Dubai, from the scratch until today - A new vision of tourism? Svenja Lis, 2010-07-13 Seminar paper from the year 2009 in the subject Tourism - Miscellaneous, grade: 1,7, Stralsund University of Applied Sciences, language: English, abstract: You can never understand Dubai if you have not been there. But being there is no guaranty for comprehension either! Dubai is the place of the ultimate superlatives. Nothing is impossible and dreams can come true. Like in a modern fairytale, in Dubai everything seems to be possible and what shines seems to be made of gold... Skiing in the desert, clubbing in an Islamic country, the famous "Palm" and upcoming "Dubailand" to name only some of the numerous attractions Dubai has to offer. I had the great opportunity to be part of an outstanding excursion to the United Arab Emirates with main interest on Dubai and to get an impression of one of the most fascinating destinations in the world. Not only as a tourist, but with the possibility to experience Dubai from a different sight, I had the chance to make up my mind about a fascinating city that never sleeps. For this reason my interest in Dubai arose and makes me take a closer look on Dubai. How did Dubai become what it is today? How can it fulfil it's own premises to still grow and develop? And how can a single person, His Highness Sheikh Mohammed bin Rashid Al Maktoum, be responsible for all this? With the following assignment I try to answer these questions by giving an overview of Dubai's history, the current touristic situation in Dubai and the vision of Dubai in 2015.

**A study of opportunities and threats emerging from the current and likely future tourism development in Dubai** Julia Kühn, 2009-10-26 Bachelor Thesis from the year 2008 in the subject Tourism, grade: Upper Second, New College Durham, language: English, abstract: This research project assesses the current and likely future tourism development in Dubai. Particular reference was given to the concept of sustainable tourism development. It was to be answered, whether the current scale of tourism development in Dubai is likely to be sustainable. In order to answer this question, the author has used several frameworks for assessing Dubai's current scale of tourism development and its strengths and weaknesses as a tourist destination. Moreover the concept of sustainability has been introduced in this project. The importance of sustainable tourism development in Dubai had to be assessed; hence, the author demonstrated a choice of Dubai's approaches towards sustainability. Finally recommendations are given of how to further tourism development in Dubai should be realised. The research findings show that Dubai's strategic tourism development is focused on quantity rather on quality. 20 years ago, Dubai consisted mainly of desert, today countless hotels, theme parks, and even artificial islands are being built to meet the current demand and to attract more tourists. Such a rapid development is not without criticism in terms of major negative sociocultural and environmental impacts. This piece of work highlights these impacts and points out whether they can be overcome or not.

**United Arab Emirates Travel Guide** Jesse Russell, 2019-11-19 United Arab Emirates Travel Guide. Tourism. Comprised of little more than sand dunes, crumbling forts and fishing villages a century ago, the United Arab Emirates (UAE) has grown into a show-stopping, headline-grabbing destination which offers an intriguing blend of traditional Islamic culture and rampant consumerism. Powered largely (but by no means exclusively) by oil wealth, the UAE today is defined by opulent resort hotels, ultra-modern architecture and a seemingly unending thirst for new and innovative mega-projects. Manmade islands in the shape of palm trees? Tick. Billionaire royals taking over Premiership football clubs? Tick. Tallest building on the planet? Naturally. Seven separate emirates make up the country, but visitor attention falls mainly on Dubai and Abu Dhabi. Both are home to an ever-growing spread of luxury accommodation, gourmet restaurants, branded nightclubs and gleaming shopping malls. Dubai's most iconic sights include the sail-shaped 7-star hotel Burj Al Arab, the Burj Khalifa skyscraper and the sea-themed Atlantis Resort, which are microcosms of the UAE's lofty ambitions. The regular fountain show in the Downtown area rivals that of the Bellagio in Las Vegas, while vast shopping complexes like Dubai Mall (complete with one of the world's largest aquariums) and Mall of the Emirates (complete with ski slope) are packed with premium international labels. Abu Dhabi, meanwhile, doesn't have quite the same verve but boasts some remarkable attractions, from the

Sheikh Zayed Grand Mosque to the Ferrari World theme park. And in both destinations, there's the option to delve into the UAE's blend of Islamic culture and modernity, from spice souks to falcon hospitals. Meanwhile, the vast natural desert offers endless discoveries via exciting modes of transport from hot air balloon and quad bike to helicopter or sandboard.

Economy of Fascination Heiko Schmid,2009 Large investments in the real estate and tourism sectors and rising numbers of tourists and immigrants have led to a sustained boom in Dubai and Las Vegas. At the same time, against the background of an urban governance and the transfer of competences to private and semi-state actors in both metropolises, a brisk urban transformation has been embarked upon, leading to the creation of countless entertainment, shopping, and artificial worlds. This development is primarily characterised by the theming of everyday life, but above all an iEconomy of Fascinationi. The casino and hotel landscapes simulating various scenes from Ancient Rome to modern New York, artificial islands in the shapes of palm trees or whole world maps as well as other superlatives in the form of themed shopping malls and sports arenas are the most visible results of these rapid changes. This paper develops guidelines for a research perspective called iEconomy of Fascinationi and turns to Dubai and Las Vegas to exemplify the approach. An analytical understanding i-rst builds on general trends and development lines against the backdrop of urban governance, entertainment orientation, and commercialisation. They form the starting point for an analysis of the mechanisms of iattentioni and ifascinationi, which are considered to be the main aspects of an iEconomy of Fascinationi.
