Start Small, Stay Small Rob Walling,2010 Start Small, Stay Small is a step-by-step guide to launching a self-funded startup. If you're a desktop, mobile or web developer, this book is your blueprint to getting your startup off the ground with no outside investment. This book intentionally avoids topics restricted to venture-backed startups such as: honing your investment pitch, securing funding, and figuring out how to use the piles of cash investors keep placing in your lap. This book assumes: You don't have \$6M of investor funds sitting in your bank account You're not going to relocate to the handful of startup hubs in the world You're not going to work 70 hour weeks for low pay with the hope of someday making millions from stock options There's nothing wrong with pursuing venture funding and attempting to grow fast like Amazon, Google, Twitter, and Facebook. It just so happened that most people are not in a place to do this. Start Small, Stay Small also focuses on the single most important element of a startup that most developers avoid: marketing. There are many great resources for learning how to write code, organize source control, or connect to a database. This book does not cover the technical aspects developers already know or can learn elsewhere. It focuses on finding your idea, testing it before you build, and getting it into the hands of your customers.

Butt Is It Art? Multiverse Books,2020-02-14 An artistic anthology of butt, bottoms, and booties.

The Wallstrip (TM) Edge Howard Lindzon,2009-02-18 The creator of Wallstrip.com -- known for its unique blend of irreverent humor and sound stock advice -- provides a most enjoyable (and highly profitable) method of turning everyday trend watching into real dollars. It's been often observed that anyone who invests in the stock market needs to have a very strong sense of humor....indeed; no truer words were ever spoken. And the truth is, Howard Lindzon took that observation quite literally. Indeed, Howard's creation -- Wallstrip.com -- has become just that - a total melding of humor and investing, or as the New York Times observed about Wallstrip - It's Squawk Box meets Saturday Night Live. Wallstrip.com pulls in between 5 and 7 million visitors a year, and the show's rabid following includes stock market enthusiasts, venture capitalists, traders, and others who tune in to hear, see, and talk about what's happening in the markets. If you haven't been to Wallstrip.com, well, you're in for a real treat. Lindzon's parodies are priceless. And in THE WALLSTRIP EDGE, Howard captures his most unusual (but very smart) approach to how he picks winners, and you can too. In THE WALLSTRIP EDGE, Howard Lindzon shows readers

how to profit from his straightforward investment philosophy -- a unique trend watching philosophy that makes Wallstrip.com such an amazing phenomenon, including how to look at trends from a different perspective, knowing when to buy a certain stock, how to hold it, and of course when to sell. It's all done using the power of the Internet and your own instincts. It's a surprisingly simple (and fun) strategy that works, and best of all, you don't need to be a financial genius to make it work for you.

Positive Lightning Laurie Salzler, 2014-12-15 Kate Winter teaches dog owners how to train their canine companions. During her spare time, accompanied by her Lab, Dakota, she explores the woods and beaches on foot or horseback. She's worried that something's happening in her relationship, but she can't get her girlfriend Trish to talk to her about it. Faith Hutchins recently lost her sight after a terrible outdoor accident. She's dealt with her anger, depression, and blindness primarily on her own. A seeing-eye dog would help alleviate her reliance on anyone else, but the guide dog school has been unsuccessful in providing her with one. On a mission to find someone who will train a dog specifically for her, she ultimately zeroes in on Kate. They say lightning never strikes the same place twice. But positive lightning is notoriously unpredictable and can ignite a fire when and where least expected . . . no matter who's in its path.

All-in Fighting W. E. Fairbairn, 2021-05-06 The author of this concise guide to unarmed combat and self-defence is a legend. W. E. Fairbairn (1885-1960) spent over thirty years in the tough environment of the Riot Squads of China's Shanghai Municipal Police. In order to lower levels of Police mortality at the hands of Chinese Tongs, he studied ancient Chinese and Japanese martial arts, including Ju-jitsu, and was the first foreigner to be awarded a black belt in the discipline. He developed his own system which he called 'Defendu'. At the outbreak of the Second World War, he was recruited by Britain's Special Operations Executive as an Instructor in unarmed combat and expounded the deadly mysteries of attack and defence to scores of trainee agents about to be dropped into occupied Europe. His methods were approved and officially adopted throughout the British army. Fairbairn also developed weapons and defence aids such as bullet proof vests. He is best known as the co-inventor of the famous Sykes-Fairbairn knife. In this book he expounds his distilled experience of unarmed combat. Fully illustrated, it shows how to deliver deadly blows with hand, fist, knee and boot; wrist, bear- and strangle holds (and how to break them); how to throw an enemy, and how to break their backs; how to disarm a pistol-wielding attacker; and securing a prisoner. The book also contains a chapter on the use of the rifle in close combat by Captain P. N. Walbridge.
