusive niche of riverkeeping and landed a job working the Nursling beats on the famed River Test.Keeper, is Donovan's rollicking account of his antics abroad, and two decades of tending rivers, coddling fish, and guiding anglers. His stories are exceptional, but what ultimately sets them apart is Donovan's wry voice and his bracing departure from the stereotypical English fly-fishing memoir.With equal measures of passion, irreverence, and hilarity, he does a masterful job of salting a traditional setting with an oddball cast of characters, props, and predicaments. He introduces us to gentry English dry-fly purists and mobs of bait soaking carp-catchers. He writes about prominent London attorneys, cantankerous skinheads, redneck clock peddlers, and booze-swilling farmers. While fly-fishing for trout and salmon are Donovan's beloved diversions, he also has an eclectic fixation with derelict motorbikes, chainsaw carpentry, hitchhiking, canned beer, and curry houses.While some angling traditionalists may lament that all of the great stories have long-since been written about the English chalkstreams, we are proud to present an engaging addendum and a fresh new voice from the birthplace of fly fishing.

In his previous book, Jeremy Wade memorably recounted his adventures in pursuit of fish of staggering proportions and terrifying demeanor: goliath tigerfish from the Congo, arapaima from the Amazon, giant devil catfish from the Himalayan foothills, and more. Now, the greatest angling explorer of his generation returns to delight readers with a book of a different sort, the book he was always destined to write -- the distillation of a life spent fishing. This book is his reply: part science, part art, and part elusive something else -- which is within every angler's ability to develop. Along the way you will learn when to let instinct override logic, which details are vital and which may be irrelevant, and how a non result can be a result.
