Bahram,2016-03-09 What is art photography? First of all sorry for my english, I am persian !! I have to say this is really a question that is not so easy to answer There are examples of photos that have been made completely without claiming to be art and that are traded as such, Pictures, of which not even the photographer is known. It is very important that the photographer for himself has an idea of Art Photos, and even if he goes with his camera out, hoping for a good photo, but he has a frame operation for his work When I come home with many photos, begins the work, which means I ask myself: Is this an art photo and fit my working frame Operation What are my personal works frames Operation Details, people movement, creativity, conscious action, willing to take random image The question I ask myself is: Could it be that viewers would regret it if they had not seen this or it would not matter to them if they regret it, then the image belongs to my book. It is also since the beginning of the art always a bone of contention what art is. The Answers have unlimited space for interpretations. I think also in terms of art are photos like music and painting! Some like it and others do not! As with the music! What varied and exciting makes the whole thing so well! And always looking for something to watch again! Perhaps art is to produce the conscious application of creative imagination and craft skills to aesthetic objects such as picture or sculpture. 'Conscious' means that a Random product is not art 'Creative' means a copy is not art. 'Craft' means the arts and crafts are complementary. 'Aesthetic' means that the product is beautiful. This definition is probably not for everyone but for me creates clarity Copy a photo, painting or sculpture, is not as copies of writings possible (except, someone wants to copy a Tolstoy book!!) When I write a sentence and millions of other people agree with this statement, for example this sentence: A copy of the hare, (a watercolor by Albrecht Durer) is nice, but only the original is Art This sentence is not a copy, but an image or music or photo can not be copied because it is a person and creativity behind it, From nothing, now by the artist something exists, whether a picture or song or photo. Creativity is really a key word. I remember when I was in Prague and Budapest and wanted pictures of craftsmanship (Glass and wooden toys) make that were behind glass cabinets, first automatically and instinctively you would think on this issue to a polarizing filter, as this reflection on nonmetallic surfaces (so can also suppress on glass). Avoid for reflections on glass panes But I asked myself, why actually with polarizing filter? What's bad about that once viewer sees how a picture would look without polarizing filter? Not only see objects, but also passers-by on the street and the photographer himself, but all in a photo!! And i did it I made these photos without polarizing filter and I believe have become beautiful photos. An artistic work has been deliberately created

*Patterns of India* Christine Chitnis, 2020-03-03 It's the trip of a lifetime—a textile-based tour of colorful Rajasthan, India featuring more than 200 lush photographs depicting everyday life in one of the most vibrant regions in the world. "Get lost in the beauty of the photographs in *Patterns of India*, a striking journey through the colorful Indian state of Rajasthan."—BuzzFeed *Patterns of India* is a visual experience that offers intimate insights into the diverse and richly hued Western Indian culture. Color is the thread that binds the vast country together, defining every aspect of life from religion and politics to food and dress. Organized by the five dominant colors royal blue, sandstone, marigold, ivory, and rose, this book explores how deeply color and pattern exist in a symbiotic relationship and are woven into every part of the culture. For instance, the fuchsia found in the draping fabric of a sari is matched by the vibrant chains of roses offered at temple, and the burnt orange spices in the marketplaces are reflected in the henna tattoos given to brides and wedding guests. While every color is imbued with meaning, it is often within the details of patterns that the full story comes to light. Photographer and writer Christine Chitnis spent over a decade traveling through, getting to know, and falling in love with the intricate patterns of everyday Rajasthani life. With history and culture-based essays woven throughout the more than 200 stunning photographs of architecture, markets, cuisine, art, textiles, and everyday goings-on, *Patterns of India* captures the beauty and essence of this unique

part of the world.
