Advanced Data Mining and Applications Changjie Tang,Charles X. Ling,Xiaofang Zhou,Nick Cercone,Xue Li,2008-09-30 The Fourth International Conference on Advanced Data Mining and Applications (ADMA 2008) will be held in Chengdu, China, followed by the last three successful ADMA conferences (2005 in Wu Han, 2006 in Xi'an, and 2007 Harbin). Our major goal of ADMA is to bring together the experts on data mining in the world, and to provide a leading international forum for the dissemination of original research results in data mining, including applications, algorithms, software and systems, and different disciplines with potential applications of data mining. This goal has been partially achieved in a very short time despite the young age of the conference, thanks to the rigorous review process insisted upon, the outstanding list of internationally renowned keynote speakers and the excellent program each year. ADMA is ranked higher than, or very similar to, other data mining conferences (such as PAKDD, PKDD, and SDM) in early 2008 by an independent source: cs-conference-ranking. org. This year we had the pleasure and honor to host illustrious keynote speakers. Our distinguished keynote speakers are Prof. Qiang Yang and Prof. Jiming Liu. Prof. Yang is a tenured Professor and postgraduate studies coordinator at Computer Science and Engineering Department of Hong Kong University of Science and Technology. He is also a member of AAAI, ACM, a senior member of the IEEE, and he is also an as- ciate editor for the IEEE TKDE and IEEE Intelligent Systems, KAIS and WI Journals.

Here I Am Johnny Emler,2023-10-27 Inspired by real events, Here I Am is a spirit-led story of true, unconditional love and faith. In the late '50s, when his parents abruptly went to prison, young Joey goes to live with his loving grandparents in Middle Tennessee. Motivated to earn his keep, Joey is eager to get to work and not afraid to get his hands dirty, like his Papa. Upon entering a new school, he meets the girl of his dreams and a circle of friends he bonds with over football, vowing to be friends forever. But as the Bible says, there is a season for everything. Life's obstacles, war, hardship, and a turn of events lead to contention and hard feelings, but God works in unusual ways. What the devil tears down, God builds back up in miraculous ways. Through faith and love, beauty can come from pain. This heartwarming journey through life will bring a roller coaster of laughter, tears, joy, and praise for our Lord and Savior, Jesus Christ. I truly hope this story is as much of a blessing for you to read as it was for me to write. --Johnny

Mergers of Teaching Hospitals in Boston, New York, and Northern California John A. Kastor, 2009-12-22 Investigates the conditions that have led some of the nation's top teaching hospitals to merge with each other. The three case studies in this book describe mergers among some of the nation's best known hospitals. In addition to citing published articles and books, the author also includes information obtained from numerous personal interviews with more than two hundred faculty members, administrators, trustees, and invested observers who shared their experiences with and knowledge of the mergers. Throughout the book, the author not only presents a picture of the events and conditions that have led to the recent drop in funding for teaching hospitals and why these mergers came about, but he also investigates how the organizations have fared since joining together. The mergers are analyzed and compared in order to identify various methods of merger formation as well as ways in which other newly formed hospitals might accomplish a variety of important goals.
