100 Words To Make You Sound Smart American Heritage Dictionaries, 2006-10-04 Find the right words to make a point, seal the deal, or just keep folks listening! Chosen by the editors of the American Heritage Dictionaries, these words can help anyone who wants to be a more compelling communicator—as a worker, consumer, advocate, friend, dinner companion, or even romantic prospect. The book includes a colorful variety of words, including handy words of just one syllable (such as glib) and words derived from the names of famous people (such as Freudian slip and Machiavellian). There are expressions from popular culture (Catch-22) and words that date back to classical civilization (spartan and stoic). Each word is clearly defined and shown in context with quotations from magazines, newspapers, broadcast media, movies, and television. For many words, quotations from distinguished authors and speakers are also given and word histories are explained. 100 Words to Make You Sound Smart provides an enjoyable way to communicate more effectively, distinctively, and articulately.

A Bigger Picture Malcolm Turnbull, 2021-10-13 In A Bigger Picture, the bestselling political memoir of 2020, Malcolm Turnbull, Australia's 29th prime minister, tells the remarkable story of his life. Now in paperback, this edition is updated with an all-new foreword by the author that sheds light on the huge political and cultural changes happening today. When Malcolm Turnbull took over the nation's top job there was a sense of excitement in Australia. Sky-high opinion polls followed as the political outsider with a successful business, legal and media career took charge. The infighting that had dogged politics for the best part of a decade looked to be over. But a right-wing insurgency brutally cut down Turnbull's time in office after three years, leaving many Australians asking, 'Why?' Exceptionally candid and compelling, A Bigger Picture is the definitive narrative of Malcolm Turnbull's prime ministership. He describes how he legalised same-sex marriage, established Snowy Hydro 2.0, stood up to Donald Trump, and many more achievements – remarkable in their pace and significance, and delivered in the teeth of so much opposition. But it's far more than just politics. Turnbull's life has been filled with colourful characters and controversies, success and failure. From his early years in Sydney, growing up with a single father, to defending 'Spycatcher' Peter Wright against the UK government; the years representing Kerry Packer, leading the Republican Movement and making millions in business; and finally toppling Tony Abbott to become prime minister of Australia. For the first time he tells it all – in his own words. With revelatory insights on the workings of Canberra and the contentious events of Turnbull's life, A Bigger Picture explores the strengths and vulnerabilities of one of Australia's best-known and most dynamic business and political leaders. Lyrically written in highly readable and entertaining prose, this is a genuine page-turner that's not just for political junkies.
