**Assessing Government Transparency in China(2018)** He Tian,Yanbin Lv,2021-02-12 This book, based on empirical and quantitative research, assesses the development of openness in government affairs in China. The content is divided into five parts, namely a general report, special reports, assessment reports on government transparency, reports on the openness of government in specific fields and how openness in government affairs is locally practiced. Covering the country as a whole, the general report summarizes significant aspects of openness in government affairs at all levels regarding, e.g. decision-making, law enforcement, management, service, policy interpretation and responding to public concerns. In addition, the general report reveals some current problems and provides an outline of openness in government affairs for the future. Focusing on decision-making, social assistance, environmental protection, transport, education and other fields closely related to public interest and social attention, the book subsequently summarizes a number of special works concerning openness in government affairs. Furthermore, it conducts a special study on the standardized work of openness in government affairs, which has been actively pursued by departments of the State Council and local governments. In order to provide representative coverage on openness in government affairs, the book combines innovative measures, experiences and problems, while also sharing an in-depth analysis of the difficulties involved in openness for local governments, including examples from several provinces and cities.

Evaluation on Government Transparency Index in China (2009—2016) Yanbin Lv,He Tian,2021-11-25 This book presents the outcomes of a study on indices of rule by law in China conducted by the Chinese Academy of Social Sciences (CASS). Since 2009, a group of researchers at the CASS Institute of Law has worked to assess the Chinese government's transparency. In this context, they designed an index system to truthfully record and reflect the reality and development of openness in the Chinese government for eight consecutive years. This book compiles their reports on each year's development, systematically combining quantitative analysis and the status quo for each year. Thanks to these reports, readers will be able to clearly understand the evolution of the Chinese government's openness during these eight years. They highlight what the government has done to improve transparency, what has been achieved, and the goals for the future. These reports have not only been acclaimed in academic circles, but have also greatly influenced government policies and procedures. For example, the assessment was expanded to the judicial system including the Supreme People's Court, maritime court, and local provincial courts in 2011, and ever since the national judicial system's openness has been considerably improved, in response to recommendations based on the assessment.

Government Information Management in the 21st Century Peggy Garvin,2016-04-22 Government Information Management in the 21st Century provides librarians, information professionals, and

government information policy leaders with a comprehensive and authoritative state-of-the-art review of current issues in government information management with a global perspective. The widespread use of the Internet to provide government information and services has altered the landscape dramatically for those who organize, store, and provide access to government content. Technical challenges include digital preservation, authentication, security, and accessibility for a diverse user base. Management challenges include changes to costs, workflow, staff skills and resources, and user expectations. Public policies based on distributed paper collections must also change to address issues that are inherent to digital, networked, public content; such issues include the maintenance of personal privacy, re-use of government information, and the digital divide. The authors in this timely book are practitioners, scholars, and government officials. Together they provide an informed look at how managing government information is being tested at a time of rapid change. Part I addresses key issues for public, academic, and government libraries in organizing and providing access to government information. Part II features chapters on the diverse information issues facing governments, such as managing Freedom of Information requirements, opening government data to the public, and deploying new online technologies.

**Tracing the Shadow of Secrecy and Government Transparency in Eighteenth-Century France** Nicole Bauer, 2022-11-30 This book traces changing attitudes towards secrecy in eighteenth-century France, and explores the cultural origins of ideas surrounding government transparency. The idea of keeping secrets, both on the part of individuals and on the part of governments, came to be viewed with more suspicion as the century progressed. By the eve of the French Revolution, writers voicing concerns about corruption saw secrecy as part and parcel of despotism, and this shift went hand in hand with the rise of the idea of transparency. The author argues that the emphasis placed on government transparency, especially the mania for transparency that dominated the French Revolution, resulted from the surprising connections and confluence of changing attitudes towards honour, religious movements, rising nationalism, literature, and police practices. Exploring religious ideas that associated secrecy with darkness and wickedness, and proto-nationalist discourse that equated foreignness with secrecy, this book demonstrates how cultural shifts in eighteenth-century France influenced its politics. Covering the period of intense fear during the French Revolution and the paranoia of the Reign of Terror, the book highlights the complex interplay of culture and politics and provides insights into our attitudes towards secrecy today.

**Government Transparency** T. Erkkilä, 2012-09-17 Transparency has become a global concept of responsible government. This book argues that the transnational discourse of transparency promotes potentially contradictory policy ideas that can lead to unintended consequences. It critically examines whether or not increased transparency really leads to increased democratic accountability.

**Analysing the Trust-Transparency Nexus** Stafford, Ian, Cole, Alistair, 2022-03-24 Is transparency a necessary condition to build and restore citizen and civil society trust in governance and democracy? Throughout Europe, there is a growing demand for effective forms of citizen engagement and decentralisation in policy-making to increase trust and engage increasingly diverse populations. This volume addresses the relationship between trust and transparency in the context of multi-level governance. Drawing on fieldwork from the UK, France and Germany, this comparative analysis examines different efforts to build trust between key actors involved in decision-making at the sub-national level. It outlines the challenges of delivering this agenda and explores the paradox that trust might require transparency, yet in some instances transparency may undermine trust.

**(In)visible European Government** Maarten Hillebrandt, Päivi Leino-Sandberg, Ida

Koivisto, 2023-12-22 This book questions the theoretical premises and practical applications of transparency, showing both the promises and perils of transparency in a methodologically innovative way and in a cross-section of policy instruments. It scrutinizes transparency from three perspectives - methodologically, theoretically, and empirically - both in the specific context of the EU but also in the wider context of modern society in which transparency is embraced as an almost unquestionable virtue. This book examines the ways in which transparency practices can make institutions visible and stands out for its methodological self-reflection: to fully understand the irresistible call for transparency in our governing institutions, we must reflect on our own relationship with it. This book will be of key interest to scholars and students of transparency studies, democratic legitimacy, global governance, governance law, EU studies and law and public policy more widely.

**Open Government and Targeted Transparency** Marcela Restrepo Hung, Sandra

Elena, Estefanía Casadei, Thiago Alvim Camargo, Ezequiel Molina, Álvaro V. Ramírez Alujas, Juanita Riaño, Luciana Díaz Frers, Amon Narciso de Barros, Orazio J. Bellettini Cedeño, Sonia Tschorne Berestesky, Juan Cruz Vieyra, Nicolás Dassen, Roberto de Michele, 2012-10-30 Transparency and integrity are key factors in consolidating democratic governance and deepening the modernization of the state. The Inter-American Development Bank (IDB) has been supporting country efforts to achieve open government, providing technical support and knowledge on transparency in the LAC region. With the support of the Norwegian government, the IDB created the Anticorruption Activities Trust Fund (AAF), aimed at strengthening the institutional capacity of the Bank's borrowing countries in their efforts to prevent and control corruption. After four years in operation, the fund has gained recognition, both inside and outside the Bank, as a source of innovation and best practices in terms of access to information and targeted transparency. This publication compiles some of the experiences and lessons learned from five different countries (Argentina, Brazil, Colombia, Ecuador, and Guatemala), with direct support from the AAF.

**Government Transparency** Gregory Porumbescu, Albert Meijer, Stephan

Grimmelikhuijsen, 2022-07-07 This Element argues that to understand why transparency “works” in one context, but fails in another, we have to take into account how institutional (macro), organizational (meso) contexts interact with individual behavior (micro). A review of research from each of these perspectives shows that the big promises thought to accompany greater transparency during the first two decades of the 20th century have not been delivered. For example, transparency does not necessarily lead to better government performance and more trust in government. At the same time, transparency is still a hallmark of democratic governance and as this book highlights, for instance, transparency has been relatively successful in combating government corruption. Finally, by explicitly taking a multilayered perspective into account, this Element develops new paths for future research.

**Conservatism and Ideology** Matthew Johnson, Mark Garnett, David M Walker, 2017-10-02 Michael

Oakshott described conservatism as a non-ideological preference for the familiar, tried, actual, limited, near, sufficient, convenient and present. Historically, conservatives have been associated with attempts to sustain social harmony between classes and groups within an organic, hierarchical order grounded in collective history and cultural values. Yet, in recent decades, conservatism throughout the English-speaking world has been associated with radical social and economic policy, often championing free-market models which substitute the free movement of labour and forms of competition and social mobility for organic hierarchy and noblesse oblige. The radical changes associated with such policies call into question the extent to which contemporary conservatism is conservative, rather than ideological. This book seeks to explore contemporary conservative political thought with regard to such topics as, ‘One Nation’ politics and Big Society, sovereignty, multiculturalism and international blocs, paternalism and negative liberty with regard to narcotics, pornography and education, regional and international development, and public faith, establishment and religious diversity. This book will be published as a special issue of Global Discourse.

**The Gender Pay Gap and Social Partnership in Europe** Hazel Conley, Donata

Gottardi, Geraldine Healy, Barbara Mikołajczyk, Marco Peruzzi, 2018-12-06 The gender pay gap (GPG) exists in every European country, but it varies considerably, even in EU member states covered by the same legal principles on pay equality. Part of the variation can be explained by different patterns of social partnership. With current policy pressure to de-centralise collective bargaining and increase the percentage of pay linked to productivity, what role can social partnership play in tackling the GPG? Reporting on the findings of the European Commission funded research project Close the Deal, Fill the Gap, this book uses an interdisciplinary analysis involving legal, economic, and sociological expertise, to explore the role of social partnership in GPG in Italy, Poland and the UK. Selected on the basis of their contrasting profiles in terms of legal regulation, industrial relations, systems of collective bargaining, coverage of collective agreements, and differing rates of the GPG, the in-depth study provides important insights into the main issues underlying the problem of reducing the gender pay gap which have led to guidelines in the negotiation of arrangements on GPG-related issues. Based on a unique comparative, interdisciplinary and action-oriented research project, it will be of great interest to all researchers and advanced students with an interest in women's representation in the workforce and the gender pay gap, as well as practitioners and policy makers in organisations such as trade unions and employers' associations.

**Achieving Open Justice through Citizen Participation and Transparency** Jiménez-Gómez, Carlos E., Gascó-Hernández, Mila, 2016-08-12 Open government initiatives have become a defining goal for public administrators around the world. However, progress is still necessary outside of the executive and legislative sectors. Achieving Open Justice through Citizen Participation and Transparency is a pivotal reference source for the latest scholarly research on the implementation of open government within the judiciary field, emphasizing the effectiveness and accountability achieved through these actions. Highlighting the application of open government concepts in a global context, this book is ideally designed for public officials, researchers, professionals, and practitioners interested in the improvement of governance and democracy.
