**How to Tutor Your Own Child** Marina Koestler Ruben, 2011-08-02 Tutoring today is a \$4 billion industry (yes—billion) with companies like Sylvan Learning Center and Kaplan Tutoring cashing in. So, what are parents of today's overextended students to do? Top professional tutor Marina Koestler Ruben empowers you to take a do-it-yourself approach to your child's after-school enrichment. As a parent-tutor, you will learn how provide holistic academic support for your children and create an intellectual environment in the home—strengthening your relationship and improving parent-child communication in the process. Ruben's accessible guide shows you how to balance big-picture curiosity with the academic nitty-gritties of homework assignments, organization, and electronic resources. Building on her proven "Six-Step Session" format, Ruben shares the secrets to tutoring children in any subject from kindergarten through high school—all with a warm, entertaining tone that will inspire you to inspire them.

**Fluent Forever** Gabriel Wyner, 2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

**Teacher Education and Professional Development In Industry 4.0** Ashadi, Joko Priyana, Basikin, Anita Triastuti, Nur Hidayanto Pancoro Setyo Putro, 2020-10-20 The main theme of the proceedings of the 4th International Conference on Teacher Education and Professional Development (InCoTEPD 2019) is "Teacher Education and Professional Development in Industry 4.0. The papers have been carefully grouped under the subthemes of teacher education and professional development, curriculum, learning materials, teaching-learning process, technology and media, and assessment in Industry 4.0 education. They also cover vocational education in the era in question and one section is devoted to Industrially disadvantaged societies. As these papers were presented at an internationally refereed conference dedicated to the advancement of theories and practices in education, they provide an opportunity for academics and professionals from various educational fields with cross-disciplinary interests to bridge the knowledge gap and promote research esteem and the evolution of pedagogy.

**The Teacher of the 21st Century** Linda Daniela, Ineta Luka, Lūcija Rutka, 2014-03-17 The Association for Teacher Education in Europe (ATEE) is a non-profit European organisation, aimed at enhancing the quality of Teacher Education in Europe, and supporting the professional development of teachers and teacher educators at all levels. The ATEE Spring conference takes place every other year and is organized by the University of Latvia. The Spring conference in 2013 was the sixth such conference. The contents of this book contain the best articles written by participants at the 2013 conference, and present the exchange of ideas between European teacher educators, in addition to experiences, research and ideas from outside Europe. European experience, knowledge and research support the general enhancement of the quality of teacher education throughout the world. As such, this book stimulates dialogue between teacher educators, researchers on teacher

education, students, teachers, employers, politicians, supervisory bodies, NGOs and other groups involved in teacher education and research, and innovation in teacher education.

**The Professional Development of Teacher Educators** Tony Bates, Anja Swennen, Ken

Jones, 2014-12-18 This book makes a significant contribution to a hitherto much neglected area. The book brings together a wide range of papers on a scale rarely seen with a geographic spread that enhances our understanding of the complex journey undertaken by those who aspire to become teachers of teachers. The authors, from more than ten countries, use a variety of approaches including narrative/life history, self-study and empirical research to demonstrate the complexity of the transformative search by individuals to establish their professional identity as teacher educators. The book offers fundamental and thoughtful critiques of current policy, practice and examples of established structures specifically supporting the professional development of teacher educators that may well have a wider applicability. Many of the authors are active and leading persons in the international fields of teacher education and of professional development. The book considers: novice teacher educators, issues of transition; identity development including research identity; the facilitation and mentoring of teacher educators; self-study research including collaborative writing, use of stories; professional development within the context of curriculum and structural reform. Becoming a teacher is recognised as a transformative search by individuals for their teaching identities. Becoming a teacher educator often involves a more complex and longer journey but, according to the many travel stories told here, one that can be a deeply satisfying experience. This

book was published as a special issue of Professional Development in Education.

*Continuing Professional Development for Teachers* Carol Morgan, Peter Neil, 2004-03-01 This volume is designed for teachers, whether just setting out or climbing the ladder. It examines the complex set of options and requirements facing teachers, from qualifying as a teacher to developing skills through middle and senior roles, and continually improving teaching skills.

*Redefining Teacher Preparation* Caroline M. Crawford, Ph.D, Sandra L. Hardy, Ph.D, 2017-10-11 The text focuses upon redefining teacher preparation through learning from experience pertaining to advocacy, equity, leadership, and professionalism for classroom teachers as associated teacher educators in all settings. The chapters highlight Association of Teacher Educators Standards and offer connections to classroom educators at all stages.

**Teacher Education: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2016-05-19 Educators play a significant role in the intellectual and social development of children and young adults. Next-generation teachers can only be as strong as their own educational foundation which serves to cultivate their knowledge of the learning process, uncover best practices in the field of education, and employ leadership abilities that will inspire students of all ages. *Teacher Education: Concepts, Methodologies, Tools, and Applications* explores the current state of pre-service teacher programs as well as continuing education initiatives for in-service educators. Emphasizing the growing role of technology in teacher skill development and training as well as key teaching methods and pedagogical developments, this multi-volume work compiles research essential to higher education professionals and administrators, educational software developers, and researchers studying pre-service and in-service teacher training.

*Evaluating Teacher Education Programs through Performance-Based Assessments* Polly, Drew, 2016-02-10 Performance-based assessments have become a critical component of every teacher education program. Such assessments allow teacher candidates to demonstrate their content and pedagogical knowledge, skills, and dispositions in an authentic setting. *Evaluating Teacher Education Programs through Performance-Based Assessments* analyzes and discusses the theory and concepts behind teacher education program evaluation using assessment tools such as lesson plans, classroom artifacts, student work examples, and video recordings of lessons. Emphasizing critical real-world examples and empirically-based studies, this research-based publication is an ideal reference source for university administrators, teacher educators, K-12 leaders, and graduate students in the field of education.

**Teaching Reading in the 21st Century** Michael F. Graves, Connie Juel, Bonnie B. Graves, 2001 Expanding the book's critical literacy theme, this edition emphasizes a full, balanced range of knowledge and skills for teaching reading to all learners. Informed by the latest research on topics ranging from phonemic awareness and phonics to reader response and teaching for understanding, the book gives teachers the knowledge and skills to successfully guide elementary students toward critical literacy - the use of reading and writing to think clearly, solve problems, and communicate effectively. The content is rich in first-person accounts, classroom vignettes, and hands-on literacy activities. Some principal themes include: balancing skills instruction and more holistic approaches; fostering the love of reading; using reader response theory to enhance reading instruction; and successfully teaching all students to become able and eager readers. For teachers of elementary reading methods.

*Intelligent Language Tutors* V. Melissa Holland, Jonathan D. Kaplan, Michelle R. Sams, 2014-01-09 The techniques of natural language processing (NLP) have been widely applied in machine

translation and automated message understanding, but have only recently been utilized in second language teaching. This book offers both an argument for and a critical examination of this new application, with an examination of how systems may be designed to exploit the power of NLP, accommodate its limitations, and minimize its risks. This volume marks the first collection of work in the U.S. and Canada that incorporates advanced human language technologies into language tutoring systems, covering languages as diverse as Arabic, Spanish, Japanese, and English. The book is organized into sections that express the levels of analysis dealt with in learning and teaching a language and with the tasks of the student as writer, reader, conversant, and actor in the world. These sections bring together research by specialists in linguistics, artificial intelligence, psychology, instructional design, and language teaching. In addition to providing detailed descriptions of working systems, amply illustrated with screens from lesson and authoring interfaces, the contributors address a spectrum of common issues: \* What can current NLP technology contribute to computer-assisted language instruction and to research on language learning? \* How can this technology meet the demands of pedagogical theory for communicative language teaching in authentic contexts? \* How can designers constrain tutoring environments to ensure accurate analysis of learners' language? \* What can NLP-based systems teach us about language acquisition, about linguistic theory, and about theories of language pedagogy? \* What lessons have been learned in using these systems to date? Discipline-specific issues are illuminated as well: the relative merits of the major syntactic frameworks for NLP-based language tutoring; the adaptation of theories like lexical conceptual structure to support semantic interpretation; the integration of input language with visual microworlds and dialogue games; the pragmatics of the tutoring discourse; the selection of instructional principles to guide system design; and the accommodation of design to individual differences and learner styles. A concluding section assesses this work from larger theoretical and practical perspectives -- experimental psychology and psycholinguistics, linguistics, language teaching, and second language acquisition research.
