Taivalkoski-Shilov**

Voice-over Translation Eliana Franco, Anna Matamala, Pilar Orero, 2010 This book presents the first study of voice-over from a wide approach, including not only academic issues but also a description of the practice of voice-over around the globe. The authors define the concept of voice-over in Film Studies and Translation Studies and clarify the relationship between voice-over and other audiovisual transfer modes. They also describe the translation process in voice-over both for production and postproduction, for fiction and non-fiction. The book also features course models on voice-over which can be used as a source of inspiration by trainers willing to include this transfer mode in their courses. A global survey on voice-over in which both practitioners and academics express their opinions and a commented bibliography on voice-over complete this study. Each chapter includes exercises which both lecturers and students can find useful.

Textual and Contextual Voices of Translation Cecilia Alvstad, Annjo K. Greenall, Hanne Jansen, Kristiina Taivalkoski-Shilov, 2017-10-15 The notion of voice has been used in a number of ways within Translation Studies. Against the backdrop of these different uses, this book looks at the voices of translators, authors, publishers, editors and readers both in the translations themselves and in the texts that surround these translations. The various authors go on a hunt for translational agents' voice imprints in a variety of textual and contextual material, such as literary and non-

literary translations, book reviews, newspaper articles, academic texts and e-mails. While all stick to the principle of studying text and context together, the different contributions also demonstrate how specific textual and contextual circumstances require adapted methodological solutions, ending up in a collection that takes steps in a joint direction but that is at the same time complex and pluralistic. The book is intended for scholars and students of Translation Studies, Comparative Literature, and other disciplines within Language and Literature.

Speech-to-Speech Translation Yutaka Kidawara, Eiichiro Sumita, Hisashi Kawai, 2019-11-22 This book provides the readers with retrospective and prospective views with detailed explanations of component technologies, speech recognition, language translation and speech synthesis. Speech-to-speech translation system (S2S) enables to break language barriers, i.e., communicate each other between any pair of person on the globe, which is one of extreme dreams of humankind. People, society, and economy connected by S2S will demonstrate explosive growth without exception. In 1986, Japan initiated basic research of S2S, then the idea spread world-wide and were explored deeply by researchers during three decades. Now, we see S2S application on smartphone/tablet around the world. Computational resources such as processors, memories, wireless communication accelerate this computation-intensive systems and accumulation of digital data of speech and language encourage recent approaches based on machine learning. Through field

experiments after long research in laboratories, S2S systems are being well-developed and now ready to be utilized in daily life. Unique chapter of this book is end-2-end evaluation by comparing system's performance and human competence. The effectiveness of the system would be understood by the score of this evaluation. The book will end with one of the next focus of S2S will be technology of simultaneous interpretation for lecture, broadcast news and so on.

A Voyage Round the World, 2 vols. George Forster, 2000-01-01 George Forster's *A Voyage Round the World* presents a wealth of geographic, scientific, and ethnographic knowledge uncovered by Cook's second journey of exploration in the Pacific (1772-1775). Accompanying his father, the ship's naturalist Johann Reinhold Forster, on the voyage, George proved a knowledgeable and adept observer. The lively, elegant prose and critical detail of his account, based loosely on his father's journal, make it one of the finest works of eighteenth-century travel literature and an account of prime importance in the history of European contact with Pacific peoples. The Forsters' publications reveal the sophistication and enthusiasm they brought to their observation of Polynesian peoples as well as a sensitivity to the moral ambiguities of contact. The two volumes of George Forster's work include substantially richer descriptions of encounters with island inhabitants than either his father's classic work (*Observations Made during a Voyage round the World*, UH Press, 1996) or Cook's official narrative, and its

confident, even visionary, style incorporates a good deal of polemic, particularly in its criticism of the treatment of islanders by Cook's crew. In addition to the range and depth of its anthropological considerations, it provides a thrilling account of life aboard one of Cook's vessels. In its author's German translation, this work becomes a classic of natural history writing, but its original English version has long been neglected by anglophone scholars. This new scholarly edition makes this important book readily available for the first time since its initial publication more than two centuries ago. But it also presents the work in fresh terms, making it more accessible and relevant to a contemporary audience. The valuable introduction and annotations draw on the wide range of anthropological and ethnohistorical scholarship published since the 1960s and contextualize the book in relation to both the cultures of Oceania documented by the Forsters and the history of European voyaging in the Pacific. Appendixes include a translation of the introduction to the German edition and the polemical pamphlets by George Forster and the ship's astronomer William Wales, in which some of the book's more controversial claims were debated. *A Voyage Round the World* brings the disciplines of history and anthropology to bear on Cook's voyages in an illuminating and readable fashion. This edition will help complete the corpus of basic documents on Cook's voyages--a crucial resource for researchers in cultural, Pacific, and maritime history; archaeologists, anthropologists, and art historians; and most recently for scholars engaged

in revisionist interpretations of eighteenth-century exploration and colonization.

Voices in Translation Gunilla M. Anderman, 2007 This volume includes contributions on dialect translation as well as other studies concerned with the problems facing the translator in bridging cultural divides.

The World of the Voice-over Daniel Pagoon, 2007 This volume describes what 'voice-overs' do and how translators can become voice artists as well. It suggests criteria by which translators and actors can assess their potential and describes the training that they will need to go through to be able to read professionally.

Voices in the Evening Natalia Ginzburg, 2021-05-04 From one of Italy's greatest writers, a stunning novel "filled with shimmering, risky, darting observation" (Colm Tóibín) After WWII, a small Italian town struggles to emerge from under the thumb of Fascism. With wit, tenderness, and irony, Elsa, the novel's narrator, weaves a rich tapestry of provincial Italian life: two generations of neighbors and relatives, their gossip and shattered dreams, their heartbreaks and struggles to find happiness. Elsa wants to imagine a future for herself, free from the expectations and burdens of her town's history, but the weight of the past will always prove unbearable, insistently posing the question: "Why has everything been ruined?"

The Estill Voice Model Kimberly Steinhauer, Jo Estill, 2017-01-06

Multiple Voices in the Translation Classroom Maria González

Davies, 2004-01-01 The main aim of this book is to provide teaching ideas that can be adapted to different learning environments and that can be used with different language combinations. The pedagogical approach and the activities, tasks and projects are based on Communicative, Humanistic and Socioconstructivist principles: the students are actively involved in their learning process by making decisions and interacting with each other in a classroom setting that is a discussion forum and hands-on workshop. Clear aims are specified for the activities, which move from the most rudimentary level of the word, to the more complicated issues of syntax and, finally, to those of cultural difference. Moreover, they attempt to synthesize various translation theories, not only those based on linguistics, but those derived from cultural studies as well. This volume will be of interest to translation teachers, to foreign language teachers who wish to include translation in their classes, to graduates and professional translators interested in becoming teachers, and also to administrators exploring the possibility of starting a new translation programme.

Mary's Voice in the Gospel According to John Michael Pakaluk, 2021-02-16 A New Light on John's Gospel The Gospel according to John has always been recognized as different from the "synoptic" accounts of Matthew, Mark, and Luke. But what explains the difference? In this new translation and verse-

byverse commentary, Michael Pakaluk suggests an answer and unlocks a twothousand-year-old mystery. Mary's Voice in the Gospel according to John reveals the subtle but powerful influence of the Mother of Jesus on the fourth Gospel. In his dying words, Jesus committed his Mother to the care of John, the beloved disciple, who "from that hour . . . took her into his own home." Pakaluk draws out the implications of that detail, which have been overlooked for centuries. In Mary's remaining years on earth, what would she and John have talked about? Surely no subject was as close to their hearts as the words and deeds of Jesus. Mary's unique perspective and intimate knowledge of her Son must have shaped the account of Jesus' life that John would eventually compose. With the same scholarship, imagination, and fidelity that he applied to Mark's Gospel in *The Memoirs of St. Peter*, Pakaluk brings out the voice of Mary in John's, from the famous prologue about the Incarnation of the Word to the Evangelist's closing avowal of the reliability of his account. This remarkably fresh translation and commentary will deepen your understanding of the most sublime book of the New Testament.

Voice and Versification in Translating Poems James William Underhill, 2016 Robert Frost, the modern American poet, claimed 'poetry' was what is lost in translation. This refreshing yet rigorous and extensive examination of the art and science of versification and translation focuses on the poem while offering a broad overview of the technical terminology involved.

Diverse Voices in Chinese Translation and Interpreting Riccardo

Moratto, Martin Woesler, 2021-02-02 This book presents a thoughtful and thorough account of diverse studies on Chinese translation and interpreting (TI). It introduces readers to a plurality of scholarly voices focusing on different aspects of Chinese TI from an interdisciplinary and international perspective. The book brings together eighteen essays by scholars at different stages of their careers with different relationships to translation and interpreting studies. Readers will approach Chinese TI studies from different standpoints, namely socio-historical, literary, policy-related, interpreting, and contemporary translation practice. Given its focus, the book benefits researchers and students who are interested in a global scholarly approach to Chinese TI. The book offers a unique window on topical issues in Chinese TI theory and practice. It is hoped that this book encourages a multilateral, dynamic, and international approach in a scholarly discussion where, more often than not, approaches tend to get dichotomized. This book aims at bringing together international leading scholars with the same passion, that is delving into the theoretical and practical aspects of Chinese TI.

Computer-Aided Translation Technology Lynne Bowker, 2002-04-17 Lynne Bowker introduces the world of technology to the world of translation in this unique book, the first of its kind. Bowker reveals the role of technology in translation and how to use this ever developing tool.

Audiovisual Translation Jorge Díaz Cintas, G. Anderman, 2008-12-19 An

introduction by leading experts in the field to the fascinating subject of translating audiovisual programmes for the television, the cinema, the Internet and the stage and the problems the differences between cultures can cause.

Thinking Through Translation Jeffrey M. Green, 2010-09-01 Punctuated by thoughtful wit, this engaging volume of essays offers Jeffrey M. Green's personal and theoretical ruminations on the profession of translation. Green begins many of the essays by relating the specific techniques and problems associated with translating from Hebrew texts. From this intimate perspective, he forges wise reflections on such subjects as identifying and preserving the writer's voice, the cultural significance of translations and their contents, the research and travel that are part of a translator's everyday life, and the frequent puzzles associated with the craft. Green combines a contemporary frankness about the financial, practical, theoretical, and ethical aspects of translation with an aspiration to write "like a good literary critic of the old school"—considering the moral and spiritual implications of the translation as well as its content. *Thinking Through Translation* shows us, with eloquent honesty, that translation is a delicate art and skill, and presents the trade as a way of attaining insight about history, the world, and oneself.

Booker International Prize Felipe and Iquela, two young friends in modern day Santiago, live in the legacy of Chile's dictatorship. Felipe prowls the streets counting dead bodies real and imagined, aspiring to a perfect number that might offer closure. Iquela and Paloma, an old acquaintance from Iquela's childhood, search for a way to reconcile their fragile lives with their parents' violent militant past. The body of Paloma's mother gets lost in transit, sending the three on a pisco-fueled journey up the cordillera as they confront the pain that stretches across generations.

Fruit of the Drunken Tree Ingrid Rojas Contreras, 2019-06-04 "One of the most dazzling and devastating novels I've read in a long time...Readers of Fruit of the Drunken Tree will surely be transformed." --San Francisco Chronicle "Simultaneously propulsive and poetic, reminiscent of Isabel Allende...Listen to this new author's voice – she has something powerful to say." --Entertainment Weekly Seven-year-old Chula lives a carefree life in her gated community in Bogotá, but the threat of kidnappings, car bombs, and assassinations hover just outside her walls, where the godlike drug lord Pablo Escobar reigns, capturing the attention of the nation. When her mother hires Petrona, a live-in-maid from the city's guerrilla-occupied slum, Chula makes it her mission to understand Petrona's mysterious ways. Petrona is a young woman crumbling under the burden of providing for her family as the rip tide of first love pulls her in the opposite direction. As both girls' families scramble to maintain stability amidst the rapidly escalating

conflict, Petrona and Chula find themselves entangled in a web of secrecy. Inspired by the author's own life, *Fruit of the Drunken Tree* is a powerful testament to the impossible choices women are often forced to make in the face of violence and the unexpected connections that can blossom out of desperation.

The Other Voice Joanna Bankier, 1976 This book brings together in contemporary English verse translations poems by some seventy women who live or have lived in thirty-seven countries. They come from Eastern and Western Europe, from the Middle and Far East, from islands in the South Pacific, from South America, the Caribbean, French Canada, and from the hidden American literatures of the Yiddish and American Indian literary customs.
