Heartland TV Victoria E. Johnson, 2008 Winner of the 2009 Society for Cinema and Media Studies Katherine Singer Kovacs Book Award The Midwest of popular imagination is a Heartland characterized by traditional cultural values and mass market dispositions. Whether cast positively –; as authentic, pastoral, populist, hardworking, and all-American–or negatively–as backward, narrow-minded, unsophisticated, conservative, and out-of-touch–the myth of the Heartland endures. Heartland TV examines the centrality of this myth to television's promotion and development, programming and marketing appeals, and public debates over the medium's and its audience's cultural worth. Victoria E. Johnson investigates how the square image of the heartland has been ritually recuperated on prime time television, from The Lawrence Welk Show in the 1950s, to documentary specials in the 1960s, to The Mary Tyler Moore Show in the 1970s, to Ellen in the 1990s. She also examines news specials on the Oklahoma City bombing to reveal how that city has been inscribed as the epitome of a timeless, pastoral heartland, and concludes with an analysis of network branding practices and appeals to an imagined red state audience. Johnson argues that non-white, queer, and urban culture is consistently erased from depictions of the Midwest in order to reinforce its reassuring image as white and straight. Through analyses of policy, industry discourse, and case studies of specific shows, Heartland TV exposes the cultural function of the Midwest as a site of national transference and disavowal with regard to race, sexuality, and citizenship ideals.

Where Ideas Go to Die Michael McDevitt,2020-05-01 Ideas die at the hands of journalists. This is the controversial thesis offered by Michael McDevitt in a sweeping examination of anti-intellectualism in American journalism. A

murky presence, anti-intellectualism is not acknowledged by reporters and editors. It is not easily measured by scholars, as it entails opportunities not taken, context not provided, ideas not examined. *Where Ideas Go to Die* will be the first book to document how journalism polices intellect at a time when thoughtful examination of our society's news media is arguably more important than ever. Through analysis of media encounters with dissent since 9/11, McDevitt argues that journalism engages in a form of social control, routinely suppressing ideas that might offend audiences. McDevitt is not arguing that journalists are consciously or purposely controlling ideas, but rather that resentment of intellectuals and suspicion of intellect are latent in journalism and that such sentiment manifests in the stories journalists choose to tell, or not to tell. In their commodification of knowledge, journalists will, for example, clarify ideas to distill deviance; dismiss nuance as untranslatable; and funnel productive ideas into static, partisan binaries. Anti-intellectualism is not unique to American media. Yet, McDevitt argues that it is intertwined with the nation's cultural history, and consequently baked into the professional training that occurs in classrooms and newsrooms. He offers both a critique of our nation's media system and a way forward, to a media landscape in which journalists recognize the prevalence of anti-intellectualism and take steps to avoid it, and in which journalism is considered an intellectual profession.
