War Brian Gruber,2016-04-22 WAR: The Afterparty is a one-of-a-kind citizen audit of the aftereffects of a half-century of U.S. military interventions. FORA.tv founder and long-time media executive Brian Gruber straps on a backpack and travels solo around the world, from a front-line Iraqi Army base outside Mosul to an encounter with Afghanistan's leading mullah, from the Panama Canal and Serbia to Vietnam and the killing fields of Cambodia. Through a series of extraordinary interviews and chance encounters with political and religious leaders, writers, teachers, mothers and combatants, he examines whether the objectives of war are accomplished, and at what human and financial costs. Seeking fresh narratives, Gruber explores life from the other end of the gun barrel, and comes up with provocative, often surprising answers.

End of Discussion Mary Katharine Ham,Guy Benson,2017-08-01 With a new foreword for the paperback edition reflecting Trump's election and the recent uproar surrounding right-leaning speakers on college campuses, this unapologetic conservative duo featured on FOX News, Townhall, The Federalist, and CNN combat the silencing of free speech in America. They're trying to silence you. But don't let them dictate the End of Discussion. In the age of Trump, a prejudice against free speech is spreading, fueled by a growing movement that believes ideas must be squelched to protect people. The presidential election of 2016 should have been the clearest sign yet to the Left that trying to convince half the country to shut up is not the same as actually convincing them. And yet, in its wake, the impulse to stifle and punish incorrect viewpoints, and the deplorables who voice them, is alive and well. It's a vicious and ironic cycle, especially in academia, where dissenting speech is deemed dangerous and equated to violence -- while actual violence is justified to bully its proponents. From Berkeley to Middlebury, the mob is on the march. Free speech isn't always pretty, but it's vital to the American way. We have to make America talk again. End of Discussion arms readers to find their voices and fight back against the death of debate.

Fashion and Tourism Maria Gravari-Barbas,Nadzeya Sabatini,2023-12-14 Fashion and tourism have common structures and similarities on many fronts. Both phenomena and their operations have been through their 'mass' cycles, currently seeking alternative ways of expression and development. Both industries are also important business sectors globally.

How Not to Travel the World Lauren Juliff,2015-08-12 It was hitting rock bottom that convinced Lauren to quit her job, sell everything she owned, and travel the world alone. It wasn't an easy decision: she suffered from debilitating anxiety, was battling an eating disorder, and had just had her heart broken. Not only that, but she had so little life experience that she had never eaten rice or been on a bus. She'd hoped leaving everything behind would help her find and heal herself, but instead Lauren's travels were full of bad luck and near-death experiences. She was scammed and assaulted; lost teeth and swallowed a cockroach. She fell into leech-infested rice paddies, was caught up in a tsunami, had the brakes of her motorbike fail, and experienced a very unhappy ending in Thailand. It was just as she was about to give up on travel when she stumbled across a handsome New Zealander with a love of challenges... How Not to Travel The World is about following your dreams, no matter how many curveballs life throws at you. It's about learning to get out of your comfort zone, finding the humour in messed up situations, and falling in love with life on the road.

Lila Robert Pirsig,2013-11-06 In this bestselling new book, his first in seventeen years, Robert M. Pirsig, author of Zen and the Art of Motorcycle Maintenance, takes us on a poignant and passionate journey as mysterious and compelling as his first life-changing work. Instead of a motorcycle, a sailboat carries his philosopher-narrator Phaedrus down the Hudson River as winter closes in. Along the way he picks up a most unlikely traveling companion: a woman named Lila who in her desperate sexuality, hostility, and oncoming madness threatens to disrupt his life. In Lila Robert M. Pirsig has crafted a unique work of adventure and ideas that examines the essential issues of the nineties as his

previous classic did the seventies.

The Secret of Our Success Joseph Henrich, 2017-10-17 How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

Provence, 1970 Luke Barr, 2014-11-04 Provence, 1970 is about a singular historic moment. In the winter of that year, more or less coincidentally, the iconic culinary figures James Beard, M.F.K. Fisher, Julia Child, Richard Olney, Simone Beck, and Judith Jones found themselves together in the South of France. They cooked and ate, talked and argued, about the future of food in America, the meaning of taste, and the limits of snobbery. Without quite realizing it, they were shaping today's tastes and culture, the way we eat now. The conversations among this group were chronicled by M.F.K. Fisher in journals and letters—some of which were later discovered by Luke Barr, her great-nephew. In *Provence, 1970*, he captures this seminal season, set against a stunning backdrop in cinematic scope—complete with gossip, drama, and contemporary relevance.

The Piano Tuner Daniel Mason, 2003-12-16 A New York Times Notable Book A San Francisco Chronicle, San Jose Mercury News, and Los Angeles Times Best Book of the Year “A gripping and resonant novel. . . . It immerses the reader in a distant world with startling immediacy and ardor. . . . Riveting.” —Michiko Kakutani, *The New York Times* In 1886 a shy, middle-aged piano tuner named Edgar Drake receives an unusual commission from the British War Office: to travel to the remote jungles of northeast Burma and there repair a rare piano belonging to an eccentric army surgeon who has proven mysteriously indispensable to the imperial design. From this irresistible beginning, *The Piano Tuner* launches readers into a world of seductive, vibrantly rendered characters, and enmeshes them in an unbreakable spell of storytelling.

On the Plain of Snakes Paul Theroux, 2019 Legendary travel writer Paul Theroux drives the entire length of the US-Mexico border, then goes deep into the hinterland, on the back roads of Chiapas and Oaxaca, to uncover the rich, layered world behind today's brutal headlines. Paul Theroux has spent his life crisscrossing the globe in search of the histories and peoples that give life to the places they call home. Now, as immigration debates boil around the world, Theroux has set out to explore a country key to understanding our current discourse: Mexico. Just south of the Arizona border, in the desert region of Sonora, he finds a place brimming with vitality, yet visibly marked by

both the US Border Patrol looming to the north and mounting discord from within. With the same humanizing sensibility he employed in Deep South, Theroux stops to talk with residents, visits Zapotec mill workers in the highlands, and attends a Zapatista party meeting, communing with people of all stripes who remain south of the border even as their families brave the journey north. From the writer praised for his curiosity and affection for humanity in all its forms (New York Times Book Review), *On the Plain of Snakes* is an exploration of a region in conflict.

Wasting Time on the Internet Kenneth Goldsmith, 2016-08-23 Using clear, readable prose, conceptual artist and poet Kenneth Goldsmith's manifesto shows how our time on the internet is not really wasted but is quite productive and creative as he puts the experience in its proper theoretical and philosophical context. Kenneth Goldsmith wants you to rethink the internet. Many people feel guilty after spending hours watching cat videos or clicking link after link after link. But Goldsmith sees that "wasted" time differently. Unlike old media, the internet demands active engagement—and it's actually making us more social, more creative, even more productive. When Goldsmith, a renowned conceptual artist and poet, introduced a class at the University of Pennsylvania called "Wasting Time on the Internet", he nearly broke the internet. The New Yorker, the Atlantic, the Washington Post, Slate, Vice, Time, CNN, the Telegraph, and many more, ran articles expressing their shock, dismay, and, ultimately, their curiosity. Goldsmith's ideas struck a nerve, because they are brilliantly subversive—and endlessly shareable. In *Wasting Time on the Internet*, Goldsmith expands upon his provocative insights, contending that our digital lives are remaking human experience. When we're "wasting time," we're actually creating a culture of collaboration. We're reading and writing more—and quite differently. And we're turning concepts of authority and authenticity upside-down. The internet puts us in a state between deep focus and subconscious flow, a state that Goldsmith argues is ideal for creativity. Where that creativity takes us will be one of the stories of the twenty-first century. Wide-ranging, counterintuitive, engrossing, unpredictable—like the internet itself—*Wasting Time on the Internet* is the manifesto you didn't know you needed.

Outposts Simon Winchester, 2009-10-27 The New York Times bestselling author of *Krakatoa* and *The Professor and the Madman* takes readers on a quirky and charming tour of the last outpost of the British empire. Outposts is Simon Winchester's journey to find the vanishing empire, "on which the sun never sets." In the course of a three-year, 100,000 mile journey—from the chill of the Antarctic to the blue seas of the Caribbean, from the South of Spain and the tip of China to the utterly remote specks in the middle of gale-swept oceans—he discovered such romance and depravity, opulence and despair that he was inspired to write what may be the last contemporary account of the British empire. Written with Winchester's captivating style and breadth, here are conversations and anecdotes, myths and political analysis, scenery and history—a poignant and colorful record of the lingering beat of what was once the heart of the civilized world.
