Touch Richard Kearney, 2021 Richard Kearney offers a timely call for the cultivation of the basic human need to touch and be touched. Out of Touch Michelle Drouin, 2023-06-06 A behavioral scientist explores love, belongingness, and fulfillment, focusing on how modern technology can both help and hinder our need to connect. A Next Big Idea Club nominee. Millions of people around the world are not getting the physical, emotional, and intellectual intimacy they crave. Through the wonders of modern technology, we are connecting with more people more often than ever before, but are these connections what we long for? Pandemic isolation has made us even more alone. In *Out of Touch*, Professor of Psychology Michelle Drouin investigates what she calls our intimacy famine, exploring love, belongingness, and fulfillment and considering why relationships carried out on technological platforms may leave us starving for physical connection. Drouin puts it this way: when most of our interactions are through social media, we are taking tiny hits of dopamine rather than the huge shots of oxytocin that an intimate in-person relationship would provide. Drouin explains that intimacy is not just sex—although of course sex is an important part of intimacy. But how important? Drouin reports on surveys that millennials (perhaps distracted by constant Tinder-swiping) have less sex than previous generations. She discusses pandemic puppies, professional cuddlers, the importance of touch, “desire discrepancy” in marriage, and the value of friendships. Online dating, she suggests, might give users too many options; and the internet facilitates “infidelity-related behaviors.” Some technological advances will help us develop and maintain intimate relationships—our phones, for

example, can be bridges to emotional support. Some, on the other hand, might leave us out of touch. Drouin explores both of these possibilities.

Bright Baby Touch and Feel Hugs and Kisses Roger Priddy, 2009-12-08 Priddy Books big ideas for little people.

Touch Courtney Maum, 2017 Sloane Jacobsen is the most powerful trend forecaster in the world ... and global fashion, lifestyle, and tech companies pay to hear her opinions about the future. Her recent forecasts on the family are unwavering: the world is overpopulated, and with unemployment, college costs, and food prices all on the rise, having children is an extravagant indulgence. So it's no surprise when the tech giant Mammoth hires Sloane to lead their groundbreaking annual conference, celebrating the voluntarily childless. But not far into her contract, Sloane begins to sense the undeniable signs of a movement against electronics that will see people embracing compassion, empathy, and 'in-personism' again--

Bare feet shouldn't fly. Long legs shouldn't spin. Braids shouldn't flap in the wind. 'Sit on the porch and be a lady,' Papa scolded Alice. In Alice's Georgia hometown, there was no track where an African-American girl could practice, so she made her own crossbar with sticks and rags. With the support of her coach, friends, and community, Alice started to win medals. Her dream to compete at the Olympics came true in 1948. This is an inspiring free-

verse story of the first African-American woman to win an Olympic gold medal. Photos of Alice Coachman are also included.

Touching Photographs Margaret Olin, 2012-05-21 Photography does more than simply represent the world. It acts in the world, connecting people to form relationships and shaping relationships to create communities. In this beautiful book, Margaret Olin explores photography's ability to "touch" us through a series of essays that shed new light on photography's role in the world. Olin investigates the publication of photographs in mass media and literature, the hanging of exhibitions, the posting of photocopied photographs of lost loved ones in public spaces, and the intense photographic activity of tourists at their destinations. She moves from intimate relationships between viewers and photographs to interactions around larger communities, analyzing how photography affects the way people handle cataclysmic events like 9/11. Along the way, she shows us James VanDerZee's Harlem funeral portraits, dusts off Roland Barthes's family album, takes us into Walker Evans and James Agee's photo-text *Let Us Now Praise Famous Men*, and logs onto online photo albums. With over one hundred illustrations, *Touching Photographs* is an insightful contribution to the theory of photography, visual studies, and art history.

Don't Push the Button! Bill Cotter, 2013-11 There's only one rule in Larry's book: don't push the button. (Seriously, don't even think about it!) Even if it does look kind of nice, you must never

push the button. Who knows what would happen? Okay, quick. No one is looking... push the button. Uh, oh.

The Significance of Touch in Psychiatry Bruno Müller-Oerlinghausen, Michael Eggart, 2021-05-14
Touch is one of the fundamental media for interpersonal communication. Over recent decades, scientific efforts have been devoted to establishing the significance of touch, particularly affective touch, in the treatment and prevention of mental disorders and clarifying the underlying mechanisms of touch and massage therapy. This book contributes to this rapidly expanding area of research and gives new insights on recent clinical and experimental findings. A strong plea is made by the editors for well-designed clinical studies which require very special methodologies. A broad spectrum of various touch therapies are already available at present. Modern treatment and prevention of mental disorders should go beyond the pharmacological and psychotherapeutic approaches and should make use of the beneficial effects of touch therapies with the additional benefit of a very small risk of adverse outcomes.

Touch & Go Lisa Gardner, 2013-02-05 The secrets of a picture perfect family are exposed in this "tour de force"* thriller from #1 New York Times bestselling author Lisa Gardner. Ten minutes after walking the elite Back Bay townhouse and investigator Tessa Leoni already doesn't like what she

sees. Signs of an abduction. Clearly the work of professionals. At best, the entire family has been kidnapped. At worst... The more Tessa learns about the Denbe family, the less she likes their chances. What might have looked like the perfect existence—a powerful CEO, his adoring wife, their angelic child—is not what it appears. Husband, wife, daughter—magazine perfect, but each hiding dark secrets... Tessa knows more than she'd like to about families riddled with lies. What she doesn't know is where the Denbes are and if any of them are still breathing. She'll have to climb over unbending feds and territorial local cops to find out, and if she's not fast, the Denbes' chances of survival will quickly become little more than touch and go... *Associated Press

Touch Laura U. Marks, 2002 In *Touch*, Laura U. Marks develops a critical approach more tactile than visual, an intensely physical and sensuous engagement with works of media art that enriches our understanding and experience of these works and of art itself. These critical, theoretical, and personal essays serve as a guide to developments in nonmainstream media art during the past ten years -- sexual representation debates, documentary ethics, the shift from analog to digital media, a new social obsession with smell. Marks takes up well-known artists like experimental filmmaker Ken Jacobs and mysterious animators the Brothers Quay, and introduces groundbreaking, lesser-known film, video, and digital artists. From this emerges a materialist theory -- an embodied, erotic relationship to art and to the world. Marks's approach leads to an appreciation of the works' mortal bodies: film's volatile emulsion, video's fragile magnetic base, crash-prone Net art; it also offers a productive alternative to the popular understanding of digital media as virtual and immaterial. Weaving a continuous fabric from philosophy, fiction, science, dreams, and intimate experience, *Touch* opens a new world of art media to readers.

The Negro Motorist Green Book Victor H. Green, The idea of *The Green Book* is to give the

Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Touch David J. Linden, 2016-01-26 The New York Times bestselling author of *The Compass of Pleasure* examines how our sense of touch is interconnected with our emotions. Dual-function receptors in our skin make mint feel cool and chili peppers hot.

Don't Touch My Hair! Sharee Miller, 2018-12-04 An entertaining picture book that teaches the importance of asking for permission first as a young girl attempts to escape the curious hands that want to touch her hair. It seems that wherever Aria goes, someone wants to touch her hair. In the street, strangers reach for her fluffy curls; and even under the sea, in the jungle, and in space, she's chased by a mermaid, monkeys, and poked by aliens...until, finally, Aria has had enough! Author-illustrator Sharee Miller takes the tradition of appreciation of black hair to a new, fresh, level as she doesn't seek to convince or remind young readers that their curls are beautiful--she simply acknowledges black beauty while telling a fun, imaginative story.

The Touch Colleen McCullough, 2003-11-25 Not since *The Thorn Birds* has Colleen McCullough written a novel of such broad appeal about a family and the Australian experience as *The Touch*. At its center is Alexander Kinross, remembered as a young man in his native Scotland only as a shiftless

boilermaker's apprentice and a godless rebel. But when, years later, he writes from Australia to summon his bride, his Scottish relatives quickly realize that he has made a fortune in the gold fields and is now a man to be reckoned with. Arriving in Sydney after a difficult voyage, the sixteen-year-old Elizabeth Drummond meets her husband-to-be and discovers to her dismay that he frightens and repels her. Offered no choice, she marries him and is whisked at once across a wild, uninhabited countryside to Alexander's own town, named Kinross after himself. In the crags above it lies the world's richest gold mine. Isolated in Alexander's great house, with no company save Chinese servants, Elizabeth finds that the intimacies of marriage do not prompt her husband to enlighten her about his past life -- or even his present one. She has no idea that he still has a mistress, the sensual, tough, outspoken Ruby Costevan, whom Alexander has established in his town, nor that he has also made Ruby a partner in his company, rapidly expanding its interests far beyond gold. Ruby has a son, Lee, whose father is the head of the beleaguered Chinese community; the boy becomes dear to Alexander, who fosters his education as a gentleman. Captured by the very different natures of Elizabeth and Ruby, Alexander resolves to have both of them. Why should he not? He has the fabled Midas Touch -- a combination of curiosity, boldness and intelligence that he applies to every situation, and which fails him only when it comes to these two women. Although Ruby loves Alexander desperately, Elizabeth does not. Elizabeth bears him two daughters: the brilliant Nell, so much like her father; and the beautiful, haunting Anna, who is to present her father with a torment out of which for once he cannot buy his way. Thwarted in his desire for a son, Alexander turns to Ruby's boy as a possible heir to his empire, unaware that by keeping Lee with him, he is courting disaster. The stories of the lives of Alexander, Elizabeth and Ruby are intermingled with those of a rich cast of characters, and, after many twists and turns, come to a stunning and shocking climax.

Like *The Thorn Birds*, Colleen McCullough's new novel is at once a love story and a family saga, replete with tragedy, pathos, history and passion. As few other novelists can, she conveys a sense of place: the desperate need of her characters, men and women, rootless in a strange land, to create new beginnings.
