Journey to the Middle Kingdom Christopher West,1999 Fulfilling a lifelong dream, Christopher West escapes to China as one of the first solo Western tourists, travelling by train, bus, boat and bicycle.

An Hour from Paris Annabel Simms,2017-08 Discover half-hidden châteaux and artists' country houses; walk, boat or dance by the river; explore old towns and country footpaths; and eat in family-run restaurants with 1950s decor--and prices to match. Based on over 20 years' experience of exploring the Paris countryside by train, each visit includes the essential historical context and practical information to help you discover places unknown to many Parisians. Written with humor and a flair for the unusual and authentic, the text is illustrated with original photos and local maps. It includes a unique guide to using the excellent local train network.

The Simple Path to Wealth JL Collins,2021-08-16 In the dark, bewildering, trap-infested jungle of misinformation and opaque riddles that is the world of investment, JL Collins is the fatherly wizard on the side of the path, offering a simple map, warm words of encouragement and the tools to forge your way through with confidence. You'll never find a wiser advisor with a bigger heart. -- Malachi Rempen: Filmmaker, cartoonist, author and self-described ruffian This book grew out of a series of letters to my daughter concerning various things--mostly about money and investing--she was not yet quite ready to hear. Since money is the single most powerful tool we have for navigating this complex world we've created, understanding it is critical. But Dad, she once said, I know money is important. I just don't want to spend my life thinking about it. This was eye-opening. I love this stuff. But most people have better things to do with their precious time. Bridges to build, diseases to cure, treaties to negotiate, mountains to climb, technologies to create, children to teach, businesses to run. Unfortunately, benign neglect of things financial leaves you open to the charlatans of the financial world. The people who make investing endlessly complex, because if it can be made complex it becomes more profitable for them, more expensive for us, and we are forced into their waiting arms. Here's an important truth: Complex investments exist only to profit those who create and sell them. Not only are they more costly to the investor, they are less effective. The simple approach I created for her and present now to you, is not only easy to understand and implement, it is more powerful than any other. Together we'll explore: Debt: Why you must avoid it and what to do if you have it. The importance of having F-you Money. How to think about money, and the unique way understanding this is key to building your wealth. Where traditional investing advice goes wrong and what actually works. What the stock market really is and how it really works. Why the stock market always goes up and why most people still lose money investing in it. How to invest in a raging bull, or bear, market. Specific investments to implement these strategies. The Wealth Building and Wealth Preservation phases of your investing life and why they are not always tied to your age. How your asset allocation is tied to those phases and how to choose it. How to simplify the sometimes confusing world of 401(k), 403(b), TSP, IRA and Roth accounts. TRFs (Target Retirement Funds), HSAs (Health Savings Accounts) and RMDs (Required Minimum Distributions). What investment firm to use and why the one I recommend is so far superior to the competition. Why you should be very cautious when engaging an investment advisor and whether you need to at all. Why and how you can be conned, and how to avoid becoming prey. Why I don't recommend dollar cost averaging. What financial independence looks like and how to have your money support you. What the 4% rule is and how to use it to safely spend your wealth. The truth behind Social Security. A Case Study on how this all can be implemented in real life. Enjoy the read, and the journey!

Boondoggles G.E. Bentley, Jr,2018-06-21 One of Jerry's greatest talents was creating research pretexts to travel to the far corners of the globe. He explored England and continental Europe, first as a student and later when he returned regularly for research. Once he had settled into his career at the University of Toronto, Jerry sought adventure with his young family while teaching for a year in places which did not at the time attract many Western academics - Algeria in the 1960s, India in the 1970s, China in the early 1980s. In each of these places he found expectations about teaching, university administration and social interactions vastly different, often baffling, and always entertaining. The volume concludes with three essays in which Jerry chronicles his academic endeavours, as a scholar of William Blake, forms the basis of the most important collection of Blake works in Canada. With eloquence and humour, Jerry brings to life in Boondoggles the people he met and the grandeur of the places he visited, as both a restless professor and an endlessly curious observer of human nature, long before the era of mass tourism made such travels commonplace.

Social Interaction Muzafer Sherif, 2017-07-05 Reflecting the many contributions of Muzafer Sherif to social psychology during the past thirty years, this volume presents selections from among Sherif's most widely known essays and provides a systematic overview of his evolving interests, concepts, methods and research findings. Twenty-five essays are divided into five sections according to content; the theoretical and methodological problems at the heart of Sherif's work; the experimental model for interaction process and products; problems of self and reference groups; concepts, attitudes and ego-involvements; and contributions to problems of in-group and intergroup relations through experimental and field research. Though the selections range over a broad spectrum each is characterized by the precise and incisive work techniques Sherif devised as well as by its intrinsic relevance to significant issues. Sherif writes to clarify theory, to define conceptual tools, and to use tools and theory to demonstrate the substantive results of his researches. Each research finding is added to its predecessors as the author advances to his goal of a social psychology that is consistent as it moves from the most basic psychological processes to the complexities of individual involvement in collective activity
