Indian Travel Writing in the Age of Empire Pramod K. Nayar, 2020-01-18 Indian Travel Writing in the Age of Empire studies a variety of travel narratives by Indian kings, evangelists, statesmen, scholars, merchants, leisure travellers and reformers. It identifies the key modes through which the Indian traveller engaged with Europe and the world-from aesthetic evaluations to cosmopolitan nationalist perceptions, from exoticism to a keen sense of connected and global histories. These modes are constitutive of the identity of the traveller. The book demonstrates how the Indian traveller defied the prescriptive category of the 'imperial subject' and fashions himself through this multilayered engagement with England, Europe and the world in different identities.

A Package to India Lawrence A. Winzenread, 2013-07-13 A Package to India is a light-hearted look at a trip to India, Nepal, and Bhutan with a group of friends called The BEST EVER GANG. It describes the amazing kaleidoscope of South Asia, the wonderful people met along the way, and the quirks of travel that are often hilarious, sometimes tiring, but always interesting. Not intended as a scholarly endeavor, the book, with its 190 color photographs, tries to bring the reader into the circle of travelers. It is a great way to prepare for your own expedition, or even a helpful guide to selecting a destination. The book is as personal as it is international, and it presents the journey as a story to be enjoyed and shared.

Evaluating Trade and Economic Relations Between India and Southeast Asia Medhekar, Anita, Kaur, Harpreet, 2021-11-19 Owing to a strong cultural and historical bond, India and Southeast Asia have progressed rapidly. Though there are political and ideological differences between these two entities, it may not hamper the strong bond as there are many common shared values among these nations. The history of these nations identifies that the cooperation between them in terms of trade and commerce is not upheld per the given potential of these nations. In the past, the Indian economy was linked with Southeast Asian countries under the "Look East" policy, which has been re-energized again under the present government. Now, the "Look East" policy is practically more vibrant than ever before with the motto "Act East." This policy facilitates these countries in emphasizing the importance of better regional connectivity for tourism as well as robust trade and commerce. It leads to a phenomenal growth in terms of imports and exports for these countries. *Evaluating Trade and Economic Relations Between India and Southeast Asia* sheds light on the trade and economic linkages between India and Southeast Asia and their impact on the nations in the past, present, and for the future. The chapters study whether the win-win strategy works for the strengthening of these countries in terms of both trade relations and political integrity, as well as in facing common enemies across international boundaries. Some of the topics covered include food security, tourism opportunities, trade blocs, trade relations, and economic relations between countries. This book is a valuable reference tool for economists, government

officials, policymakers, trade analysts, practitioners, researchers, academicians, and students interested in the policies and relations between India and Southeast Asia that affect trade and the economy.

South Asia in the Era of Globalization Mita Bhattacharya, 2004 The South Asian economies constitute the largest and most densely populated region of the world. With an estimated 1.4 billion plus people, this is a larger market area than China. This volume addresses South Asia's opening up and attempts to integrate into the global economy. Economic Crisis and Mentality of Youth in Post-Pandemic Period edited by Sagar Simlandy Various Contributors, 2021-07-03 This book is the outcome of an intellectual exercise to understand our post-COVID society. Our planet is convalescing from one of the worst pandemics in living memory – the whole of 2020 has been sacrificed to combat the iniquities perpetrated by a sub-microscopic conglomeration of proteins and nucleic acids, a virus that has achieved immortality in the annals of history as SARS-COVID-19. Deaths from COVID-19 in USA have crossed 405,399 – the number of Americans who died in the Second World War. The most important and, most far-reaching effect has of course been that of isolation, 'lockdown' in colloquial usage. That term is now probably the most widely understood English word across the inhabited world from the poles to the tropics, even in non-English speaking countries like China and Japan. The primary effect of this lockdown has been on the economy – from developed to developing countries, there are none that may claim to have escaped the paralyzing debilitation caused by an instant and total absence of all forms of commerce. Long queues in front of provision stores, slow starvation as savings dried up, people begging for scraps, people dying by the roadside and railway tracks as they set out to walk the length and breadth of the country en-route to their homes from their places

of work – all these shocking pictures are now part of our heritage. An online society has cropped up as the new normal one, sustained by internet, apps, tweeter, and face-book and so on. It is needless to say that this digital society is the child of no other than the Corona virus. What is different today is the loss of vision. Men have distanced themselves not only from their friends but also from their productive energy and sustainable creativity.

Pilgrimage Tourism C. Aruljothi, S. Ramaswamy, 2019-06-07 People in general and pilgrims in particular go on pilgrimages to temples, mosques, churches, gurudwaras for worshipping their religious gods and goddesses. But, tourism and pilgrimage are intertwined with little differences. Religious tourism is based on time involved and distance travelled namely short- and long-term religious tourism. The short-term type involves travel to nearby pilgrimage centres or religious conferences, or religious discourses while the long-term religious tourism involves travel to religious sites and religious conferences around the world. Pilgrimage is "the result of a vow". India is a land of temples, mosques and churches. They play significant role in the development of any economy. Temples in India, particularly in Tamil Nadu play different roles such as redistributors of income, producer, consumer, land-owner, employer, trustee, tourist centre, religious, cultural, social and economic institution. Pilgrimage is aimed to attain moksha - the ultimate aim of individual. Moreover, pilgrimage tourism is considered as an instrument of stress relief, and it is one of the most understudied and least researched areas in tourism and leisure economics. With this backdrop, the book "Pilgrimage Tourism in India" is initiated with the following objectives viz: to examine socio-economic, cultural and environmental profiles of pilgrim tourists and local residents of Palani town and temple environs; to identify factors determining pilgrimage tourism and to examine perceptions of pilgrims on the socio-economic overheads, facilities and services exist at Palani town and temple environs; to gauge the perceptions of local residents on social, economic, cultural and environmental impacts of pilgrimage tourism to Palani town and temple environs; and to identify problems emerging from pilgrimage tourism and economic changes to local residents and to make suggestions for policy for pilgrimage tourism, benefiting both the pilgrims and the local residents of Palani town and temple environs. Contents : Introduction, Role of Tourism in Economic Development, Realities of Pilgrimage Tourism, Pilgrimage Tourism in Tamil Nadu—A Case Study, Socio-Economic Analysis of Pilgrimage Tourism, Conclusion.
