Murder 101 Maggie Barbieri, 2007-11-27 Safely away from the chaos of Manhattan, St. Thomas, a small college on the banks of the Hudson River in the Bronx, is supposed to be tranquil, bucolic, and serene. Unfortunately, English professor Alison Bergeron has found it to be anything but. Recently divorced from a fellow professor and even more recently without a car---it was stolen--- she has been hoofing it to school. One Friday evening, two NYPD homicide detectives drop by her office. The good news is that they found her beat-up Volvo; the bad news is that the body of one of the students in her Shakespeare seminar was in the trunk. Not only are Alison's chances of getting the car back bleak, but suddenly she's the primary suspect on a list that includes, among others, the murdered student's drug-dealing boyfriend, Vince, and the girl's father's business rivals (he's head of an old Italian family . . .). Accused of a crime that she didn't commit, Alison enlists her best friend, Max's, emotional support and services as an amateur sleuth. Their fumbling efforts to clear Alison's name could land her in even hotter water with Detective Bobby Crawford, the handsome investigating officer (and former altar boy)---not to mention the nuns at St. Thomas. . . . Maggie Barbieri's charming professor and down-to-earth detective make an unlikely but lovable team in her delightful debut mystery.

The Ill-starred Exile of John Smith Barry Durham, 2018-02-26 John Smith is what is known as a 'placeholder name', like the American term John Doe. It is the name bestowed on unidentified corpses, amnesiacs and hospital patients - which is why the odd young man staked out to die in the remains of a 4,000-year-old Neolithic Circle on the edge of the Lancashire Fells ends up with it. However his violent allergic reaction to iron and steel causes problems for his rescuers and when he refuses to co-operate with the police, Detective Chief Inspector Stone washes his hands of him. So 'John Smith' simply disappears - literally. And that's when

strange things start to happen around the city of Preston.

Extra Credit Andrew Clements,2012-03-13 It isn't that Abby Carson can't do her schoolwork. She just doesn't like doing it. And in February a warning letter arrives at her home. Abby will have to repeat sixth grade—unless she meets some specific conditions, including taking on an extra-credit project to find a pen pal in a distant country. Seems simple enough. But when Abby's first letter arrives at a small school in Afghanistan, the village elders agree that any letters going back to America must be written well. In English. And the only qualified student is a boy, Sadeed Bayat. Except in this village, it is not proper for a boy to correspond with a girl. So Sadeed's younger sister will write the letters. Except she knows hardly any English. So Sadeed must write the letters. For his sister to sign. But what about the villagers who believe that girls should not be anywhere near a school? And what about those who believe that any contact with Americans is . . . unhealthy? Not so simple. But as letters flow back and forth—between the prairies

of Illinois and the mountains of central Asia, across cultural and religious divides, through the minefields of different lifestyles and traditions—a small group of children begin to speak and listen to one another. And in just a few short weeks, they make important discoveries about their communities, about their world, and most of all, about themselves.

The Supernatural and Fantastic in Short Detective Fiction Laird R. Blackwell, 2020-11-09 Although fantasy and supernatural literature have long and celebrated histories, many critics contend that the fantastic and the supernatural have no place in the logical, rational, world of the detective story. This book is the first extensive study of the fantastic in detective fiction and it explores the highly debated question of whether detective fiction and the fantastic can comfortably coexist. The locked room mystery--which often uses the fantastic as a red herring to eventually be debunked by reason and logic--has long been among the most popular subgenres of detective fiction. This book also explores stories featuring almost supernaturally gifted detectives, stories where the supernatural is truly encountered, and stories with ambiguous endings. Close to 500 detective stories from 1841 to 2000, in which the fantastic or supernatural plays a central role, are discussed and analyzed. Although not all the stories are judged to be successful as detective tales, in the great majority, the fantastic enlivens the tale and deepens the mystery without weakening the detective elements.

This is a great resource for all mystery readers and collectors.; ; Winner of the 2008 Macavity Awards for Best Mystery Nonfiction.

Doctor-Detectives in the Mystery Novel Howard

Brody,2021-01-18 This is the first book to offer a critical analysis of one variant of the mystery story or novel—the use of a physician as the major detective. There is little difference between a medical “case study” and a mystery story. The book reviews the works of major authors, from R. Austin Freeman, Helen McCloy, Josephine Bell, and H.C. Bailey, to Patricia Cornwell, Kathy Reichs, Aaron Elkins, and Colin Cotterill, with briefer reviews of minor authors. It also addresses historical (fictional) physician detectives, psychological detectives, and physician detective nonfiction. Physicians and health workers are avid readers of detective fiction and will welcome this volume, which addresses their specific interests. Its critical analysis of books that have long been viewed as central to detective fiction will also appeal to fans of the mystery story.

Contemporary Drift Theodore Martin, 2017-05-30 What does it mean to call something “contemporary”? More than simply denoting what’s new, it speaks to how we come to know the present we’re living in and how we develop a shared story about it. The story of trying to understand the present is an integral, yet often unnoticed, part of the literature and film of our moment. In *Contemporary Drift*, Theodore Martin argues that the contemporary is not just a historical period but also a conceptual problem, and he claims that contemporary genre fiction offers a much-needed resource for resolving that problem. *Contemporary Drift* combines a theoretical focus on the challenge of conceptualizing the present with a historical account of contemporary literature and film. Emphasizing both the difficulty and the necessity of historicizing the contemporary, the book explores how recent works of fiction depict life in an age of global capitalism, postindustrialism, and climate change. Through new histories of the novel of manners, film noir, the Western, detective fiction, and the postapocalyptic novel, Martin shows how the problem of the contemporary preoccupies a wide range of novelists and filmmakers, including Zadie Smith, Colson Whitehead, Vikram Chandra, China Miéville, Kelly Reichardt, and the Coen brothers. Martin argues that genre provides these artists with a formal strategy for understanding both the content and the concept of the contemporary. Genre writing, with its mix of old and new, brings to light the complicated process by which we make sense of our present and determine what belongs to our time.

American Mystery and Detective Novels Larry

Landrum, 1999-05-30 Mystery and detective novels are popular fictional genres within Western literature. As such, they provide a wealth of information about popular art and culture. When the genre develops within various cultures, it adopts, and proceeds to dominate, native expressions and imagery. American mystery and detective novels appeared in the late nineteenth century. This reference provides a selective guide to the important criticism of American mystery and detective novels and presents general features of the genre and its historical development over the past two centuries. Critical approaches covered in the volume include story as game, images, myth criticism, formalism and structuralism, psychonalysis, Marxism and more. Comparisons with related genres, such as gothic, suspense, gangster, and postmodern novels, illustrate similarities and differences important to the understanding of the unique components of mystery and detective fiction. The guide is divided into five major sections: a brief history, related genres, criticism, authors, and reference. This organization accounts for the literary history and types of novels stemming from the mystery and detective genre. A chronology provides a helpful overview of the development and transformation of the genre.

The Time of the Crime Domietta Torlasco, 2008-04-16 The

Time of the Crime interrogates the relationship between time and vision as it emerges in five Italian films from the sixties and seventies: Antonioni's *Blow-Up* and *The Passenger*, Bertolucci's *The Spider's Stratagem*, Cavani's *The Night Porter*, and Pasolini's *Oedipus Rex*. The center around which these films revolve is the image of the crime scene—the spatial and temporal configuration in which a crime is committed, witnessed, and investigated. By pushing the detective story to its extreme limits, they articulate forms of time that defy any clear-cut distinction between past, present, and future—presenting an uncertain temporality that can be made visible but not calculated, and challenging notions of visual mastery and social control. If the detective story proper begins with a death that has already taken place, the death that seems to count the most in these films is the one that is yet to occur—the investigator's own death. In a time of relentless anticipation, what appears in front of the investigator's eyes is not the past as it was, but the past as it will have been in relation to the time of his or her search.
