Voice-over Translation Eliana Franco, Anna Matamala, Pilar Orero, 2010 This book presents the first study of voice-over from a wide approach, including not only academic issues but also a description of the practice of voice-over around the globe. The authors define the concept of voice-over in Film Studies and Translation Studies and clarify the relationship between voice-over and other audiovisual transfer modes. They also describe the translation process in voice-over both for production and postproduction, for fiction and non-fiction. The book also features course models on voice-over which can be used as a source of inspiration by trainers willing to include this transfer mode in their courses. A global survey on voice-over in which both practitioners and academics express their opinions and a commented bibliography on voice-over complete this study. Each chapter includes exercises which both lecturers and students can find useful.

A Voyage Round the World, 2 vols. George Forster, 2000-01-01 George Forster's *A Voyage Round the World* presents a wealth of geographic, scientific, and ethnographic knowledge uncovered by Cook's second journey of exploration in the Pacific (1772-1775). Accompanying his father, the ship's naturalist Johann Reinhold Forster, on the voyage, George proved a knowledgeable and adept observer. The lively, elegant prose and critical detail of his account, based loosely on his father's journal, make it one of the finest works of eighteenth-century travel literature and an account of prime importance in the history of European contact with Pacific peoples. The Forsters' publications reveal the sophistication and enthusiasm they brought to their observation of Polynesian peoples as well as a sensitivity to the moral ambiguities of contact. The two volumes of George Forster's work include substantially richer descriptions of encounters with island inhabitants than either his father's classic work (*Observations Made during a Voyage round the World*, UH Press, 1996) or Cook's official narrative, and its confident, even visionary, style incorporates a good deal of polemic, particularly in its criticism of the treatment of islanders by Cook's crew. In addition to the range and depth of its anthropological considerations, it provides a thrilling account of life aboard one of Cook's vessels. In its author's German translation, this work becomes a classic of natural history writing, but its original English version has long been neglected by anglophone scholars. This new scholarly edition makes this important book readily available for the first time since its initial publication more than two centuries ago. But it also presents the work in fresh terms, making it more accessible and relevant to a contemporary audience. The valuable introduction and annotations draw on the wide range of anthropological and ethnohistorical scholarship published since the 1960s and contextualize the book in relation to both the cultures of Oceania documented by the Forsters and the history of European voyaging in the Pacific. Appendixes include a translation of the introduction to the German edition and the polemical pamphlets by George Forster and the ship's astronomer William Wales, in which some of the book's more controversial claims were debated. *A Voyage Round the World* brings the disciplines of history and anthropology to bear on Cook's voyages in an illuminating and readable fashion. This edition will help complete the corpus of basic documents on Cook's voyages--a crucial resource for researchers in cultural, Pacific, and maritime history; archaeologists, anthropologists, and art historians; and most recently for scholars engaged in revisionist interpretations of eighteenth-century exploration and colonization.

Textual and Contextual Voices of Translation Cecilia Alvstad, Annjo K. Greenall, Hanne Jansen, Kristiina Taivalkoski-Shilov, 2017-10-15 The notion of voice has been used in a number of ways within Translation Studies. Against the backdrop of these different uses, this book looks at the voices of translators, authors, publishers, editors and readers both in the translations themselves and in the texts that surround these translations. The various authors go on a hunt for translational agents' voice imprints in a variety of textual and contextual material, such as literary and non-literary translations, book reviews, newspaper articles, academic texts and e-mails. While all stick to the principle of studying text and context together, the different contributions also demonstrate how specific textual and contextual circumstances require adapted methodological solutions, ending up in a collection that takes steps in a joint direction but that is at the same time complex and pluralistic. The book is intended for scholars and students of Translation Studies, Comparative Literature, and other disciplines within Language and Literature.

Song and Significance Dinda L. Gorlée, 2005 Vocal translation is an old art, but the interpretive feeling, skill

and craft have expanded into a relatively new area in translation studies. Vocal translation is the translation of the poetic discourse in the hybrid art of the musicopoetic (or poeticomusical) forms, shapes and skills. This symbiotic construct harmonizes together the conflicting roles of music and language in face-to-face singing performances. ...] In opera, folksong, hymn and art song, as well as in operetta, musical song and popular song, we have musical genres allied to a libretto with lyrical text. A libretto is a linguistic text which is a pre-existing work of art, but is subordinated to the musical text. The essays in this volume provide interpretive models for the juxtaposition of different orders of the singing sign-events in different languages, extending the meaning and range of the musical and literary concepts, and putting the mixed signs to a true-and-false test.

Voice and Versification in Translating Poems James W. Underhill, 2016-12-09 Great poets like Shelley and Goethe have made the claim that translating poems is impossible. And yet, poems are translated; not only that, but the metrical systems of English, French, Italian, German, Russian and Czech have been shaped by the translation of poems. Our poetic traditions are inspired by translations of Homer, Dante, Goethe and Baudelaire. How can we explain this paradox? James W. Underhill responds by offering an informed account of meter, rhythm, rhyme, and versification. But more than that, the author stresses that what is important in the poem—and what must be preserved in the translated poem—is the voice that emerges in the versification. Underhill's book draws on the author's translation experience from French, Czech and German. His comparative analysis of the versifications of French and English have enabled him to revise the key terms involved in translating the poetic voice and transposing the poem's versification. The theories of versification from the Prague School of Linguistics, the French and Swiss schools of versification, and recent scholarship in metrics and rhythm in the UK and in the USA have been integrated into this synthetic but rigorously coherent approach to translating poems. The extensive glossary at the end of the book will prove useful for both students and teachers alike. And the detailed case studies on translating poems by Baudelaire and Emily Dickinson allow the author to categorize and appraise the various poetic and aesthetic strategies and theories that are brought to bear in translating Baudelaire into English, and Dickinson into French.

I Hid My Voice Parinoush Saniee, 2016-08-06 From the international bestselling author of The Book of Fate comes the story, based on real events, of a four-year-old boy who cannot speak and the shame it brings upon his family in modern-day Iran. Four-year-old Shahaab has not started talking. The family doctor believes there is no cause for concern; nevertheless, Shahaab is ridiculed by others who call him "dumb." Young Shahaab doesn't understand what the word means and thinks it is a compliment, until one day his cousin plays a trick on him to prove to everyone that the boy truly is the neighbourhood idiot. When his mother recounts the incident to her husband, Shahaab is crushed to learn that his father also thinks the boy's speech impediment indicates that his son is an idiot and thus brings shame on the family. He begins to lash out, taking childish revenge on those around him, encouraged by his two imaginary friends, Esi and Bibi. No one in the family can understand Shahaab's wild behaviour except his maternal grandmother, who seems to possess the understanding and the kindness he so desperately craves. Their growing bond leads to a deep friendship in which Shahaab is able to experience some happiness and finally find his voice.

The Art of Translation Rosanna Warren, 1989

Why Translation Matters Edith Grossman, 2010-01-01 Why Translation Matters argues for the cultural importance of translation and for a more encompassing and nuanced appreciation of the translator's role. As the acclaimed translator Edith Grossman writes in her introduction, My intention is to stimulate a new consideration of an area

of literature that is too often ignored, misunderstood, or misrepresented. For Grossman, translation has a transcendent importance: Translation not only plays its important traditional role as the means that allows us access to literature originally written in one of the countless languages we cannot read, but it also represents a concrete literary presence with the crucial capacity to ease and make more meaningful our relationships to those with whom we may not have had a connection before. Translation always helps us to know, to see from a different angle, to attribute new value to what once may have been unfamiliar. As nations and as individuals, we have a critical need for that kind of understanding and insight. The alternative is unthinkable.--Jacket.

Translating the Female Self across Cultures Eliana Maestri, 2018-01-15 Translating the Female Self across Cultures examines contemporary autobiographical narratives and their Italian and French translations. The comparative analyses of the texts are underpinned by the latest developments in Translation Studies that place emphasis on identity construction in translation and the role of translation in moulding various types of identity. They focus on how the writers' textual personae make sense of their sexual, artistic and post-colonial identities in relation to the mother and how the mother-daughter dyad survives translation into the Italian and French social, political and cultural contexts. The book shows how each target text activates different cultural literary, linguistic and rhetorical frames of reference which cast light on the facets of the protagonists' quest for identity: the cult of the Madonna; humour and irony; gender and class; mimesis and storytelling; performativity and geographical sense of self. The book highlights the fruitfulness of studying women's narratives and their translations, and the polyphonic dialogue between the translations and the literary and theoretical productions of the French and Italian cultures.

Mary's Voice in the Gospel According to John Michael Pakaluk, 2021-02-16 A New Light on John's Gospel The Gospel according to John has always been recognized as different from the "synoptic" accounts of Matthew, Mark, and Luke. But what explains the difference? In this new translation and verse-by-verse commentary, Michael Pakaluk suggests an answer and unlocks a two-thousand-year-old mystery. Mary's Voice in the Gospel according to John reveals the subtle but powerful influence of the Mother of Jesus on the fourth Gospel. In his dying words, Jesus committed his Mother to the care of John, the beloved disciple, who "from that hour . . . took her into his own home." Pakaluk draws out the implications of that detail, which have been overlooked for centuries. In Mary's remaining years on earth, what would she and John have talked about? Surely no subject was as close to their hearts as the words and deeds of Jesus. Mary's unique perspective and intimate knowledge of her Son must have shaped the account of Jesus' life that John would eventually compose. With the same scholarship, imagination, and fidelity that he applied to Mark's Gospel in The Memoirs of St. Peter, Pakaluk brings out the voice of Mary in John's, from the famous prologue about the Incarnation of the Word to the Evangelist's closing avowal of the reliability of his account. This remarkably fresh translation and commentary will deepen your understanding of the most sublime book of the New Testament.

Dialect, Voice, and Identity in Chinese Translation Jing Yu, 2023-07-12 Dialect, Voice, and Identity in Chinese Translation is the first book-length attempt to undertake a descriptive investigation of how dialect in British and American novels and dramas is translated into Chinese. Dialect plays an essential role in creating a voice of difference for the regional, social, or ethnic Others in English fiction. Translating dialect involves not only the textual representation of a different voice with target linguistic resources but also the reconstruction of various cultural, social, and ethnic identities and relations on the target side. This book provides a descriptive study of 277 Chinese translations published from 1931 to 2020 for three fictions – The Adventures of Huckleberry Finn, Tess of the d'Urbervilles, and Pygmalion – with a special focus on how the Dorset dialect, African American Vernacular English, and cockney in them have been translated in the past century in China. It provides a comprehensive description of the techniques, strategies, tendencies, norms, and universals as well as diachronic changes and stylistic evolutions of the language used in dialect translation into Chinese. An interdisciplinary perspective is adopted to conduct three case studies of each fiction to explore the negotiation, reformulation, and reconstruction via dialect translation of the identities for Others and Us and their relations in the Chinese context. This book is intended to act as a useful reference for scholars, teachers, translators, and graduate students from disciplines such as translation, sociolinguistics, literary and cultural studies, and anyone who shows interest in dialect translation, the translation of American and British literature, Chinese language and literature, identity studies, and cross-cultural studies.
