**English Language Teaching: Issues and Challenges** S. Udhayakumar, K. Vellaichamy, English, as a global language, plays a vital role in every one's life. Students think that English language opens the door of the world for their future life. But as an alien language, the learners find it very difficult to understand the language. Not only to understand but to read, write and speak. A social language may be learnt quickly as there are many chances to encounter with public people who speak this as their mother tongue or a community language. But English is not a social language so all learners face difficulty. This difficulty may be eased out by adopting different methodology for learning English language. This could be possible only for educational institutions. In India and non English speaking countries, English could be learnt only in schools, colleges and Universities. So it is very important that methodology for English teaching should be often checked and updated. Earlier chalk and talk method was adopted. In due course, it underwent many changes and it, now has become student centric and the teacher has become a facilitator for the students in teaching learning process. The classroom, once a four wall room with a single board and small chalk piece, has now become a smart classroom with white smart board and an electronic pen stick. Even an LKG classroom is connected to the world and with one click the whole world comes into the classroom through internet services and displayed on the white board. If Shakespeare is taught, his manuscript of the text is displayed and his life is shown as a video film. If the Universe is taught to the students, the video of the Universe is shown and the real scientists are explaining the doubts of the students and they chat with the learners. As we are living in such a modern and advanced period, teaching methodology for English teaching should be updated to meet the challenges of today's world. Education is the only way for the humanity to live happily and peacefully. Education connects the whole world for the benefit of the human race which is not possible for animal beings and other creatures also. In this process, English language plays a crucial role and an edition of book chapters may benefit the student and teaching community to update the teaching methodology of English language. So, this edition is brought to fulfill the need of the current society.

**Technology and Social Transformations in Hospitality, Tourism and Gastronomy** Savita Sharma, Shivam Bhartiya, 2023-04-27 This book explores the relationship between technology and social transformation in tourism, hospitality and gastronomy. It presents research and case studies, elaborating on benchmark practices adopted by tourism and hospitality professionals. In recent years, technology has transformed the tourism and hospitality industry; the chapters in this book cover areas such as guest experience and service quality, as well as operational areas such as housekeeping and waste management. With contributions from academics, entrepreneurs, destination managers and government officials from the South Asia region, this book offers a real insight in to these areas of growing interest and provide a useful resource for those researching and studying within the areas of tourism development and hospitality.

*Grammar, Meaning, and Concepts* Susan Strauss, Parastou Feiz, Xuehua Xiang, 2018-05-11 *Grammar, Meaning, and Concepts: A Discourse-Based Approach to English Grammar* is a book for language teachers and learners that focuses on the meanings of grammatical constructions within discourse, rather than on language as structure governed by rigid rules. This text emphasizes the ways in which users of language construct meaning, express viewpoints, and depict imageries using the conceptual, meaning-filled categories that underlie all of grammar. Written by a team of authors with years of experience teaching grammar to future teachers of English, this book puts grammar in the context of real language and illustrates grammar in use through an abundance of authentic data examples. Each chapter also provides a variety of activities that focus on grammar, genre, discourse, and meaning, which can be used as they are or can be adapted for classroom practice. The activities are also designed to raise awareness about discourse, grammar, and meaning in all facets of everyday life, and can be used as springboards for upper

high school, undergraduate, and graduate level research projects and inquiry-based grammatical analysis. Grammar, Meaning, and Concepts is an ideal textbook for those in the areas of teacher education, discourse analysis, applied linguistics, second language teaching, ESL, EFL, and communications who are looking to teach and learn grammar from a dynamic perspective.

**Learning AirWatch** Mark Dunkerley, 2015-03-31 If you are a technical professional who wants to dive deeper into the functionality offered by AirWatch or manage the solution, then this book will help you choose the best set of configuration, device management, and monitoring options that you can use to effectively manage your EMM implementation.

**Recent Developments in Technology-Enhanced and Computer-Assisted Language Learning** Zou, Bin, Thomas, Michael, 2019-12-06 The pace at which technology changes has created unique challenges in the integration of such technologies into language teaching and learning. Innovative pedagogies and strategies must be developed that adapt to these changes and accommodate future technological changes. Recent Developments in Technology-Enhanced and Computer-Assisted Language Learning is an essential research publication that focuses on technological influences on language education and applications of technology in language learning courses including foreign and second language learning. Featuring an array of topics such as artificial intelligence, teacher preparation, and distance learning, this book is ideal for teachers, language instructors, IT specialists, instructional designers, curriculum developers, researchers, education professionals, academicians, administrators, practitioners, and students.

**Historical Development of English Learning Motivation Research** Tae-Young Kim, 2021-09-07 This book clarifies the fundamental difference between North America-based instrumental motivation and Korea (and East Asia)-specific competitive motivation by which the EFL learners' excessive competition to be admitted to famous universities and to be hired at a large-scale conglomerate is the main source of L2 motivation. It enables readers to understand that EFL-learning motivation reflects unique sociohistorical contexts grounded in a specific region or country. This book in turn necessitates the need to develop EFL motivation theory and research tradition which are firmly based on East Asian values and culture. □

**Issues in the Multilingual Information Processing of Spoken Political and Journalistic Texts** Christina Alexandris, 2020-01-21 From television screens to mobile phones, spoken political and journalistic texts in the media are accessible to recipients of almost any kind, including the international public. These texts constitute a remarkable source of empirical data for human behaviour and for linguistic phenomena, but pose significant challenges in terms of their evaluation, processing and translation due to a set of distinctive characteristics. This volume presents and describes a number of features of spoken political and journalistic texts, and proposes strategies for their correct and efficient analysis and processing both by human evaluators and by Natural Language Processing applications. The book also discusses the accessibility of "complex" information content and transfer for an international audience, as well as the visibility of the speaker's attitude and intentions.

**Digital First** Kewyn Walter George, A M S Pandian, Dr. Aditi Mukhopadhyay, 2017-03-14 The book is a guide to Digitalization for novices and pros alike. Let us outline to you the digital frameworks you could adopt to stay as well move ahead in the competition. Enjoy the ride.

**The Canada Trip** Charles Gordon, 2013-07-30 It started out as a simple idea: Charles Gordon and his wife, Nancy, drive across Canada. Starting from Ottawa they drove east through Quebec, through New Brunswick, P.E.I., Nova Scotia, and Newfoundland, where they learned about "soap for the moose." From St. John's they headed west on a different route through the Maritimes to Montreal, Toronto, and Lake of the Woods (scene of the famous cottage in At the Cottage). Then it was west along what used to be called the CPR route, all the way to Vancouver and Victoria. Then, via Prince Rupert, they followed the Yellowhead Trail back through Edmonton and Saskatoon, hitting Flin Flon and Northern Ontario on the way home. Ranging from moose to chipmunks, from a cool jazz festival to even cooler icebergs, and from the Prestige Motel to the Chateau Lake Louise, this book is a highly personal look at a country well worth visiting, witty and affectionate, a fact that its own citizens tend to overlook. As Charles Gordon, the perfect companion, puts it in his final paragraph, "What does Canada need, you ask, to enter the twenty-first century? More passing lanes. More ferries. Reading lamps on both sides of the bed. Bridges you can see off. More animals beside the road. And more Canadians."
