William R. Koehler

Tracking Sonja Needs, 2016-05-17 Tracking is a great way to channel your dog's energy and challenge their mind. There are different avenues of tracking from sports trials (earning titles), to search and rescue (professional working dogs), to dogs who only participate for fun and energy release. Tracking as a dog sport is intended to exercise the mind and body of your dog. Tracking is an ideal activity for dogs which have high drive (motivation and energy for a task) and require a means for release. Any breed of dog can do tracking and many dogs will excel at tracking where they have failed at other dog sports. Tracking challenges your dog with a task, they utilize their innate physical and mental abilities to the fullest extent, as nature had intended. In this book, we focus on Tracking as a sport or for fun. We use techniques and methods used by professional tracking and trailing dog handlers. We cover everything from laying your first track, progressing your training and troubleshooting. Learn about scent, how it moves and how it is affected by the environment so that you can start to understand your dog's behaviour and support them. Understanding scent also makes it easier for you to make well planned practice tracks for you and your training partners.

Try Tracking! the Puppy Tracking Primer Carolyn Krause, 2005-06 Tracking is something that comes naturally to each and every dog, no matter what age, what breed or what size. Teaching your dog to track is the perfect way to spend time together, build your relationship, and challenge both of you mentally and physically. You can teach very young puppies to track even before they can start formal obedience training, and these positive methods work with adult dogs, too. Tracking is fun both you and your dog when you use these positive methods. Any age dog can be taught to track-6 week-old puppies on up to senior citizens. It improves fitness for both dog and owner! It is mentally stimulating for both of you. You'll gain a new-found respect for just how smart your dog is.

Canine Tracking Guide Don Abney,2012-04-10 Canine Tracking Guide details the two most common uses of the canine nose: following blood trails for wounded game and tracking humans (from lost children and missing hikers, to escaped convicts). The author explains the concept of human scent and how the amazing canine nose functions and then elaborates on the basic training principles, commands, exercises and patterns used in tracking work. Whether a reader is working with hunting dogs, police dogs, cadaver dogs or competition dog, this guide offers the correct information needed for every tracking pursuit.

The Koehler Method of Training Tracking Dogs William

R. Koehler, 1984 For search and rescue work, to assist in law enforcement, and to compete in Tracking Tests, here is all the preparation you and your dog will need.

Tracking dogs Roland Berger, 2022-04-15 Tracking - or Mantrailing in a slightly different form - is a useful activity for your dog. Actually, you do not have to teach him much here, because your dog can sniff quite certainly ... and he also does day after day with every walk. So why do you need to train your dog in tracking? Well... tracking work is a bit more profound. You yourself or another person lay a track for your dog to follow. But of course not somehow, because there are rules for this. You can even take certain exams to be able to lead your dog as a recognized tracking or rescue dog. For mantrailing, similar rules apply, but here no artificially laid track is followed by your four-legged friend, but the dog is trained so that he can follow the scent of a very specific person and thus, for example, find a missing person. The contents of the book are: - The tracking work - The tracking training - Difficulties in nature - Mantrailing and ID tracking - The trail - The examination to the recognized tracking dog - Learning tips - Conclusion Can your dog do it? Most definitely... there are very few exceptions where this sport should be avoided. These will be explained to you in this guide. In addition, you will learn how to train your tracking dog to be a tracking dog and what you need to do it. You will get all the background information you need to take your dog on the trail. Enjoy reading, learning and training.

K9 Professional Tracking RESI GERRITSEN; RUUD

HAAC.,Resi Gerritsen,2022 K9 Professional Tracking explores the theory and training for clean-scent tracking dogs--those that follow an individual human scent on various ground surfaces. The book explores historical and contemporary research with valuable findings that add to the professional trainer's understanding of how and what dogs smell on a track. This background understanding then helps trainers and handlers troubleshoot when training their dogs to track. Training exercises are covered from early puppy training, sports, and then beginning and advanced clean-scent tracking, including cross-tracks and troubleshooting common issues.--
