Encyclopedia of Insurgency and Counterinsurgency Spencer C. Tucker, 2013-10-29 A fascinating look at the insurgencies and counterinsurgencies throughout history with a concentration on the 20th and 21st centuries. This encyclopedia examines insurgencies—and the counterinsurgency efforts they prompt—through history, addressing military actions and the techniques and technologies employed in each conflict, significant insurgency leaders, and the leading theorists, with emphasis on the small wars of the 20th century and most recent decades. The clear, concise entries provide a breadth of coverage that ranges from the Maccabean Revolt in 168–143 BCE and the Peasants' Revolt in Germany in the 1500s to the American Revolutionary War and the ongoing insurgency in Syria. Readers will gain a solid understanding of how insurgency warfare and counterinsurgency (COIN) strategy has played a key role in the U.S. conflicts in Afghanistan and Iraq in the early 21st century, and grasp how this important military strategy has evolved during modern times.

The Last Emperors of Vietnam Oscar Chapuis, 2000-03-30 This book tells the story of French interaction with Vietnam and the neighboring region, which began with the French seizure of Cochinchina and Tonking in the 19th century under Emperor Tu Duc and ended with their humiliating defeat at Dien Bien Phu in 1954. After the conclusion of treaties with China in the nineteenth century, Western nations sought access to the resource-rich region of Yunnan. After attempts at exploring the Mekong River, the French turned their sights to the Red River. Only after Jean Dupuis successfully linked Hanoi with Yunnan was Admiral Dupre able to begin the conquest of Tonking. This volume begins where Chapuis's *History of Vietnam* left off, completing the colonial history of Vietnam. The decline of French authority in Indochina began with Japanese demands and subsequent occupation during World War II. The 9 March 1945 Japanese coup would mark the beginning of the end of French supremacy; however, French authorities would return with troops to confront the Vietnamese demands for unity and independence after Japan's defeat. Although an agreement between Sainteny and Ho Chi Minh would allow the French army to land in North Vietnam, the creation of the southern Republic of Cochinchina would be a move that ran counter to Vietnamese nationalist sentiment. Nine years later, the French found themselves ousted from their former colony.

New Perceptions of the Vietnam War Nathalie Huynh Chau Nguyen,2014-11-28 The effects of the War outside present-day Vietnam are ongoing. Substantial Vietnamese communities in countries that participated in the conflict are contributing to renewed interpretations of it. This collection of new essays explores changes in perceptions of the war and the Vietnamese diaspora, examining history, politics, biography and literature, with Vietnamese, American, Australian and French scholars providing new insights. Twelve essays cover South Vietnamese leadership and policies, women and civilians, veterans overseas, smaller allies in the war (Australia), accounts by U.S., Australian and South Vietnamese servicemen as well as those of Indigenous soldiers from the U.S. and Australia, memorials and commemorations, and the legacy of war on individual lives and government policy.

Language Typology Alice Caffarel,J. R. Martin,Christian M. I. M. Matthiessen,2004 This book is intended as a systemic functional contribution to language typology both for those who would like to understand and describe particular languages against the background of generalizations about a wide range of languages and also for those who would like to develop typological accounts that are based on and embody descriptions of the systems of particular languages (rather than isolated constructions). The book is a unique contribution in at least two respects. On the one hand, it is the first book based on systemic functional theory that is specifically concerned with language typology. On the other hand, the book combines the particular with the general in the description of languages: it presents comparable sketches of particular languages while at the same time identifying generalizations based on the languages described here as well as on other languages. The volume explores eight languages, covering seven language families: French, German, Pitjantjatjara, Tagalog, Telugu, Vietnamese, Chinese, and Japanese.

The Bamboo Gulag Nghia M. Vo, 2015-04-02 This comprehensive review of the gulag system instituted in communist Vietnam explores the three-pronged approach that was used to convert the rebellious South into a full-fledged communist country after 1975. This book attempts to retrace the path of these imprisoned people from the last months of the war to their escape from Vietnam and explores the emotions that gripped them throughout their stay in the camps. Individual reactions to the camps varied depending on philosophical, emotional and moral beliefs. This reconstruction of those years serves as a memoir for all who were incarcerated in the bamboo gulags.

Vietnam's High Ground J. P. Harris, 2016-09-12 During its struggle for survival from 1954 to 1975, the region known as the Central Highlands was the strategically vital high ground for the South Vietnamese state. Successive South Vietnamese governments, their American allies, and their Communist enemies all realized early on the fundamental importance of this region. Paul Harris's new book, based on research in American archives and the use of Vietnamese Communist literature on a very large scale, examines the struggle for this region from the mid-1950s, tracing its evolution from

subversion through insurgency and counterinsurgency to the bigger battles of 1965. The rugged mountains, high plateaus, and dense jungles of the Central Highlands seemed as forbidding to most Vietnamese as it did to most Americans. During 1954 to 1965, the great majority of its inhabitants were not ethnic Vietnamese. Ngo Dinh Diem's regime initially supported an American counterinsurgency alliance with the Highlanders only to turn dramatically against it. As the war progressed, however, the Central Highlands became increasingly important. It was the area through which most branches of the Ho Chi Minh Trail passed. With its rugged, jungle-clad terrain, it also seemed to the North Vietnamese the best place to destroy the elite of South Vietnam's armed forces and to fight initial battles with the Americans. For many North Vietnamese, however, the Central Highlands became a living hell of starvation and disease. Even before the arrival of the American 1st Cavalry Division, the Communists were generally unable to win the decisive victories they sought in this region. Harris's study culminates with an account of the campaign in Pleiku province in October to November—a campaign that led to dramatic clashes between the Americans and the North Vietnamese in the Ia Drang valley. Harris's analysis overturns many of the accepted accounts about NVA, US, and ARVN performances.
