Absolutely Almost Lisa Graff, 2015-05-05 From the author of the National Book Award nominee *A TANGLE OF KNOTS* comes an inspiring novel about figuring out who you are and doing what you love. Albie has never been the smartest kid in his class. He has never been the tallest. Or the best at gym. Or the greatest artist. Or the most musical. In fact, Albie has a long list of the things he's not very good at. But then Albie gets a new babysitter, Calista, who helps him figure out all of the things he is good at and how he can take pride in himself. A perfect companion to Lisa Graff's National Book Award-nominated *A Tangle of Knots*, this novel explores a similar theme in a realistic contemporary world where kids will easily be able to relate their own struggles to Albie's. Great for fans of Rebecca Stead's *Liar and Spy*, RJ Palacio's *Wonder* and Cynthia Lord's *Rules*. Praise for Lisa Graff's novels *Tangle of Knots* (nominated for a National Book Award) \* Combining the literary sensibility of E. B. White with the insouciance of Louis Sachar, Graff has written a tangle that should satisfy readers for years to come.--Booklist, starred review *Double Dog Dare* Graff's...story is lighthearted and humorous, but honestly addresses the emotions associated with divorce. Her characters' voices, interactions, and hangups are relatable, as they battle each other and adjust to their families' reconfigurations.--Publishers Weekly

**Yemen on the Brink** Christopher Boucek, Marina Ottaway, 2010-08 Yemen is facing a unique confluence of crises. A civil war in the North, a secessionist movement in the South, and a resurgence of al Qaeda are unfolding against the background of economic collapse, insufficient state capacity, and governance and corruption issues. The security challenges are the most important in the short run, because economic and governance issues cannot be addressed without a minimum of stability. This volume brings together analyses of the critical problems that have dragged Yemen close to state failure. It provides an assessment of Yemen's major security challenges by recognized experts, and it broadens the discussion of the tools available to the international community to pull Yemen back from the brink. Separate chapters examine the resurgence of al Qaeda in the Arabian Peninsula, the complex relationship between al Qaeda and the Yemini tribes, the Southern secessionist movement, and the civil war in Saada. Contents include • Yemen: Avoiding a Downward Spiral • What Comes Next in Yemen? Al-Qaeda, the Tribes, and State-Building • The Political Challenge of Yemen's Southern Movement • War in Saada: From Local Insurrection to National Challenge • Instrumentalizing Grievances: Al-Qaeda in the Arabian Peninsula Contributors include Sarah Phillips (Centre for International Security Studies, University of Sydney), Stephen Day (Rollins College), and Alistair Harris (RUSI and former diplomat and UN staff member).

**A Tangle of Knots** Lisa Graff, 2013-02-05 A

National Book Award nominee! The magic of Savvy meets the complexity of When You Reach Me in this blithe magical puzzle, --The Wall Street Journal Told in multiple viewpoints, A Tangle of Knots is a magnificent puzzle. In a slightly magical world where everyone has a Talent, eleven-year-old Cady is an orphan with a phenomenal Talent for cake baking. But little does she know that fate has set her on a journey from the moment she was born. And her destiny leads her to a mysterious address that houses a lost luggage emporium, an old recipe, a family of children searching for their own Talents, and a Talent Thief who will alter her life forever. However, these encounters hold the key to Cady's past and how she became an orphan. If she's lucky, fate may reunite her with her long-lost parent. Lisa Graff adds a pinch of magic to a sharply crafted plot to create a novel that will have readers wondering about fate and the way we're all connected.

Clash of Civilizations Over an Elevator in Piazza Vittorio Amara Lakhous, 2008-09-30 The immigrant tenants of a building in Rome offer skewed accounts of a murder in this prize-winning satire by the Algerian-born Italian author (Publishers Weekly). Piazza Vittorio is home to a polyglot community of immigrants who have come to Rome from all over the world. But when a tenant is murdered in the building's elevator, the delicate balance is thrown into disarray. As each of the victim's neighbors is questioned by the police, readers are offered an all-access pass into the most colorful neighborhood in contemporary Rome. With language as colorful as the neighborhood it

describes, each character takes his or her turn “giving evidence.” Their various stories reveal much about the drama of racial identity and the anxieties of a life spent on society’s margins, but also bring to life the hilarious imbroglios of this melting pot Italian culture. “Their frequently wild testimony teases out intriguing psychological and social insight alongside a playful whodunit plot.” –Publishers Weekly

*Media and gender: a scholarly agenda for the Global Alliance on Media and Gender*

UNESCO, International Association for Media and Communication Research, 2014-12-31 Subject: UNESCO, the International Association for Media and Communication Research (IAMCR), and members of the Global Alliance on Media and Gender (GAMAG) have partnered to publish scholarly research agenda for GAMAG. The publication addresses both knowledge and actions linked to gender and media issues. It analyses existing research findings and their links to policies, foregrounds existing research gaps, and recommends research and policy actions to be taken by the Global Alliance on Media and Gender and other stakeholders globally. It covers a range of concerns highlighting major themes including violence against women; women in leadership/decision making of media; gender and media policies and strategies; journalism education, and media and information literacy

**Corporate Governance and Risk Management in Financial Institutions** Robert C.

Gericke, 2018-03-27 This book presents an overview of corporate governance and risk management,

analyzing their interdependence and particularly their relevance in banking. It discusses current trends in corporate governance, such as stakeholder management, financial performance and the cost of equity, compensation schemes, board structures and shareholder activism. Further, it reviews some of the most important regulatory changes introduced since the latest financial crisis and highlights their impact on the annual reports of the banks under analysis. Lastly, the book assesses and compares major banks in Brazil and Germany with special emphasis on the aspects mentioned above, revealing surprising similarities between the banking systems of these otherwise disparate countries.

Seeing Yourself Through God's Eyes June Hunt, 2015-08-01 Do you know who you are? Even more importantly, do you know Whose you are? Christians often look at their lives through natural eyes and see themselves as lonely, depressed, unacceptable to God, unable to be who they really want to be. But a Christian who looks at him or herself through God's eyes sees someone quite different. In this encouraging book, bestselling author June Hunt helps you change your focus as you look in the mirror of God's Word. The reflection she urges you to see includes you as: a child of God chosen by God reconciled to God created to do good works for Christ secure in the love of God These are just five of the wonderful aspects of you as seen through the eyes of God. In this life-changing 31-day devotional, you'll find riches in your own life you never knew you possessed.

**Tyrell** Coe Booth, 2010-02-01 An astonishing new voice in teen literature, writing what is sure to be one of the most talked-about debuts of the year. Tyrell is a young African-American teen who can't get a break. He's living (for now) with his spaced-out mother and little brother in a homeless shelter. His father's in jail. His girlfriend supports him, but he doesn't feel good enough for

her -- and seems to be always on the verge of doing the wrong thing around her. There's another girl at the homeless shelter who is also after him, although the desires there are complicated. Tyrell feels he needs to score some money to make things better. Will he end up following in his father's footsteps?

*Overtourism* Claudio Milano, Joseph M Cheer, Marina Novelli, 2019-06-07 This book examines the evolution of the phenomenon and explores the genesis of overtourism and the system dynamics underlining it. The 'overtourism' phenomenon is defined as the excessive growth of visitors leading to overcrowding and the consequential suffering of residents, due to temporary and often seasonal tourism peaks, that lead to permanent changes in lifestyles, amenities and well-being. Enormous tensions in overtourism affected destinations have driven the intensification of policy making and scholarly attention toward seeking antidotes to an issue that is considered paradoxical and problematic. Moving beyond the 'top 10 things you can do about overtourism', this book examines the evolution of the phenomenon and explores the genesis of overtourism as well as the system dynamics underpinning it. With a rigorous scientific approach, the book uses systems-thinking and contemporary paradigms around sustainable development, resilience planning and degrowth; while considering global economic, socio-political, environmental discourses. Researchers, analysts, policy makers and industry stakeholders working within tourism as well as those within the private sector, community groups,

civil society groups and NGOs will find this book an essential source of information.

The Greatest Show on Earth Richard

Dawkins, 2009-09-22 Richard Dawkins transformed our view of God in his blockbuster, *The God Delusion*, which sold millions of copies in English alone. He revolutionized the way we see natural selection in the seminal bestseller *The Selfish Gene*. Now, he launches a fierce counterattack against proponents of Intelligent Design in his New York Times bestseller, *The Greatest Show on Earth*.

Intelligent Design is being taught in our schools; educators are being asked to teach the controversy behind evolutionary theory. There is no controversy. Dawkins sifts through rich layers of scientific evidence—from living examples of natural selection to clues in the fossil record; from natural clocks that mark the vast epochs wherein evolution ran its course to the intricacies of developing embryos; from plate tectonics to molecular genetics—to make the airtight case that we find ourselves perched on one tiny twig in the midst of a blossoming and flourishing tree of life and it is no accident, but the direct consequence of evolution by non-random selection. His unjaded passion for the natural world turns what might have been a negative argument, exposing the absurdities of the creationist position, into a positive offering to the reader: nothing less than a master's vision of life, in all its splendor.
