This book also gives leaders responsible for Training and Development in their organizations a framework and foundation to measure their trainers' skillset. This easy to read guides reviews 10 major areas of training facilitation that every successful trainer must know. The survey elicited questions like:\*What should I do with late or difficult participants? \*How do I handle situations when the equipment has technical issues?\*What do I do if I don't know the answer to the question I'm being asked? \*What if the people in the class know more than I do about the subject matter than I do?He was excited! He thought the questions they had were all great. Tavis decided to facilitate a T3, or Train the Trainer, session to review and discuss the answers to their questions. He would give his Training Specialists some tools, tips and tricks to use while facilitating their training classes. Tavis couldn't wait to get in front of the team, share the experiences he'd had over the years and develop his trainers' skills. The team had a thirst for knowledge, and Tavis had the answers that would help them learn, grow, and teach them to be more experienced trainers. They would embark on a journey that he hoped would change their careers and set them on the path to training excellence and leadership if they chose.
