The Lost Tales of Power Vincent Trigili,2014-05-17 The Lost Tales of Power is a collection of novels that describe an immense persistent multiverse. The books are a mixture of standalone and miniseries all set in the same universe with overlapping and intertwining story lines. Included in this collection is the full text of Enemy of an Enemy, The Academy, and Rise of Shadows. In addition to the three complete novels, included is a brief introduction to each book. Enemy of an Enemy: Everything seemed to be going Vydor's way, until the Dragon Claw was sent on a rather unusual assignment to investigate a minor incident deep within the Empire's space. That would send Vydor down a path filled with fantastically powerful enemies and extraordinary friends that would obliterate everything he ever understood to be true and threaten the very foundations of the Empire itself. The Academy: The Empire had fallen, and the Imperial Navy was disbanded leaving James with nothing but his nightmares to remind him of the role he once played in The Great War. James must now face his new life in a new era where science and technology must share the stage with sorcery and wizardry, and a new ever-present shadow of evil lurks over the remnants of the once great Empire. Rise of Shadows: In The Enemy of an Enemy, darkness came to the Empire, and magic was born from the bowels of men's fears. The great and mighty Imperial Navy had to face and overcome unspeakable horrors. In The Academy, fledgling wizards were gathered and trained to fight back and keep the light, while the darkness laid in wait, biding its time and silently gathering its forces. Now as warriors of light, those wizards must begin to make a stand against the rising tide of darkness or watch their realm be overcome! The Lost Tales of Power is an open-ended series of Science-Fantasy books set in a vast multiverse. Lost Tales Series Volume I - The Enemy of an Enemy Volume II - The Academy Volume III - Rise of Shadows Volume IV - Resurgence of Ancient Darkness Volume V - The Sac'a'rith Volume VI - Spectra's Gambit Volume VII - Sac'a'rith: Rebirth Volume VIII – Mage Hunter Keywords: magic, space, space opera, science fantasy, space exploration, military space, future, military sci-fi, science fiction series, aliens, adventure, war, navy, series, science fiction novels, science fiction ebooks

Eggshells Caitriona Lally,2017-03-14 – Irish Book of the Year Finalist! – An Amazon Best Books of the Year So Far pick! A whimsical, touching debut about loneliness, friendship and hope... Vivian doesn't feel like she fits in - and never has. As a child, she was so whimsical that her parents told her she was left by fairies. Now, living alone in Dublin, the neighbors treat her like she's crazy, her older sister condescends to her, social workers seem to have registered her as troubled, and she hasn't a friend in the world. So, she decides it's time to change her life: She begins by advertising for a friend. Not just any friend. She wants one named Penelope. Meanwhile, she roams the city, mapping out a new neighborhood every day, seeking her escape route to a better world, the other world her parents told her she came from. And then one day someone named Penelope answers her ad for a friend. And from that moment on, Vivian's life begins to change. Debut author Caitriona Lally offers readers an exhilaratingly fresh take on the Irish love for lyricism, humor, and inventive wordplay in a book that is, in itself, deeply charming, and deeply moving.

Notions of the Americans James Fenimore Cooper,1991-04-23 Notions of the Americans in considered Cooper's first work of non-fiction despite a thin overlay of character and plot. Written in the form of a travel narrative, it addresses the widespread ignorance he encountered in Europe about the people and institutions of the United States. It is an exuberant chant of praise for American representative democracy, encapsulating the utopian vision that compelled Cooper's writing career over three decades. The introduction draws on materials never before published. this edition, distinguished by the seal of the Center for Scholarly Editions, is the first resetting of the text since the initial American edition in 1828.

Self and Wisdom in Arts-Based Contemplative Inquiry in Education Giovanni Rossini,2020-11-09 By foregrounding a first-person perspective, this text enacts and explores self-reflection as a mode of inquiry in educational research and highlights the centrality of the individual researcher in the construction of knowledge. Engaging in particular with the work of Thomas Merton through a dialogical approach to his writings, *Self and Wisdom in Arts-Based Contemplative Inquiry in Education* offers rich examples of personal engagement with text and art to illustrate the pervasive influence of the personal in reflective, narrative, and aesthetic forms of inquiry. Chapters consider methodological and philosophical implications of self-study and contemplative research in educational contexts, and show how dialogic approaches can enrich empirical forms of inquiry, and inform pedagogical practice. In its embrace of a contemplative voice within an academic treatise, the text offers a rich example of arts-based contemplative inquiry. This unique text will be of interest to postgraduate scholars, researchers, and academics working in the fields of educational philosophy, arts-based and qualitative research methodologies and Merton studies.
