The Map Tour Hugh Thomson,2018-10 Published in collaboration with the Royal Geographical Society in London, this exquisite collection of maps traces the evolution of tourism, from the elite realms of the Grand Tour to beyond the boundaries of the known world. It charts a course across the globe on the first steam voyages, captures the romance of the golden age of train travel, and navigates to the heart of why we travel: for adventure; for education; for escapism; for pilgrimage. Arranged chronologically and contextualised by the personal anecdotes, diary extracts, and photographs of intrepid early travelers, The Map Tour looks at the ways in which maps facilitated, dictated, and directed the burgeoning travel industry. It reveals the progress in map-making techniques and considers the shape of global tourism today, reflecting on just how accessible - or hostile - the world has become. Rich with the spirit of adventure, this entertaining collection presents the story of travel and tourism from the 1700s to the present.

A Tour from the City of New York, to Detroit, in the Michigan Territory William Darby,1819 In a series of letters, William Darby (1775-1854), who describes himself as a member of the New-York Historical Society, chronicles his journey up the Hudson, across New York to Ogdensburg and Sackett's Harbor (on Lake Ontario), and on to Buffalo and Detroit. Along the way, he spends time in Rhinebeck, Utica, Geneva, Niagara Falls, and other points of scenic or economic interest. He also discusses the St. Lawrence River and its commercial traffic at length, analyzing development on both shores and comparing the United States's and Canada's growth. Darby made the trip across Lake Erie from Buffalo to Detroit on the schooner Zephyr, stopping at such towns as Dunkirk, Cleveland, and Sandusky. His return trip to New York took him back along the American shore of Lake Erie to Buffalo and Albany (by way of Auburn, the Finger Lakes, and Schenectady). Appended to these letters are general remarks (which include excerpts of a speech by Governor Clinton to the New York State Legislature), a description of Ballston Spa, a letter Darby received about the not-yet-opened Erie Canal, and long excerpts from Bouchette's Canada. Darby tells us primarily about the geology and natural features of the areas he visits as well as their current and future economic prospects. He provides some demographic information and occasionally mentions local accommodations. The book is accompanied by two colored maps, one of which details the route he took for his journey.

The Ghost Map Steven Johnson,2006 It is the summer of 1854. Cholera has seized London with unprecedented intensity. A metropolis of more than 2 million people, London is just emerging as one of the first modern cities in the world. But lacking the infrastructure necessary to support its dense population - garbage removal, clean water, sewers - the city has become the perfect breeding ground for a terrifying disease that no one knows how to cure. As their neighbors begin dying, two men are spurred to action: the Reverend Henry Whitehead, whose faith in a benevolent God is shaken by the seemingly random nature of the victims, and Dr. John Snow, whose ideas about contagion have been dismissed by the scientific community, but who is convinced that he knows how the disease is being transmitted. The Ghost Map chronicles the outbreak's spread and the desperate efforts to put an end to the epidemic - and solve the most pressing medical riddle of the age.--BOOK JACKET.

The Negro Motorist Green Book Victor H. Green, The idea of The Green Book is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

A Gettysburg Photo Tour Jack L Kunkel,2020-03 Come back in time with me as we tour the exact locations on the Gettysburg battlefield where events happened - both momentous and mundane - during the battle that changed American history. We know for sure exactly where certain events happened because we can match the modern-day locations to where the old, period photographs were taken. The Gettysburg battlefield was unique in the Civil War in that it was both heavily photographed and well preserved, allowing us to follow in the exact footsteps of the original photographers who took photos that they considered the most worthy at that time. Though no photos were taken while the battle was in progress, a large number were taken just a few days later - while Lee's army was still retreating back to Virginia, and before mothers learned their boys lay dead at a place called Gettysburg. All of the best of the period photos known taken of Gettysburg in the days or month after the battle are included in this book, most with easily followed map locations of where they were taken, and

even GPS coordinates. Where no immediate photos were taken of an interesting subject, I've included the earliest photo available, sometimes one or two decades after the battle. Most of the maps in the book are tied to Google online maps, and/or to maps on the website CivilWarBattles.us, so you can simply click or type the book's map links on your computer or smart phone to find the exact photo locations. In all, you'll find over 100 then & now Gettysburg photos in this book, as well as numerous landscape photos showing modern views of the battlefield. Whether you tour the battlefield from your easy chair, or actually walking the field, I hope and believe you'll find this book to be an invaluable companion. Jack Kunkel
