Traveling Music Neil Peart, 2004-09 Neil Peart decided to drive his BMW Z-8 automobile from L.A. to Big Bend National Park, in Southwest Texas. As he sped along “between the gas-gulping SUVs and asthmatic Japanese compacts clumping in the left lane, and the roaring, straining semis in the right,” he acted as his own DJ, lining up the CDs chronologically and according to his possible moods. “Not only did the music I listened to accompany my journey, but it also took me on sidetrips, through memory and fractals of associations, threads reaching back through my whole life in ways I had forgotten, or had never suspected.... Sifting through those decades and those memories, I realized that I wasn’t interested in recounting the facts of my life in purely autobiographical terms, but rather ... in trying to unweave the fabric of my life and times. As one who was never much interested in looking back, because always too busy moving forward, I found that once I opened those doors to the past, I became fascinated with the times and their effect on me. The songs and the stories I had taken for granted suddenly had a resonance that had clearly echoed down the corridors of my entire life, and I felt a thrill of recognition, and the sense of a kind of adventure. A travel story, but not so much about places, but about music and memories.”

Traveling Music Videos Tomáš Jirsa, Mathias Bonde Korsgaard, 2023-10-05 *Traveling Music Videos* offers a new interdisciplinary perspective on how contemporary music videos travel across, shape, and transform various media, online platforms, art institutions, and cultural industries worldwide. With the onset of digital technologies and the proliferation of global video-sharing websites at the beginning of the 21st century, music video migrated from TV screens to turn instead to the internet, galleries, concert stages, and social media. As a result, its aesthetics, technological groundings, and politics have been radically transformed. From the kinaesthetic experience of TikTok to the recent reimaginations of maps and navigation tools through music video cartographies, from the ecofeminist voices mediated by live-stream concerts to the transmedia logic of video games and VR, from the videos' role in contemporary art galleries to their political interventions -the chapters map the ways music video is continually reconfiguring itself. The volume tracks music video's audiovisual itineraries across different geographies, maps its transmedia routes, and tackles the cultural impact that it has on our current media ecosystem.

Traveling Soul Todd Mayfield, Travis Atria, 2016-10-01 Curtis Mayfield was one of the seminal vocalists and most talented guitarists of his era, and his music played a vital role in the civil rights movement: *People Get Ready* was the black anthem of the time. In *Traveling Soul*, Todd Mayfield tells his famously private father's story in riveting detail. Born into dire poverty, raised in the slums of Chicago, Curtis became a musical prodigy, not only singing like a dream but growing into a brilliant songwriter. In the 1960s he opened his own label and production company and worked with many other top artists, including the Staple Singers. Curtis's life was famously cut short by an accident that left him paralyzed, but in his declining health he received the long-awaited recognition of the music industry. Passionate, illuminating, vivid, and absorbing, *Traveling Soul* will doubtlessly take its place among the classics of music biography.

Traveling Home Kiri Miller,2008 A compelling account of the vibrant musical tradition of Sacred Harp singing, *Traveling Home* describes how song brings together Americans of widely divergent religious and political beliefs. Named after the most popular of the nineteenth-century shape-note tunebooks - which employed an innovative notation system to teach singers to read music - Sacred Harp singing has been part of rural Southern life for over 150 years. In the wake of the folk revival of the 1950s and 60s, this participatory musical tradition attracted new singers from all over America. All-day singings from The Sacred Harp now take place across the country, creating a diverse and far-flung musical community. Blending historical scholarship with wide-ranging fieldwork, Kiri Miller presents an engagingly written study of this important music movement.

Practical Music Education Technology Richard Dammers,Marjorie LoPresti,2020-02-26 Today's music teachers are caught in a conundrum about technology - while all are interested in it and told to utilize it in music instruction, a lack of equipment and funding act as enormous barriers to technology access. In fact, studies indicate that the mere perception of these obstacles may be partly responsible for the gap between these teachers' interest in technology and the lack of technology integration in the classroom. As a result, students potentially miss out on active, hands-on music technology instruction at school. In *Practical Music Education Technology*, veteran music educators Rick Dammers and Marjorie LoPresti help music teachers introduce technology into the classroom by providing accessible strategies to support and enrich students' musical learning. The authors highlight a plethora of free online tools at teachers' disposal, and provide options that can be flexible for all school environments and types of

teachers - from those with large budgets to those operating on a shoestring, from those well-versed in technology to non-experts. Each chapter outlines pedagogically appropriate resources and strategies that facilitate, support, and enhance music learning, performance, and creation. Additionally, model lesson plans featuring classroom-tested uses of technology aim to empower student engagement while also keeping music learning goals at the forefront. All teaching ideas presented can be tailored to individual teachers' needs and preferences, making Practical Music Education Technology an essential guide to music technology for the everyday music teacher.

Atomic Tunes Tim Smolko, Joanna Smolko, 2021-05-11 What is the soundtrack for a nuclear war? During the Cold War, over 500 songs were written about nuclear weapons, fear of the Soviet Union, civil defense, bomb shelters, McCarthyism, uranium mining, the space race, espionage, the Berlin Wall, and glasnost. This music uncovers aspects of these world-changing events that documentaries and history books cannot. In Atomic Tunes, Tim and Joanna Smolko explore everything from the serious to the comical, the morbid to the crude, showing the widespread concern among musicians coping with the effect of communism on American society and the threat of a nuclear conflict of global proportions. Atomic Tunes presents a musical history of the Cold War, analyzing the songs that capture the fear of those who lived under the shadow of Stalin, Sputnik, mushroom clouds, and missiles.

Traveling Music L. Eric Greinke, 2011 This new collection by widely published poet Eric Greinke demonstrates the power of poetry to expand consciousness. Greinke is a poet of great range and depth, traits that have earned him international critical acclaim. His poems satisfy on both intellectual and emotional levels. This book collects his best new work since *Wild Strawberries* (2008), originally published in journals, such as *The New York Quarterly*, *The South Carolina Review*, *Main Street Rag*, *California Quarterly*, *Chiron Review* and *The Pedestal*. The long prose-poem *Kayak Lessons* (Free Books, 2009) is included, as well as the sixty haiku first published as *Catching The Light -- 12 Haiku Sequences* (Cervena Barva Press, 2009). Greinke is equally comfortable with both social protest (ie: *Mild Valence*, *The Vampires*) and lyric modes (ie: *Persona*, *Driving North*, *Clown the Mist*). These poems address the struggle of love in a brutally forbidding world, the rift in man's nature and his position in nature itself. An instant classic by one of our best poets.
