

Transittrip Msp Metrotransit

JG Myers

Twin Cities by Trolley John W. Diers,Aaron Isaacs,2007 The recent development of light rail transit in the Twin Cities has been an undeniable success. Plans for additional lines progress, and our ways of shopping, dining, and commuting are changing dramatically. As we embrace riding the new Hiawatha light rail line, an older era comes to mind—the age when everyone rode the more than 500 miles of track that crisscrossed the Twin Cities. In *Twin Cities by Trolley*, John Diers and Aaron Isaacs offer a rolling snapshot of Minneapolis and St. Paul from the 1880s to the 1950s, when the streetcar system shaped the growth and character of the entire metropolitan area. More than 400 photographs and 70 maps let the reader follow the tracks from Stillwater to University Avenue to Lake Minnetonka, through Uptown to downtown Minneapolis. The illustrations show nearly every neighborhood in Minneapolis and St. Paul as it was during the streetcar era. At its peak in the 1920s and early 1930s, the Twin City Rapid Transit Company (TCRT) operated over 900 streetcars, owned 523 miles of track, and carried more than 200 million passengers annually. Recounting the rise and fall of the TCRT, *Twin Cities by Trolley* explores the history, organization, and operations of the streetcar system, including life as a streetcar operator and the technology, design, and construction of the cars. Inspiring fond memories for anyone who grew up in the Twin Cities, *Twin Cities by Trolley* leads readers on a fascinating and enlightening tour of this bygone era in the neighborhood and the city they call home. John W. Diers has worked in the transit industry for thirty-five years, including twenty-five years at the Twin Cities Metropolitan Transit Commission. He has written for *Trains*, and has served on the board of the Minnesota Transportation Museum. Aaron Isaacs worked with Metro Transit for thirty-three years. He is the author of *Twin City Lines—The 1940s* and *The Como-Harriet Streetcar Line*. He is also the editor of *Railway Museum Quarterly*.

Transit Truths Gerhard Melvin Dahl,1924

Trains, Buses, People Christof Spieler,2018-10-23 What are the best transit cities in the US? The best Bus Rapid Transit lines? The most useless rail transit lines? The missed opportunities? In the US, the 25 largest metropolitan areas and many smaller cities have fixed guideway transit—rail or bus rapid transit. Nearly all of them are talking about expanding. Yet discussions about transit are still remarkably unsophisticated. To build good transit, the discussion needs to focus on what matters—quality of service (not the technology that delivers it), all kinds of transit riders, the role of buildings, streets and sidewalks, and, above all, getting transit in the right places. Christof Spieler has spent over a decade advocating for transit as a writer, community leader, urban planner, transit board member, and enthusiast. He strongly believes that just about anyone—regardless of training or experience—can identify what makes good transit with the right information. In the fun and accessible *Trains, Buses, People: An Opinionated Atlas of US Transit*, Spieler shows how cities can build successful transit. He profiles the 47 metropolitan areas in the US that have rail transit or BRT, using data, photos, and maps for easy comparison. The best and worst systems are ranked and Spieler offers analysis of how geography, politics, and history complicate transit planning. He shows how the unique circumstances of every city have resulted in very different transit systems. Using appealing visuals, *Trains, Buses, People* is intended for non-experts—it will help any citizen, professional, or policymaker with a vested interest evaluate a transit proposal and understand what makes transit effective. While the book is built on data, it has a strong point of view. Spieler takes an honest look at what makes good and bad transit and is not afraid to look at what went wrong. He explains broad concepts, but recognizes all of the technical, geographical, and political difficulties of building transit in the real world. In the end,*Trains, Buses, People* shows that it is possible with the right tools to build good transit.

The Role of the Private-for-hire Vehicle Industry in Public Transit Gorman Gilbert,Transit Cooperative Research Program,2002 The first part documents the results of a national survey of the types of public transit services being provided by private-for-hire vehicles (PHVs). The second part of the report summarizes eight case studies and draws conclusions from the analysis of these case studies. The case study sites are Ann Arbor, Michigan; DuPage County, Illinois; Houston, Texas; Los Angeles, California; Montgomery County, Maryland; Portland, Oregon; Seattle, Washington; and the state of Wisconsin.
