North Carolina Triad Beer Richard Cox,David Gwynn,Erin Lawrimore,2021-07-19 Now centered on Greensboro, Winston-Salem and High Point, the Triad was home to one of North Carolina's earliest brewery operations in the Moravian community of Bethabara. Easy access by rail and then highways attracted national breweries, and starting in the 1960s, the region began producing beer for companies like Miller and Schlitz. The passage of the Pop the Cap legislation led to an explosion of craft beer and brewpubs, and in 2019, three of the top five producing craft breweries in North Carolina were anchored in the area. Local beer historians Richard Cox, David Gwynn and Erin Lawrimore narrate the history of the Triad brewing industry, from early Moravian communities to the operators of nineteenth-century saloons and from Big Beer factories to modern craft breweries.

Showroom City John Joe Schlichtman,2022-06-07 A unique and engaging account of local urban decision-making within the globalizing world High Point, North Carolina, is known as the "Furniture Capital of the World." Once a manufacturing stronghold, most of its furniture factories have closed over the past forty years, with production shipped off to low-wage countries. Yet as manufacturing left, the city tightened its hold on a biannual global exposition that serves as the world's furniture fashion runway. At the High Point Market, visitors from more than one hundred nations traverse twelve million square feet of meticulous design. Downtown buildings—once courthouses, movie theaters, post offices, and gas stations—are now chic showroom spaces, even as many sit empty between each exposition. In Showroom City, John Joe Schlichtman applies an ethnographic lens to the global exposition's relationship with High Point after it defeated rival Chicago in the 1960s and established itself as the world's dominant furniture center. In recent decades, following trends in global finance, private equity firms were increasingly behind downtown High Point's real estate transactions, coordinated by buyers far removed from the region. Then, in one massive transaction in 2011, a firm funded by Bain Capital purchased every major showroom building, and the majority of downtown real estate was under one owner. Showroom City is a story of exclusionary growth and unchecked development, of a city flailing to fill the void left by its dwindling factories. But beyond that Schlichtman engages the general lessons behind both High Point's deindustrialization and its stunning reinvention as a furniture fashion, merchandising, and design node. With great nuance, he delves deeply to reveal how power operates locally and how citizens may affirm, exploit, influence, and resist the takeover of their community.

A Profile of the Textile Manufacturing Industry Erin D. Parrish,2016-06-17 The textile manufacturing industry (NAICS 313) has played an important role in the history of the United States and continues to be a major industrial employer, not only in the US, but also around the world. Textiles are mainly considered a component part of the supply chain, with end uses ranging from apparel to home textiles to industrial goods to medical textiles. Even though apparel is the largest end use of textiles and has increasingly moved offshore to low-cost labor countries, there remains a growing textile manufacturing industry in the US for capital and technology-intensive products, such as nonwovens and those with military end uses.

Equity, Growth, and Community Chris Benner,Manuel Pastor,2015-10-09 In the last several years, much has been written about growing economic challenges, increasing income inequality, and political polarization in the United States. Addressing these new realities in America's metropolitan regions, this book argues that a few lessons are emerging: first, inequity is bad for economic growth; second, bringing together the concerns of equity and growth requires concerted local action; and third, the fundamental building block for doing this is the creation of diverse and dynamic epistemic (or knowledge) communities, which help to overcome political polarization and to address the challenges of economic restructuring and social divides. "As America bolts toward a more multiracial future in the face of skyrocketing inequality, local leaders are desperately seeking strategies to foster more inclusive growth. Chris Benner and Manuel Pastor's research uncovers a critical ingredient of success: diverse regional leaders coming together to build a foundation of shared knowledge and advance positive change." -- ANGELA GLOVER BLACKWELL, Founder and CEO, PolicyLink CHRIS BENNER is the

Sawdust in Your Pockets Eric Medlin, 2023-10-15 During the twentieth century, three industries—tobacco, textiles, and furniture—dominated the economy of North Carolina. The first two are well known and documented, being the subject of numerous books, movies, and articles. In contrast, the furniture industry has been mostly ignored by historians, although, at its height, it was nearly as large and influential as these other two concerns. Furniture companies employed thousands of workers and shaped towns, culture, and local life from Hickory to Goldsboro. *Sawdust in Your Pockets: A History of the North Carolina Furniture Industry* is the first survey of the state's furniture industry from its cabinetmaking beginnings to its digital present. Historian Eric Medlin shows how the industry transitioned from high-quality, individual pieces to the affordable, mass-produced furniture of High Point and Thomasville factories in the late nineteenth century. He then traces the rise of the industry to its midcentury peak, when North Carolina became the largest furniture-producing state in the country. Medlin discusses how competition, consolidation, and globalization challenged the furniture industry in the late twentieth century and how its businesses, workers, and professionals have adapted and evolved to this day.

Barefoot to Benefactor Lenny Peters M.D., 2021-09-14 When Lenny Peters was a boy playing marbles among the lush mangrove trees in impoverished India, he had one overriding wish: to be the best at everything he did. Born into a Christian family and part of a minority population in that part of the world, Lenny was innately aware of the hurdles he faced. Wise beyond his years, Lenny embraced a simple philosophy: hard work and prayer. He could never have imagined how far his faith and his drive for excellence would take him, nor how much good he would do along the way. In *Barefoot to Benefactor*, Lenny tells the uplifting story of how the youngest son from Kerala, India, worked his way into medical school, propelled himself to London, and settled in North Carolina as an accomplished physician. Not satisfied with providing standard medical care, Lenny became a world-class researcher and founded the Bethany Medical Centers, a revolutionary network that treats anyone who walks through its doors with the best that medicine can offer. Wonders followed Lenny as faith determined his path. He turned a community college course in personal finance into a vast real estate empire and thriving medical practice. His fascination with business led him not only to establish much-needed health and research facilities, but to establish a bank for underserved communities that now operates in four states. Through it all, he battled the prejudice he encountered as a professional man of color with a "funny accent," turning every hardship into opportunity and learning that forgiveness and acceptance bestow grace. Most importantly, Lenny has never forgotten his roots. The Lenny Peters Foundation shares his abundance with the less fortunate, both here and in India. His story of trailblazing in medicine, finance, and philanthropy is proof that miracles come to those who have faith—in God and in themselves.

North Carolina beyond the Connected Age Michael L. Walden, 2017-08-31 For years, North Carolina has been one of the nation's fastest-growing states, bringing tremendous change to the state's people, industries, jobs, places, environment, and government. Much of this change resulted

from the information and technology revolution, which connected the state more fully to the country and the world. But we are now moving beyond the connected age, argues Michael L. Walden, to a new era of living, production, and work, and North Carolina faces not only unanswered questions about the past but also new challenges and opportunities visible on the horizon. What will these new transformations mean for the state's people, places, and prosperity? In this book, Walden lays out these looming economic issues and offers predictions of future trends as well as multiple policy options for taxation, infrastructure, and environmental issues. While the future cannot be perfectly predicted, Walden's expert analysis is mandatory reading for policy makers, business leaders, and everyday people seeking to prepare for upcoming changes in North Carolina's economy.

Sport in the Americas Mark Dyreson, 2019-12-18 Statues of fans as nostalgic monuments to the North American devotion to baseball, Canadian lacrosse and ethnic ideologies, the rise of modern sports and class sensibilities in São Paulo, the inaugural world championship for women's hockey, and national memories of Olympic Games hosted on US soil. What do these seemingly disparate themes have in common? They each comprise a facet of sporting experiences in the western hemisphere that took place between the 1890s and the 1990s. This collection offers new insights on the role of sport in defining local, regional, national, and international cultures in the western hemisphere. The essays offer historical perspectives on the power of sport to create common ground in modern societies while simultaneously exploring how it serves to mark cultural boundaries and reinforce cultural identities. From national pastimes to ethnic traditions, from class sensibilities to racial ideologies, *Sport in the Americas* presents novel contributions that examine both the singular and manifold patterns of culture that sport animates. The chapters in this book were originally published as a special issue in *The International Journal of the History of Sport*.

No Bad Days JT Jester, 2022-03-08 In *No Bad Days*, JT Jester shares his against-all-odds story of overcoming countless physical and learning challenges to help others find joy in any circumstance and understand that there are no bad days—only hard ones. By the time JT Jester was three years old, he had spent 250 days in the hospital, and he endured sixteen major surgeries before he was sixteen. Diagnosed with VATER/VACTERL Syndrome, a rare combination of several birth defects. JT's life was anything but easy. On top of his physical challenges, he suffered dyslexia and short-term memory loss, which made learning nearly impossible for him. Yet JT pushed past his physical and educational roadblocks to achieve what many people told him he would never do—learn to read, graduate from high school, attend college, and become a successful motivational speaker, influential podcast host, and bestselling author. In *No Bad Days*, JT details the incredible story of how he overcame what seemed like insurmountable odds and shares the many invaluable lessons he has learned throughout his life in the hope that others might reach their full potential. These lessons include how to: Find Your Tribe, Pull Off the Label, Stretch Yourself, Listen to Others, and Learn to Fall. JT's improbable life story is evidence that regardless of the mental and physical challenges you might face, you can defy the odds to create the life you want and accomplish the things you've only dreamed about. His remarkable journey is all the proof you need. Through his story, and the inspiring stories of others, JT Jester shows readers how to find joy in any circumstance and proves that there are really no bad days—only hard ones.

The Faces of Poverty in North Carolina Gene R. Nichol,2021-11-01 More than 1.5 million North Carolinians today live in poverty. More than one in five are children. Behind these sobering statistics are the faces of our fellow citizens. This book tells their stories. Since 2012, Gene R. Nichol has traveled the length of North Carolina, conducting hundreds of interviews with poor people and those working to alleviate the worst of their circumstances. In an afterword to this new edition, Nichol draws on fresh data and interviews with those whose voices challenge all of us to see what is too often invisible, to look past partisan divides and preconceived notions, and to seek change. Only with a full commitment as a society, Nichol argues, will we succeed in truly ending poverty, which he calls our greatest challenge.

Leadership Theories and Case Studies Garry Wade McGiboney,2018-07-27 Effective leadership does not occur by chance. Leaders must be trained and groomed for the daunting responsibility of leading organizations. Research shows that half of the people currently in leadership positions will fail. Why they fail and what can be done to prevent failure are the main subjects of this book. It shows that effective leadership is possible and illustrates why and how, based on research and case studies from an epidemiological perspective. The epidemiological word “determinant” is used frequently, and is a word that no other book on leadership uses. Epidemiologists work from two basic principles: namely, that all diseases have determinants and that diseases do not occur randomly. In other words, there are always causes for diseases and patterns that describe how diseases spread. Effective and ineffective leadership always have determinants that are not randomly distributed; the impacts are uniformly and deeply spread throughout an organization. Like the epidemiologists, this book not only identifies leadership determinants, but also provides research-based “antidotes” at the end of each chapter, along with a summary of the most salient points in the chapter. This book offers examples of leadership and governance from the non-profit sector, businesses, public and private education, higher education, and other organizations, highlighting over 50 case studies to illustrate concepts about leadership.
