Dame Traveler Nastasia Yakoub, 2020-03-03 A breathtaking celebration of Instagram's premier solo female travel community, featuring 200 striking photographs—most of them all-new—plus empowering messages and practical tips for solo travelers. “For those with passports full of stories, this book carries you away to every dreamy corner of the earth. I can’t stop flipping through these visually incandescent pages to see where I’m capable of traveling to next!”—Caila Quinn, The Bachelor contestant and lifestyle and travel influencer From backpackers in Peru to artists in Berlin to storytellers in Morocco, *Dame Traveler* celebrates the diversity and bravery of women from around the world who are not afraid to think (and live) outside the box. The revolutionary *Dame Traveler* Instagram account was founded by Nastasia Yakoub, who was born into a strict Chaldean-Middle Eastern community where women are expected to marry young and put aside other personal ambitions. But at the age of twenty, Nastasia embarked on a solo trip to South Africa to volunteer at an orphanage in Cape Town, which sparked a love of world travel. Recognizing a void in the travel industry, she founded *Dame Traveler*, the first female travel community on Instagram, now more than half a million strong. Nastasia herself has traveled to sixty-three countries on solo adventures, sharing colorful photos of her tantalizing travels along the way. *Dame Traveler* celebrates these women with a photographic collection of 200 stunning images paired with inspiring captions, 80% of which have never been seen on the Instagram account. Organized into sections on architecture, culture, nature, and water, each entry features travel information, plus tips, advice, unique solo-travel experiences, and wisdom from contributing globe-trotters to embolden the next generation of *Dame Travelers*.

A Trip of One's Own Kate Wills, 2022-05-03 A travel story is the best story of them all... Travel journalist Kate Wills wasn't expecting to be divorced after less than a year of marriage, or to be forced to restart a life that had seemed so stable for so long. Luckily, her job as a writer offered her the perfect opportunity to escape from it all. But this time, with no deadlines to hit or all-expenses-paid trips to absorb in a few days before churning out copy for a travel magazine, her jet-setting felt different. There were no photographers working alongside her or assistants booking her flights. For the first time ever, Kate was traveling alone. Feeling unexpectedly out of her element, Kate began to scour history for stories of female travelers to inspire her. From a 4th-century nun to a globe-circling cyclist, Kate discovered that there have always been astonishing women who have broken free from society's expectations, clearing the path for many of us to do the same. Funny, heartfelt, and guaranteed to spark wanderlust, *A Trip of One's Own* is the perfect armchair travel read to inspire you to jump in the car or hop on a plane to explore the world. This book is the must-have next read for any aspiring solo female traveler!

Advances in Information Technology Borworn Papasratorn,Kittichai Lavangnananda,Wichian Chutimaskul,Vajirasak Vanijja,2010-10-19 It was our intention to organize IAIT 2010 as the place where researchers and industrial practitioners could share their work and achievements in information technology, both theoretical and in application. This is the fourth time we have organized IAIT to serve as a venue to foster collaboration among industry and academia from different parts of the world. A lot has been achieved since the launch of the first IAIT in 2005; however, many challenges remain to be addressed in the years to come. IAIT 2010 drew attendance from leading professionals in both industry and academes, as in IAIT 2009. In addition to the relevant program offered by IAIT 2010, the conference provided an excellent environment to meet peers in the IT profession, build relationships, and exchange lessons learned. During the conference, participants presented and discussed the latest topics in information technology, ranging from technical knowledge and experimentation to future strategic directions. As the Internet continues to reach out even further, almost everything in our daily life is accessible via IP addresses, our societies need to recognize that we need new knowledge to make this advancement become a benefit to all life in this world. It is almost impossible to gain this new knowledge without contributions from our colleagues, working in various aspects of information technology. Some times, new knowledge found in one area can help simplify difficult task in another. Together we can make our world better by creating applications from information technology.
