Mass Culture and Italian Society from Fascism to the Cold War David A. Forgacs, Stephen Gundle, 2007 From the 1930s to the 50s in Italy commercial cultural products were transformed by new reproductive technologies and ways of marketing and distribution, and the appetite for radio, films, music and magazines boomed. This book uses new evidence to explore possible continuities between the uses of mass culture before and after World War II.

Ultimate Hot Rod Dictionary: A-Bombs to Zoomies Jeff Breitenstein, Every hot rodding magazine ever published (not to mention numerous books and countless web sites) has taken stabs at creating comprehensive glossaries of automotive enthusiasts terms and phrases. Finally Motorbooks has done it right with the publication of *The Ultimate Hot Rod Dictionary*. The title says it all. This book is 243 pages thick and includes more than 1,600 words and phrases, with definitions, phrase origins and examples of usage. In addition, the dictionary includes more than 225 line-art illustrations. If you never thought you'd find yourself reading a dictionary, this informative and fun book may surprise you. - Rod and Custom, October, 2004 Perplexed about Peg Leggers? Curious about Crazy Stacks? Every enthusiast group inevitably spawns its own slang, but few are as rich as that which has evolved around the world of hot rods and customs. Once a unique American sub-language, the gearhead vernacular has long since gone global. Containing some 1,700 entries, this first-ever dictionary of the colorful language and phraseology that has developed in the world of hot rodding and customizing features not just terms used to describe the technologies and designs, but also those pertaining to the culture itself. In the end it's not just a dictionary with something for everyone from newbies to vets, but a book that reveals how the customizers have, in fact, customized their

lingo. Includes specially commissioned line-art illustrations and cross-references for related or like terms.

Courtship Customs in Postwar Spain Carmen Martín Gaité, 2004 She calls attention to the hypocrisy of the system, to the image versus the reality, and to how certain watchwords like rationing and restriction went beyond their economic applications to touch on personal behavior and attitudes. Themes she touches on in the nine chapters (and epilogue) include proper dress and behavior for women; a young woman's limited future; the influence of the Falange (Fascist) party on society and on individual behaviour; the rebel girl; family life; sex; cinema and the Spaniard; and courtship and the stages of relationship.

(Re)Creating Language Identities in Animated Films Vincenza Minutella, 2020-11-02 This book describes the dubbing process of English-language animated films produced by US companies in the 21st century, exploring how linguistic variation and multilingualism are used to create characters and identities and examining how Italian dubbing professionals deal with this linguistic characterisation. The analysis carried out relies on a diverse range of research tools: text analysis, corpus study and personal communications with dubbing practitioners. The book describes the dubbing workflow and dubbing strategies in Italy and seeks to identify recurrent patterns and therefore norms, as well as stereotypes or creativity in the way multilingualism and linguistic variation are tackled. It will be of interest to students and scholars of translation, linguistic variation, film and media.

The Acquisition of Direct Object Scrambling and Clitic Placement Jeannette C.

Schaeffer,2000-11-13 This book offers a new contribution to the debate concerning the “real time acquisition” of grammar in First Language Acquisition Theory. It combines detailed and quantitative observations of object placement in Dutch and Italian child language with an analysis that makes use of the Modularity Hypothesis. Real time development is explained by the interaction between two different modules of language, namely syntax and pragmatics. Children need to build up knowledge of how the world works, which includes learning that in communicating with someone else, one must realize that speaker and hearer knowledge are always independent. Since the syntactic feature referentiality can only be marked if this (pragmatic) distinction is made, and assuming that certain types of object placement (such as scrambling and clitic placement) are motivated by referentiality, it follows that the relevant syntactic mechanism is dependent on the prior acquisition of a pragmatic distinction.

Imagine Math 7 Michele Emmer,Marco Abate,2020-10-07 Imagine mathematics, imagine with the help of mathematics, imagine new worlds, new geometries, new forms. Imagine building mathematical models that make it possible to manage our world better, imagine solving great problems, imagine new problems never before thought of, imagine combining music, art, poetry, literature, architecture, theatre and cinema with mathematics. Imagine the unpredictable and sometimes counterintuitive applications of mathematics in all areas of human endeavour. This seventh volume starts with a homage to the Italian artist Mimmo Paladino who created exclusively for the Venice Conference 2019 ten original and unique works of art paper dedicated to the themes of the meeting. A large section is dedicated to the most recent Fields Medals including a Homage to

Maryam Mirzakhani including a presentation of the exhibition on soap bubbles in art and science that took place in 2019. A section is dedicated to cinema and theatre including the performances by Claire Bardainne & Adrien Mondot. A part of the conference focused on the community of mathematicians, their role in literature and even in politics with the extraordinary example of Antanas Mockus Mayor of Bogotá. Mathematics in the constructions of bridges, in particular in Italy in the Sixties was presented by Tullia Iori. A very particular contribution on Origami by a mathematician, Marco Abate and an artist, Alessandro Beber. And many other topics. As usual the topics are treated in a way that is rigorous but captivating, detailed and full of evocations. This is an all-embracing look at the world of mathematics and culture. The world, life, culture, everything has changed in a few weeks with the Coronavirus. Culture, science are the main ways to safeguard people's physical and social life. Trust in humanity's creativity and ability. The motto today in Italy is Everything will be fine. This work is addressed to all those who have an interest in Mathematics.

Great Small Fiats Phil Ward, 2014-05-19 In deciding which models to choose for inclusion in this book selected from Fiat's huge inventory, the author concentrated on three criteria - greatness, size and emotion. Where size is an easy parameter to qualify, greatness is more complicated because it is a combination of both the manufacturer's and the public's opinion. A car that is highly regarded by the public may not have been a commercial success and vice versa. A truly great car is one that works well for both parties. Emotion may be considered to be an element of greatness in that the public's 'love' for a car is a fantastic benefit for a manufacturer and must be treasured. Fiat have made the mistake of 'improving' an icon on several occasions only to find that public opinion went against them. Fortunately Fiat has been magnanimous enough to respond by giving the car buying public more of what it wants. As long as they continue to do so then Fiat's reputation as the world's greatest small car manufacturer is set to continue. The author chose the Topolino as the starting point as the car fulfils all the criteria and it was the first Fiat built in the late 1930s to satisfy the Italian public's new-found desire for mobilisation. The old conventions of car production were turned upside down with the arrival of the 600 which revolutionised car production techniques and maximised on passenger space and performance at minimal cost. These principals continued via a succession of models which include the 500, 850, 126, 127 through to more recent models like the

Cinquecento and Seicento. Running in parallel with these 'cheeky' Fiats, this book covers a range of slightly larger cars that were built in huge numbers. Though rather staid in appearance, the 1950s Millecento was family transport for millions of Italians covering three decades, four when the Indian-built cars are included. Similarly the 128, Panda and Uno were 'the' Italian small cars of the '70s, '80s and '90s. Nuova Panda carries the banner to the present day.

Fiat & Abarth 500 & 600 Malcolm Bobbitt, 2016-08-14 Available again after a long absence! Always big on character and charm, Fiat's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these 'baby' Fiats. Built, and exported to, many countries outside of the marque's native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars' tiny chassis by Italy's leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves.

Meet the Cars Disney Book Group, 2011-11-10 You might know all about Lightning, Sally, Finn, Holley, and Mater, but the world of Cars, Cars 2, and Cars Toons is full of other vehicles with their own stories.

Dante Alive Francesco Ciabattone, Simone Marchesi, 2022-09-30 The essays collected here join in, and contribute to, the current reflection on Dante's vitality today in a critical, multidisciplinary vein. Their intervention comes at a particularly sensitive juncture in the history of Dante's global reception and cultural reuse. Dante today is as alive as ever. A cultural icon no less than a cultural product, Dante's imaginative universe enjoys a pervasive presence in popular culture. The

multiformity of approaches represented in the collection matches the variety of the material that is analyzed. The volume documents Dante's presence in genres as different as graphic novels and theater productions, children's literature, advertisements and sci-fi narratives, rock and rap music, video- and boardgames, satirical vignettes and political speeches, school curricula and prison-teaching initiatives. Each chapter combines a focused attention to the specificity of the body of evidence it treats with best analytical practices. The volume invites collective reflection on the many different rules of engagement with Dante's text.
