Apple Training Series Sal Soghoian,Bill Cheeseman,2009-06-02 We know what you're thinking. You've heard about AppleScript. You've heard that it can do amazing things. You've heard that it can automate away the tiring, redundant, repetitive tasks you do with the computer. All true. But you're not sure about what's involved with using it. Is it difficult? Is it programming? After all, you're just a better-than average computer user. You know what you know, and your expertise serves you pretty well. But recently you've reached the point of asking yourself "Is there a better way?" The answer is "Yes." And relax, you just got lucky. This book is for you. If you've never written a single line of computer code–this book is for you. If the most technical thing you do on the computer is calculate a column in Excel–this book is for you. If you're tired of doing the same thing over and over–this book is for you. It's about being motivated to explore, understand, and take advantage of the tools you already own. AppleScript is free–the only price for its use is your desire to finally sit down and take a few moments to absorb and activate its magic. This book starts at square one and walks you through the process of understanding and writing AppleScript–step by step, one concept at a time–until you find yourself suddenly creating powerful and useful automated solutions. And the lessons in this book are based on a decade of experience teaching hands-on classes to folks just like you. You can do this. You can become Master of your Computer Universe! Still don't believe us? Open the first chapter and start reading. You'll see.

Seeing Cities Through Big Data Piyushimita (Vonu) Thakuriah,Nebiyou Tilahun,Moira Zellner,2016-10-07 This book introduces the latest thinking on the use of Big Data in the context of urban systems, including research and insights on human behavior, urban dynamics, resource use, sustainability and spatial disparities, where it promises improved planning, management and governance in the urban sectors (e.g., transportation, energy, smart cities, crime, housing, urban and regional economies, public health, public engagement, urban governance and political systems), as well as Big Data's utility in decision-making, and development of indicators to monitor economic and social activity, and for urban sustainability, transparency, livability, social inclusion, place-making, accessibility and resilience.

<u>Information Requirements (Reports) Manual</u> Department of the Navy,2005-12-31 SECNAV M-5214.1: This Manual provides guidance to program managers and action officers who need to obtain information from the public, other Federal agencies, and within the DON and provides them with the procedures necessary to license their information requirements. It also provides guidance to assist information management control managers on the operation of their information collection programs.

<u>The Numinous Legacy</u> Adair Butchins,2002 Where is God in the universe if anywhere? Why did God make germs? Why should we be so special? Could the universe have been different? This is a book that brings home, in no uncertain fashion, the discrepancy between the universe envisaged by the ancient sages and prophets and that of modern scientific cosmology, where the possibility of divine intervention looks less and less likely. Butchins demonstrates with clarity how the scientific method may be used, despite certain drawbacks, in an attempt to verify objective truth. It describes how the effect of the Copernican Revolution in the seventeenth century has steadily undermined the basic structure of the three great monotheistic religions of our day, Judaism, Christianity, and Islam, especially with respect to their eschatological concepts. The Eastern religions, being less anthropomorphic, are less affected. The theistic argument from design is shown to be powerful enough to have caused disagreement among present-day scientists, in spite of the strictures of Professor Dawkins. In general, the book attempts to make some sense of the

structure of the universe in terms of our own consciousness; it behoves the reader to consider tha

God's' Dog Jonathan Pageau,Matthieu Pageau,2022-11-15 Wander into the margins in this loose and epic exploration of the legend of Saint Christopher, the dog-headed warrior. God's' Dog marks a shift in storytelling, in which the end becomes the beginning and the monster carries the king into a new world. ...a striking, beautiful and intriguing piece of work: the kind of story we need more of in the world. Paul Kingsnorth Award winning author of The Wake and Beast

Likewar Peter Warren Singer,Emerson T. Brooking,2018 Social media has been weaponized, as state hackers and rogue terrorists have seized upon Twitter and Facebook to create chaos and destruction. This urgent report is required reading, from defense experts P.W. Singer and Emerson T. Brooking.

Tourism and Intangible Cultural Heritage World Tourism Organization,2012 The present UNWTO study provides the first comprehensive baseline research of the Organization on the links between tourism and intangible cultural heritage (ICH). Besides exploring major challenges, risks and opportunities for tourism development related to ICH, it further discusses practical steps for the elaboration, management and marketing of intangible cultural heritage-based tourism products.--Foreword.

Supercharge Your Brain James Goodwin,2022-01-04 The definitive guide to keeping your brain healthy for a long and lucid life, by one of the world's leading scientists in the field of brain health and ageing. The brain is our most vital and complex organ. It controls and coordinates our actions, thoughts and interactions with the world around us. It is the source of personality, of our sense of self, and it shapes every aspect of our human experience. Yet most of us know precious little about how our brains actually work, or what we can do to optimise their performance. Whilst cognitive decline is the biggest long-term health worry for many of us, practical knowledge of how to look after our brain is thin on the ground. In this ground-breaking new book, leading expert Professor James Goodwin explains how simple strategies concerning exercise, diet, social life, and sleep can transform your brain health paradigm, and shows how you can keep your brain youthful and stay sharp across your life. Combining the latest scientific research with insightful storytelling and practical advice, Supercharge Your Brain reveals everything you need to know about how your brain functions, and what you can do to keep it in peak condition.

Share Attack Malcolm Stacey,2015-08-03 80 must-read tips and techniques to get you started in trading Trading shares can make you rich - but it's not risk-free. You need years of experience to navigate the dangers and seize the best opportunities at the right time. Malcolm Stacey has done the hard work for you: he's learned how to be successful through years of his own experience and countless conversations with top traders. Now he's ready to share this knowledge and give you a head start. Probably Britain's best-known shares blogger, Malcolm has traded from his armchair for nearly 30 years. He's gone through it all, from frothy bull market bubbles to crunching crashes. As a BBC business reporter, he interviewed some of the most successful share traders in the world who revealed to him their top-secret strategies and tips. He's also spoken to countless business leaders to learn what makes a good company - the kind you want to be backing. In Share Attack, he distils all of this into 80 vital trading tips and techniques that you can put into practice right now. Filled with insight and experience, Share Attack is a trading book with teeth - a fascinating beginner's guide for those who want to start trading more actively. It's fast-moving and entertaining - and packed with years of techniques, tricks and red flags. You'll learn from Malcolm's early mistakes and benefit from his successes. Malcolm can't guarantee to make you rich by trading shares, but you can give yourself a much-needed edge by learning the top secrets of those who've done it all before. It's time for the Share Attack!

<u>Paul Kossoff: All Right Now</u> J. P. James,2017-11-02 Affectionately known as 'Koss', Paul Kossoff's playing touched people. It still does today, more than forty years after his sad and untimely death at the age of twenty-five. This authorised biography pays fitting tribute to a much-loved and widely admired musician whose influence and inspiration is still very evident. It's all here: Kossoff's musical childhood, his formative years with Black Cat Bones, forming Free at seventeen, that group's dizzying success, breakup, reforming and dissolution, the solo years, Back Street Crawler - the sessions, the tours and big concerts, the triumphs, the tragedies and the heartbreak - J.P. James takes the reader right there. Over four distinct sections, Kossoff's many guitars and the equipment he used to make them sing are fully documented; a brand-new detailed analysis of Kossoff's distinctive playing style and technique is presented for the first time; a broad overview of Kossoff's creative life draws on the voices of family, friends and fellow musicians; and finally, Kossoff's musical influences, approach to playing and his wider musical interests, hopes and dreams are explored - all drawn from his own words. Cramming so much into his short years, Paul Kossoff left a rich musical legacy, and he is indeed All Right Now. Thoroughly researched and sensitively written, given often in Kossoff's own words and packed with anecdotes from those who were there, musicians and fans alike will enjoy this authoritative and comprehensive biography.

Urban Informatics Wenzhong Shi,Michael F. Goodchild,Michael Batty,Mei-Po Kwan,Anshu Zhang,2021-04-06 This open access book is the first to systematically introduce the principles of urban informatics and its application to every aspect of the city that involves its functioning, control, management, and future planning. It introduces new models and tools being developed to understand and implement these technologies that enable cities to function more efficiently – to become 'smart' and 'sustainable'. The smart city has quickly emerged as computers have become ever smaller to the point where they can be embedded into the very fabric of the city, as well as being central to new ways in which the population can communicate and act. When cities are wired in this way, they have the potential to become sentient and responsive, generating massive streams of 'big' data in real time as well as providing immense opportunities for extracting new forms of urban data through crowdsourcing. This book offers a comprehensive review of the methods that form the core of urban informatics from various kinds of urban remote sensing to new approaches to machine learning and statistical modelling. It provides a detailed technical introduction to the wide array of tools information scientists need to develop the key urban analytics that are fundamental to learning about the smart city, and it outlines ways in which these tools can be used to inform design and policy so that cities can become more efficient with a greater concern for environment and equity.

The Great Big Treasury of Beatrix Potter Beatrix Potter,2017-07-12 The treasury starts out with the infamous Peter Rabbit, who trespasses in Mr McGregor's garden and gets his pants caught in the fence on the way out. For years, children have felt a stab of sympathy as Peter, punished by his mama, watches his brothers and sisters enjoy dinner without him. Children are also delighted by Two Bad Mice, naughty mice who wreak havoc in poor Jane's room. Other classic Potter characters make their appearance in the treasury as well, including Benjamin Bunny, Mr Jeremy Fisher, Jemima PuddleDuck, and Mrs Tittlemouse Contains: The tale of Peter Rabbit -- The tailor of Gloucester -- The tale of Squirrel Nutkin -- The tale of Benjamin Bunny -- The tale two bad mice -- The tale of Mrs. Tiggy-Winkle -- The pie and the patty-pan -- The tale of Mr. Jeremy Fisher -- The story of a fierce bad rabbit -- The story of Miss Moppet -- The tale of Tom Kitten -- The tale of Jemima Puddle-Duck -- The roly-poly pudding -- The tale of the Flopsy bunnies -- The tale of Mrs. Tittlemouse...

place brands, and how digital strategies shape how visitors appreciate heritage sites.

The Cult of the Amateur Andrew Keen,2007 In a hard-hitting and provocative polemic, Silicon Valley insider Keen exposes the grave consequences of todays new participatory Web 2.0. He reveals how amateur, user-generated free content threatens the very innovation and creativity that forms the fabric of American achievement.

Hungarian-German Dictionary with CD-ROM Akademiai Kiado,2006-09 These new small-sized dictionaries each contain 30,000 entries and more than 160,000 lexical units. With an up-to-date vocabulary, these dictionaries are helpful in active sentence construction, providing practical usage for language learning. Not only do the dictionaries assist beginning and advanced learners, but they will also be essential for travellers. With an easy-to-use and clear structure designed for a broader audience, each comes with a companion CD-ROM containing the complete contents of the dictionary.

The Culture of Connectivity José van Dijck,2013-03-21 The first critical history of social media.

The Education of a College President James Rhyne Killian,1985 The Education of a College President is a personal account of the author's association with M.I.T. for sixty years as student, editor, and administrative officer, including his service as President from 1948 to 1959, and as Chairman of the Corporation. Interwoven with this account of an unusual career at one of the world's leading science-based universities is the story of Killian's excursions into the public sector as the nation's first full-time presidential science adviser, when NASA and our national space program were created and Eisenhower began initial efforts to ban atmospheric nuclear tests and to encourage disarmament. Attention is also paid to his role as the father of public television. In his memoir, Killian shows how M.I.T. grew from an engineering school offering technical courses to undergraduates into a research university of a unique kind, with a new focus on developing better links between the two cultures of science and the humanities. He provides an inside report on the major events and policies of his administration: the establishment of a School of Humanities and Social Science, the rationale for the later formation of a School of Management; and many improvements in the Institute's environment. Following his student days at M.I.T., Killian joined the staff and later became editor of the institute's alumni journal, Technology Review. In 1939 he became President Karl T. Compton's Executive Assistant. He became Vice President of the Institute in 1943, President in 1948, and Chairman of the Corporation in 1959. James R. Killian has received numerous awards, including the Public Welfare Medal of the National Academy of Sciences, the first Vannevar Bush Award ofthe National Science Board, the Hoover Medal, one earned degree (S.B.) and thirty-nine honorary degrees. He is the author of Sputnik, Scientists, and Eisenhower and coauthor (with Harold E. Edgerton) of Moments of Vision, both published by The MIT Press.
