Feminist Phenomenology Linda Fisher,Lester Embree,2013-04-17 This volume is composed chiefly of papers first presented and discussed at the Research Symposium on Feminist Phenomenology held November 18-19, 1994 in Delray Beach, Florida. Those papers have been revised and expanded for publication in the present volume and several essays have been added. We would like to thank very much all the participants in the symposium, including the session chairs and others in attendance, whose interest and enthusiasm contributed greatly. The symposium and this volume, including the name for it, were conceived of by Lester Embree, who also arranged sponsorship, local arrangements, and publication through the William F. Dietrich Eminent Scholar Chair at Florida Atlantic University and the Center for Advanced Research in Phenomenology, Inc. The invitees were decided upon jointly. Linda Fisher has been chiefly responsible for the editing and the preparation of the camera-ready copy. Linda Fisher Lester Embree Acknowledgments The editing and preparation of this volume has spanned several cities and two continents and I am indebted to many people from each place.

Confessions of a Wall Street Analyst Dan Reingold,Jennifer Reingold,2009-10-13 Here is the true story of a top Wall Street player's transformation from a straight-arrow believer to a jaded cynic, who reveals how Wall Street's insider game is really played. Dan Reingold was a top Wall Street analyst for fourteen years and Salomon Smith Barney analyst Jack Grubman's chief competitor in the red-hot sector of telecom. Reingold was part of the Street and believed in it. But in this action-packed, highly personal memoir written with accomplished Fast Company senior writer Jennifer Reingold the author describes how his enthusiasm gave way to disgust as he learned how deeply corrupted Wall Street and much of corporate America had become during the roaring stock market bubble of the 1990s. Confessions of a Wall Street Analyst provides a front-row seat at one of the most dramatic -- and ultimately tragic -- periods in financial history. Reingold recounts his introduction to the world of Wall Street leaks and secret deal-making; his experiences with corporate fraud; and Wall Street's alarming penchant for lavish spending and multimillion-dollar pay packages. Reingold spars with arch rival Grubman; fends off intense pressures from Wall Street bankers and corporate CEOs; and is wooed by Morgan Stanley's CEO, John Mack, and CSFB's über-banker Frank Quattrone. Reingold describes instances in which confidential deals are whispered days before their official announcement. He recalls the moment he learns that Bernie Ebbers's WorldCom was massively cooking its books. And he is shocked to have been an unwitting catalyst for a series of sexually explicit e-mails that would rock Wall Street; bring Jack Grubman to his knees; and contribute to the stepping aside of Grubman's boss, Citigroup CEO Sandy Weill. Some of Reingold's stories are outrageous, others hilarious, and many are simply absurd. But, together, they provide a sobering exposé of Wall Street: a jungle of greed and ego, a place brimming with conflicts and inside information, and a business absurdly out of touch with the Main Street it claims to serve. He shows how government investigators, headlines notwithstanding, never got to the heart of the ethical and legal transgressions of the era. And how they completely overlooked Wall Street's pervasive use of inside information, leaving investors -- even sophisticated professionals -- cheated. The book ends with a series of important policy recommendations to clean up the investing business. In the tradition of Liar's Poker and Den of Thieves, Confessions of a Wall Street Analyst is a no-holds-barred insider's account that will open the eyes of every investor.

Human Security W.E. Blatz,1966-12-15 During his lifetime, W.E. Blatz was so much occupied with the development of the University of Toronto's Institute of Child Study that he was able to devote little time to writing. This is his first book to appear in twenty-one years, and his first complete exposition of his famous Theory of Security. The Theory of Security is radically different from the theories promulgated by Freudian psychologists. Whereas Freudian personality theory is based on the

notion of “unconscious,” an entity that is only indirectly observable, the Theory of Security derives from the observation of the conscious state in all its manifestations. Dr. Blatz thus makes use of both empirical observations and the results of introspection, and, as might be expected, some of his conclusions run counter to those reached in much current psychological discussion. But proof of the forcible influence of the theory and its author may be found in the impressive number of books and articles already published by Dr. Blatz’s associates at the Institute of Child Study, applying the theory to the practical problems of psychological observation and therapy. It is fitting that the man whose work has generated so much fruitful research by others in this field should at last have set down in book form the fundamental principles that guided them.

Boswell's Life of Johnson John A. Vance,2009-01-01 When it first appeared in 1985, Boswell's Life of Johnson brought together the most recent and most lively assessments of the literary merit and historical accuracy of Boswell's biography. In an invigorating exchange placed at the center of the collection, Donald Greene's description of the Life as a fictionalized biography that screens the real, complex Johnson from view is challenged by Frederick Pottle's defense of Boswell's biographical method, of his sturdy compilation of detail that presents the factual rather than the fictional Johnson. Other essays explore the effect of Johnson's humor on the shaping of his image in the Life, the recent developments in literary criticism and the effect they have had on eighteenth-century studies, and the continuing interest of Boswell's Life as a showcase for members of Johnson's famous circle. The volume concludes with an assessment of the Boswellian problem--of the difficulties the Life presents to readers, scholars, and teachers.
