The Lost Constellations John C. Barentine, 2015-10-23 Casual stargazers are familiar with many classical figures and asterisms composed of bright stars (e.g., Orion and the Plough), but this book reveals not just the constellations of today but those of yesteryear. The history of the human identification of constellations among the stars is explored through the stories of some influential celestial cartographers whose works determined whether new inventions survived. The history of how the modern set of 88 constellations was defined by the professional astronomy community is recounted, explaining how the constellations described in the book became permanently “extinct.” Dr. Barentine addresses why some figures were tried and discarded, and also directs observers to how those figures can still be picked out on a clear night if one knows where to look. These lost constellations are described in great detail using historical references, enabling observers to rediscover them on their own surveys of the sky. Treatment of the obsolete constellations as extant features of the night sky adds a new dimension to stargazing that merges history with the accessibility and immediacy of the night sky.

Empire of Chaos Pepe Escobar,2014-11-11 From Syria and Iraq to Ukraine, from AfPak to Libya, from Iran to Russia, and from the Persian Gulf to China, foreign correspondent Pepe Escobar, author of The Roving Eye column for Asia Times/Hong Kong, crisscrosses what the Pentagon calls the arc of instability. As Escobar tells it in the introduction, the columns selected for this volume follow the period 2009-2014 - the Obama years so far. A continuum with previous volumes published by Nimble Books does apply. Globalistan, from 2007, was an extended reportage/warped travel book across the Bush years, where I argued the world was being plunged into Liquid War - alluding to energy flows but also to the liquid modernity character of post-modern war. Red Zone Blues, also from 2007, was a vignette - an extended reportage centering on the Baghdad surge. And Obama does Globalistan, from 2009, examined how the hyperpower could embark on a change we can believe in. The outcome, as these columns arguably reflect, is Empire of Chaos - where a plutocracy progressively projects its own internal disintegration upon the whole world. You will find some key overlapping nations/themes/expressions/acronyms in these columns; Iran, Iraq, Syria, Afghanistan, Pakistan, Central Asia, China, Russia, Ukraine, Pipelineistan, BRICS, EU, NATO, GCC, the Global South, GWOT (the global war on terror), The New Great Game, Full Spectrum Dominance. You will also

find a progressive drift towards not conventional war, but above all economic war - manifestations of Liquid War. Incrementally, I have been arguing that Washington's number one objective now is to prevent a full economic integration of Eurasia that would leave the U.S. as a non-hegemon, or worse still, an outsider. Thus the three-pronged strategy of pivoting to Asia (containment of China); Ukraine (containment of Russia); and beefing up NATO (subjugation of Europe, and NATO as Global Robocop). Book the ultimate trip to the Empire of Chaos, and see how the U.S. - and the West - are tackling the emergence of a multipolar world.

Genesis 40:8 says God is the interpreter of dreams, but He uses man to convey what He is saying. Global/Local Rob Wilson,Wimal Dissanayake,1996-05-27 This groundbreaking collection focuses on what may be, for cultural studies, the most intriguing aspect of contemporary globalization—the ways in which the postnational restructuring of the world in an era of transnational capitalism has altered how we must think about cultural production. Mapping a new world space that is simultaneously more globalized and localized than before, these essays examine the dynamic between the movement of capital, images, and technologies without regard to national borders and the tendency toward fragmentation of the world into increasingly contentious enclaves of difference, ethnicity, and resistance. Ranging across issues involving film, literature, and theory, as well as history, politics, economics, sociology, and anthropology, these deeply interdisciplinary essays explore the interwoven forces of globalism and localism in a variety of cultural settings, with a particular emphasis on the Asia-Pacific region. Powerful readings of the new image culture, transnational film genre, and the politics of spectacle are offered as is a critique of globalization as the latest guise of colonization. Articles that unravel the complex links between the global and local in terms of the unfolding narrative of capital are joined by work that illuminates phenomena as diverse as yellow cab interracial sex in Japan, machinic desire in Robocop movies, and the Pacific Rim city. An interview with Fredric Jameson by Paik Nak-Chung on globalization and Pacific Rim responses is also featured, as is a critical afterword by Paul Bové. Positioned at the crossroads of an altered global terrain, this volume, the first of its kind, analyzes the evolving transnational imaginary—the full scope of contemporary cultural production by which national identities of political allegiance and economic regulation are being undone, and in which imagined communities are being reshaped at both the global and local levels of everyday existence.

How to Write a Damn Good Novel, II James N. Frey, 2011-04-01 Damn good fiction is dramatic fiction, Frey insists, whether it is by Hemingway or Grisham, Le Carre or Ludlum, Austen or Dickens. Despite their differences, these authors' works share common elements: strong narrative lines, fascinating characters, steadily building conflicts, and satisfying conclusions. Frey's How to Write a Damn Good Novel is one of the most widely used guides ever published for aspiring authors. Here, in How to Write a Damn Good Novel, II, Frey offers powerful advanced

techniques to build suspense, create fresher, more interesting characters, and achieve greater reader sympathy, empathy, and identification. How to Write a Damn Good Novel, II also warns against the pseudo-rules often inflicted upon writers, rules such as The author must always be invisible and You must stick to a single viewpoint in a scene, which cramp the imagination and deaden the narrative. Frey focuses instead on promises that the author makes to the reader—promises about character, narrative voice, story type, and so on, which must be kept if the reader is to be satisfied. This book is rich, instructive, honest, and often tellingly funny about the way writers sometimes fail their readers and themselves.
