**Proceedings of the 5th International Conference on Electrical Engineering and Information Technologies for Rail Transportation (EITRT) 2021** Jianying Liang,Limin

Jia,Yong Qin,Zhigang Liu,Lijun Diao,Min An,2022-02-18 This book reflects the latest research trends, methods, and experimental results in the field of electrical and information technologies for rail transportation, which covers abundant state-of-the-art research theories and ideas. As a vital field of research that is highly relevant to current developments in a number of technological domains, the subjects it covered include intelligent computing, information processing, communication technology, automatic control, etc. The objective of the proceedings is to provide a major interdisciplinary forum for researchers, engineers, academicians, and industrial professionals to present the most innovative research and development in the field of rail transportation electrical and information technologies. Engineers and researchers in academia, industry, and government will also explore an insightful view of the solutions that combine ideas from multiple disciplines in this field. The volumes serve as an excellent reference work for researchers and graduate students working on rail transportation and electrical and information technologies.

**Unmanned Driving Systems for Smart Trains** Hui Liu,2020-11-13 Unmanned Driving Systems for Smart Trains explores the core technologies involved in unmanned driving systems for smart railways and trains, from foundational theory to the latest advances. The volume introduces the key technologies, research results and frontiers of the field. Each chapter includes practical cases to ground theory in practice. Seven chapters cover key aspects of unmanned driving systems for smart trains, including performance evaluation, algorithm-based reasoning and learning strategy, main control parameters, data mining and processing, energy saving optimization and control, and intelligent algorithm simulation platforms. This book will help researchers find solutions in developing better unmanned driving

systems. Responds to the expansion of smart railways and the adoption of unmanned global systems Covers core technologies of unmanned driving systems for smart trains Details a large number of case studies and experimental designs for unmanned railway systems Adopts a multidisciplinary view where disciplines intersect at key points Gives both foundational theory and the latest theoretical and practical advances for unmanned railways

**Chinese Politics in the Era of Xi Jinping** Willy Wo-Lap Lam, 2015-03-12 Renowned for his coverage of China's elite politics and leadership transitions, veteran Sinologist Willy Lam has produced the first book-length study in English of the rise of Xi Jinping--General Secretary of the Chinese Communist Party (CCP) since November 2012. With rare insight, Lam describes Xi's personal history and his fascination with quasi-Maoist values, the factional politics through which he ascended, the configuration of power of the Fifth-Generation leadership, and the country's likely future directions under the charismatic princeling. Despite an undistinguished career as a provincial administrator, Xi has rapidly amassed more power than his predecessors. He has overawed his rivals and shaken up the party-state hierarchy by launching large-scale anti-corruption and rectification campaigns. With a strong power base in the People's Liberation Army and a vision of China as an awakening lion, Xi has been flexing China's military muscle in sovereignty rows with countries including Japan, Vietnam, and the Philippines while trying to undermine the influence of the United States in the Asia-Pacific region. While Xi is still fine-tuning his art of governance, his zero tolerance for dissent and his preoccupation with upholding the privileges of the red aristocracy and the CCP's status as perennial ruling party do not bode well for economic, political, or cultural reforms. Lam takes a close look at Xi's ideological and political profile and considers how his conservative outlook might shape what the new strongman calls

the Great Renaissance of the Chinese race.

**Morning Sun** Laifong Leung, Jan Walls, 2016-09-16 This is a collection of interviews with 26 writers of China's zhiqing generation, relatively young artists who participated in the Cultural Revolution as teen-age Red Guards, suffered through the subsequent rustication of intellectual youth, and eventually returned to relatively normal lives, but always with a tragic hiatus haunting their formative years. While one goal of Professor Leung is to introduce to the West an important group of writers little-known outside China, she also aims to succeed, through the interviews, in providing a special perspective on the devastating political history of China since the 1970s years through the eyes of its keenest observers and in offering a perspective on the social, political and cultural milieu of the period.

*To Beijing and Beyond* Janice Auth, 1998-05-15 Documents 1995 UN Fourth World Conference on Women in Beijing. Forty three essays by men and women who attended the conference tell of their experiences and how they've applied what they learned at home. The words of these college presidents, students, teachers, homemakers, retirees, writers, clergy, and entrepreneurs who participated in the UN Fourth World Conference on Women document the remarkable initiative, energy, and vision of those who began and continue to coordinate the activities of Pittsburgh/Beijing '95 and Beyond. Auth also offers background information on the three previous UN Women's Conferences, outlines the work that has been accomplished since the 1995 conference, and the plans for implementing the Beijing Platform for Action at the local level. Her remarks and the stories she has collected offer an intimate portrayal of an historical event that was largely under-reported by popular media. Essential reading for anyone who wants to know what really happened and what they can do now.

The Barefoot Lawyer Chen Guangcheng, 2015-03-10 An

electrifying memoir by the blind Chinese activist who inspired millions with the story of his fight for justice and his belief in the cause of freedom. It was like a scene out of a thriller: one morning in April 2012, China's most famous political activist—a blind, self-taught lawyer—climbed over the wall of his heavily guarded home and escaped. Days later, he turned up at the American embassy in Beijing, and only a furious round of high-level negotiations made it possible for him to leave China and begin a new life in the United States. Chen Guangcheng is a unique figure on the world stage, but his story is even more remarkable than anyone knew. The son of a poor farmer in rural China, blinded by illness when he was an infant, Chen was fortunate to survive a difficult childhood. But despite his disability, he was determined to educate himself and fight for the rights of his country's poor, especially a legion of women who had endured forced sterilizations and abortions under the hated one child policy. Repeatedly harassed, beaten, and imprisoned by Chinese authorities, Chen was ultimately placed under house arrest. After nearly two years of increasing danger, he evaded his captors and fled to freedom. Both a riveting memoir and a revealing portrait of modern China, *The Barefoot Lawyer* tells the story of a man who has never accepted limits and always believed in the power of the human spirit to overcome any obstacle.
